Kayla Harwell has a long history in New York City. Her father is a well-known real estate mogul and she started, designs for, and runs her own fashion house that has become exceedingly popular in the fashion world. The women in the family also have a dark history. Many of them have been diagnosed with and have been treated for breast cancer. Kayla has lost a cousin and her grandmother to the terrible disease. So, when Kayla finds a lump in her breast just before her best friend, Alexa Marcum's wedding, she is completely shaken. Help, however, comes from an unlikely source, NYPD detective, Orlando Barticelli. Orlando Barticelli is a self-proclaimed bachelor, wearing the nickname, Man-Whore, given by his friends, like he wears the detective shield around his neck, proudly. He has no intentions of settling down, even as he watches his best friend get married. When Kayla tells her friends that she may have breast cancer, his mother's battle with the same disease resurrects in his mind and he finds himself volunteering to be by Kayla's side when she receives her diagnosis. As Kayla begins her journey through the breast cancer process, Orlando finds himself mesmerized by her beauty, intelligence, and wit, as well as wanting to be the only one to comfort her when she breaks down in tears. But he hesitates to get too close because of what he has seen his job due to relationships. Kayla is uncertain about getting close to Orlando, because of his reputation, her inexperience with dating and the uncertainty of what her diagnosis means for her future. The possibility of losing one another makes them reassess their feelings for one another. They must learn to be strong and understand the vows of love in sickness and in health.

For more than a decade, Marion Jones was hailed as the “the fastest woman on the planet.” At the 2000 Olympic Games in Sydney, Australia, she became the first woman ever to win five medals at one Olympics. That same year, the Associated Press and ESPN named her

Athlete of the Year. She was on the cover of Vogue and Time. She seemed to have it all—fame, fortune, talent, and international acclaim. Now she is a convicted felon. The trouble started in 2003 when she lied to federal agents about her use of a performance-enhancing drug and her knowledge of a check fraud scam. In 2007, no longer able to live with the lies, she admitted the truth. In a sad end to what seemed like a storybook career, she was stripped of her medals, and her track-and-field records were wiped from the books. She was incarcerated at Carswell federal prison in Fort Worth, Texas—a prison known for its violence and abuse. While there, she kept herself in shape and her sanity intact by running on a dirt track and a treadmill in the prison's improvised weight room. But her imprisonment was not the end for Marion Jones. In fact, it marked a new beginning. She is now using her story to change the lives of people the world over and inspire others who, like her, face obstacles that seem insurmountable. *On the Right Track* is the candidly told story of how Marion came to grips with her lies and the consequences of her actions, and how she found meaning in all of it. What she tells her children and has now applied to her own life is that when you make a mistake, you admit it, you accept the consequences, you move on, you make the wrong a right. She teaches her children and others to take a break and pause before making impulsive and potentially harmful decisions. At the heart of this book are real issues that we all face: learning to grow through pain; making decisions that will help us far into the future; overcoming failure and discouragement; and applying practical principles that point the way to personal and spiritual breakthrough.

What does it mean to be naked in public? Approaching this question from across the disciplines, this book examines the evolution of female exhibitionism from criminal taboo to prime-time entertainment. Taking an interdisciplinary approach which brings together all fields of popular culture, including literature, media, film and linguistics, Claire Nally and Angela Smith offer an examination of gendered exhibitionism from the mid-twentieth century to the present day. They ask whether bodily exposure provides the liberation it professes to or restricts our most secret selves to the sanitised realm of socially-sanctioned gender roles. From the art of burlesque as a riotous kingdom of the imagination to reality TV which helps women to unearth their 'true' and buried feminine selves, Nally and Smith explore how the critical history and theory of exhibitionism intersects with the wider movement towards gender equality. Examining effects of second-wave feminism to problematise the naked female form, female and gender-transgressive performers from Bette Davis to Dita von Teese are placed in their cultural context. In order to demonstrate that female exhibitionism remains at the heart of popular culture, this book also examines the works of Peter Ackroyd and the controversial playwright Sarah Kane, uncovering the contradictions behind evolving representations of public exposure. Within a post-feminist framework, the cultural constructions behind the repackaging of female exhibitionism are explored and the prominence of bodily exposure in popular culture examined, along with the implications of those artists who perform gender as a public masquerade. Finally, hit TV shows 'Ladette to Lady' and 'How to Look Good Naked' are interrogated to expose the buried contradictions behind this public unveiling: are women seizing control of their own identity, or is this revelation an illusion? Innovative, unflinching and pertinent, 'Naked Exhibitionism' explores naked bodies in the public gaze and critically reformulates the feminist and cultural debate around the performance of gender. expert advice for entrepreneurs on its head. They show that by preparing for setbacks and using a framework that can help reduce risks and simplify decision making, entrepreneurs can increase their probability for success. They refute the idea that there is an ideal entrepreneurial “type,” and show that luck can be as important as a business plan in many enterprises. Above all, the authors emphasize that entrepreneurship is a career, not a one-time event, and winners are those who can keep themselves in the game. *Never Bet the Farm* is an easy-to-understand and attractive tool for anyone who has a business idea, but who might be wary of the risks implied in starting their own business.

Although his film career extended from the early days of sound to the British New Wave and beyond, Sir John Mills is nonetheless remembered as the archetypal hero of the Second World War. Regarded as an English 'everyman', his performances crossed the class divide and, in his easy transition from below decks to above, he came to represent a newly democratic masculine ideal. But what was this exemplary masculinity and what became of it in the aftermath of war? *John Mills and British Cinema* asks how was it possible for an actor to embody national identity and, by exploring the cultural contexts in which Mills and the nation became synonymous, the book offers a new perspective on 40 years of cinema and social change. Through detailed analysis of a wide range of classic British films, *John Mills and British Cinema* exposes the shifting constructions of 'national' masculinity, arguing that the screen persona of the actor is a fundamental, and often overlooked, dimension of British cinema.
