Rethinking a key epoch in East Asian history, Hyun Ok Park formulates a new understanding of early-twentieth-century Manchuria. Most studies of the history of modern Manchuria examine the turbulent relations of the Chinese state and imperialist Japan in political, military, and economic terms. Park presents a compelling analysis of the constitutive effects of capitalist expansion on the social practices of Korean migrants in the region. Drawing on a rich archive of Korean, Japanese, and Chinese sources, Park describes how Koreans negotiated the contradictory demands of national and colonial powers. She demonstrates that the dynamics of global capitalism led the Chinese and Japanese to pursue capitalist expansion while competing for sovereignty. Decentering the nation-state as the primary analytic rubric, her emphasis on the role of global capitalism is a major innovation for understanding nationalism, colonialism, and their immanent links in social space. Through a regional and temporal comparison of Manchuria from the late nineteenth century until 1945, Park details how national and colonial powers enacted their claims to sovereignty through the regulation of access to land, work, and loans. She shows that among Korean migrants, the complex connections among Chinese laws, Japanese colonial policies, and Korean social practices gave rise to a form of nationalism in tension with global revolution—a nationalism that laid the foundation for what came to be regarded as North Korea's isolationist politics.

Theodore, Archbishop of Canterbury (668SH90), shaped the English Church into a structure it has retained for a millennium. Yet until recently he has remained a shadowy figure, whose early career in the Near East and at Rome has been unknown. In this book, which builds on the 1994 publication of previously unprinted Biblical commentaries from Theodore's Canterbury school, internationally distinguished scholars provide a fresh account of the career and writings of a unique personality who brought to Anglo-Saxon England the cultural heritage of Syria, Byzantium and Rome.

This book offers fresh insights into the contemporary state of Ecumenism. Following the election of Pope Francis, there has been a significant thaw in ecumenical relations, and there are grounds for thinking that this will continue

into the future. The twelve chapters, written both by experienced ecumenical theologians as well as younger scholars, that have been gathered together in this collection, offer one of the first detailed assessments of the impact of Francis' papacy on ecumenical dialogue. Drawing on ecumenical methodology, as well as many practical examples and illustrations, the authors discuss the developments in culture and missiology as these affect the practice of ecumenism, particularly in response to theologies of hope as well as inter-religious dialogue and pluralism. What emerges is a clear sense of hope for the future in a rapidly changing world and even a sense of optimism that real ecumenical progress might be made.

A Comprehensive Cyclopedic of Information for the Home, from 1887. "In presenting to the public the "WHITE HOUSE COOK BOOK," the publishers believe they can justly claim that it more fully represents the progress and present perfection of the culinary art than any previous work. In point of authorship, it stands preeminent. Hugo Ziemann was at one time caterer for that Prince Napoleon who was killed while fighting the Zulus in Africa. He was afterwards steward of the famous Hotel Splendide in Paris. Later he conducted the celebrated Brunswick Cafe in New York, and still later he gave to the Hotel Richelieu, in Chicago, a cuisine which won the applause of even the gourmets of foreign lands. It was here that he laid the famous "spread" to which the chiefs of the warring factions of the Republican Convention sat down in June, 1888, and from which they arose with asperities softened, differences harmonized and victory organized. Mrs. F.L. Gillette is no less proficient and capable, having made a life-long and thorough study of cookery and housekeeping, especially as adapted to the practical wants of average American homes."

Were you aware of the fact that air fryers cook food with lower fat content and thus help decrease calorie consumption? Air fryers can encourage weight loss due to the way in which foods are cooked. Compared to deep-frying, utilizing an air fryer may minimize the use of dietary acrylamide, a chemical which is associated with some forms of cancer. Air-fried foods are comparatively lower than deep-fried foods in calories, fat, and acrylamide, which makes consuming such foods healthier. Hans Florine embodies the genius of "and"—collaborative and competitive, fast and safe, audacious and disciplined, visionary and quantitative. The themes that run through Florine's 101 ascents of Yosemite's most iconic route can benefit people who will never climb a rock, indeed anyone inspired by the idea of a passionate, lifelong quest of any type. —Jim Collins, author of Good to Great

Hans Florine is a big-wall climbing legend in his own time. He holds the speed record on the Nose route of El Capitan, a 3,000-foot granite cliff in Yosemite Valley that's considered the Everest of the rock-climbing world. Ascending the Nose takes most climbers anywhere from 12 to 96 hours. Florine, along with climbing partner Alex Honnold, does it in an astounding 2.5 hours. But Florine's story is not one of super-human athletic prowess; it's one of persistence and dogged determination. In 30 years of climbing, he's ascended the Nose a mind-blowing, death-defying 100 times, more than anyone else ever has, and most likely ever will. In *On the Nose*, Florine describes the most dangerous, pivotal, and inspirational of those climbs, providing a rare look inside the adrenaline-charged world of competitive climbing in Yosemite Valley. He tells of his very first attempt on the Nose, which ended in failure after 14 hours, his friendships (and rivalries) with climbing's most colorful personalities, and his battle with Dean Potter to secure the definitive speed record on the Nose—an endeavor that's been called the wildest competition known to man. Perhaps most interestingly, Florine attempts to answer the question why. Why would anyone undertake one of the greatest adventure epics on earth 100 times? His answers provide unique insights on how to live a satisfying life, how to achieve big goals, and how an otherwise ordinary guy can become a rock star.
