

Police Family Liaison Blackstones Practical Policing

Phil Hardy, Fraser Sampson

Police Family Liaison Duncan McGarry, 2011 This is the first practical guide to the sensitive topic of family liaison, aimed directly at the police. It focuses on the key role that family liaison plays in the police service, explains how the role has developed and provides practitioners with a clear understanding of why relatives and friends are entitled to the highest standard of response from the police --and also why no investigation can be truly effective without this relationship being supported, resourced and supervised throughout. The book covers a wide range of important issues including the development and delivery of training, operating protocols, contacting and establishing relationships with the family, management and mass fatalities. Highly practical, it includes examples, illustrative diagrams, summary sections and checklists, plus a wide range of case study chapters based on key events, including the the Ladbroke Grove Rail Crash, the 2004 Tsunami, the Bali Bombings, the September 11th attacks and the London Bombings of July 7th. This book is a must for all those who work in this difficult area. The Blackstone's Practical Policing Series is a collection of highly practical, up-to-date titles covering a range of essential subjects in today's policing arena. Developed from a detailed understanding of police information needs, this series seeks to explain the relevant law, practice and procedure from a police officer's perspective.

Blackstone's Police Operational Handbook: Practice and Procedure Clive Harfield, 2009-08-27 This practical handbook follows the successful flexicover format of Blackstone's Police Operational Handbook and is designed to complement that publication by offering guidance on good practice in core policing areas. The Handbook provides guidance on a structured approach to police work based on established national principles and practices and is divided into four parts: Evidence Management, which offers advice on the capture and handling of evidence with chapters on crime scene management, disclosure, witness and victim management and court procedure; Knowledge-based Policing, which outlines the National Intelligence Model, the Police Code of Conduct, ACPO values, human rights, planning and risk management and dealing with the media; Neighbourhood Policing, which covers the principles and team structures, partnerships, problem-solving techniques and crime prevention; and Protective Services Policing which looks at the role of the first responder in major incident response, major crime, and civil

contingencies. Commentary is accompanied with features such as boxed examples, checklists, diagrams, practical tips and flow-charts, to aid reader's grasp of the issues.

Now in its fourth edition, this Handbook takes you through all the stages inherent to an SIO's role: from management and leadership, decision making, writing policy books to the initial response and crime scene management, conducting searches, applying investigative strategies, managing victims, suspects and witnesses, family liaison and conducting death investigations and sudden infant deaths. Whether you conduct, review or take a professional interest in major and serious crime investigations, this title will be an invaluable resource. Commonly referred to as the 'must have' reference book, it is a highly practical tool for any SIO or prospective SIO.

Understanding and Supporting Law Enforcement Families Robert P. Delprino,2017-12-27 Understanding and Supporting Law Enforcement Families, through a synthesis of the research literature, presents and explores some of the challenges faced by police families as well as developments that have taken place to support them in balancing family and work life. There are demands and requirements from the job over which family members have little control. Shift work, negative public perceptions of law enforcement, changes in the officer's personality as well as living with the potential that their loved one may be injured or killed are among the unique challenges law enforcement families face. These extraordinary life events are discussed as well as the potential physical and psychological reactions to these stressors. In addition to an overview of support programs and services, specific resources from national organizations are provided on support for family members of an officer killed in the line of duty, and organizational policies for the funeral of an officer who commits suicide, and officer domestic violence. This book examines the existing research as a means to clarify issues faced by law enforcement families and discusses the availability of resources to provide the support these families need and deserve. A great deal of realizing that potential will be dependent upon actively including the law enforcement family in all aspects of the support process. It is not a conventional self-help book but intended for researchers, practitioners, students, and others with interest in the study

and support of law enforcement families.

Wrong Place Michelle Davies,2017-02-23 Wrong Place is the second gripping crime novel in the DC Maggie Neville series from Michelle Davies, following her critically acclaimed debut Gone Astray. Two women lie hospital beds, both subjects of police investigations. One, a vulnerable old lady, has been assaulted in her own home. Suspected to be the fifth victim of a young couple targeting pensioners, her injuries indicate an escalation in violence from the perpetrators. The second, a wife, has been attacked by her own husband, who subsequently fails in his own attempt to kill himself. Whilst there are no obvious parallels between the victims, DC Maggie Neville, the Family Liaison Officer involved in both cases, begins to question what happened. Is it simply a case of both being in the wrong place at the wrong time or is something far more sinister at play?
