Financial Risk Management and Derivative Instruments offers an introduction to the riskiness of stock markets and the application of derivative instruments in managing exposure to such risk. Structured in two parts, the first part offers an introduction to stock market and bond market risk as encountered by investors seeking investment growth. The second part of the text introduces the financial derivative instruments that provide for either a reduced exposure (hedging) or an increased exposure (speculation) to market risk. The fundamental aspects of the futures and options derivative markets and the tools of the Black-Scholes model are examined. The text sets the topics in their global context, referencing financial shocks such as Brexit and the Covid-19 pandemic. An accessible writing style is supported by pedagogical features such as key insights boxes, progressive illustrative examples and end-of-chapter tutorials. The book is supplemented by PowerPoint slides designed to assist presentation of the text material as well as providing a coherent summary of the lectures. This textbook provides an ideal text for introductory courses to derivative instruments and financial risk management for either undergraduate, masters or MBA students.

In 1978 Julian Richer, then aged just nineteen, opened his first shop near London Bridge. For over twenty years this shop has been listed in the Guinness Book of Records as having the highest sales per square foot of any retail outlet in the world, and the company as a whole, with its fifty-three stores nationwide and huge online presence, has become Britain's favourite retailer of TV and hi-fi equipment. What lies behind this extraordinary success? For Julian, the answer is simple: throughout his career he has focussed relentlessly on putting people – both staff and customers – right at the centre of his business. And in *The Richer Way*, he offers a supremely practical guide to how others can follow suit. He explains how to motivate employees and measure their progress. He establishes how to balance company discipline with individual autonomy. He explores what 'customer service' should really involve. Above all, he points the way to creating an open, friendly and flexible culture that will not only attract the best people but also offer the greatest chance of business success. Packed with straightforward, common-sense advice, *The Richer Way* will prove essential reading for all organisations, whatever their nature and size.

This first title in Scholastic's *Hockey Greats* series explores the lives of three fantastic hockey greats: Jean Beliveau, Vincent Lecavalier, and of course, "The Great One" himself, Wayne Gretzky. Each of these biographies goes beyond the well-known stats and really examines what made these players superstars. Highlights include: significant games, milestones, Stanley Cup championships, as well as extensive stats and records. Full-colour photos of these legendary players accompany the text, and help give a thorough portrait of true hockey heroes.

When DoorMouse accidentally rides a rocket into space, it's up to Nickelodeon's Team Umizoomi to bring him back to Earth. Dick Rouston claimed Jane Cowrer murdered his fiancée, which made for a pretty awkward situation, since Jane was equally convinced that Dick had murdered her. But Jane isn't really Jane. She's wealthy Gloria Rouston--or at least she was until someone pushed her off a bridge one night while she was vacationing with Dick and several gold-digging friends and relatives. She managed to escape that attempt on her life with only a concussion and a few scratches. She figured the killer would just finish her

off if she returned home, so she used the wad of money in her purse to pay for a little plastic surgery and went back to her home town to do a little sleuthing, hoping that no one would see plain old Gloria in the new body and face sported by the now glamorous Jane.

Following the dream of a room that she shouldn't remember, Ari, a cyborg who's entirely made of metal but for her human brain, is woken by her Dad, the man who built her into what she is today. Just so she can get back to another day of life among a group of young adults known as 'reborn'. She was one of many children that were taken from their parents, memory wiped, placed in jars, and forced to live and train in a virtual reality until they came of age and got a metal body. Only to then act as supposed peacekeepers between the streets of a walled-off Baltimore stricken by crime and poverty and the Mega City floating above that now houses the well-off. As one of the original reborn, this is a life Ari has gotten to know better than most others. No matter the danger, she can handle it. At least until that danger is the very reality she has come to know, the family she no longer remembers, and the people she calls her own. When pieces of the past finally come together, she has to pick a side. Who matters the most? The family that is lost to time, the family that floats in the clouds above, or the family that roams the streets below? "Who let you decide? Who made it so you can play God?" -Ari

By definition, winning means that you competed and you came out ahead. Human nature requires us to compete in order to survive. Therefore, winning and survival have the element of success in common. To ascend to a winning position, you need a goal, a desire to achieve it, and the qualities of discipline, perseverance and action to attain it. Having your goal and setting yourself up to achieve your goal is the first step in the process. You adjust your mindset and begin to plan diligently. Goals may be as different as DNA, but methodologies have much in common. Furthermore, your plans and expectations will need adjustments as you go along. That is why the knowledge shared by the CelebrityExperts(r) in this book will be of importance to you. The advice and suggestions of these CelebrityExperts(r) are based on their experiences - both their accomplishments and their shipwrecks. The knowledge they share will allow you to make plans that can propel you in the right direction. That is the function of a mentor - to guide you where you are going and to advise what to avoid. If you wish to develop The Winning Way to your goals, read on... You will never win if you never begin. Helen Row
