This book approaches environmentalism via two academic disciplines, sociology and philosophy. Both have concerns about the environment's ability not only to sustain itself but to thrive. The authors argue that rather than simple sustainability, we must promote thriving for the sake of protecting the environment and all living things. In this greatly expanded second edition, the authors have updated data and examples, introduced new topics and concepts, and emphasized the need to lessen our dependence on fossil fuels. Numerous topics are explored, from the differences between sustainability and thriving, and the overuse of plastic, to mass extinction, the role of natural disasters and more. The COVID-19 pandemic offers an added perspective on the relationship between disease and the environment.

2014: The Year of Action By: Bepty Antoine 2014: The Year of Action is a broad-ranging compendium of the events, conflicts, and progress recently seen throughout the world. Written from the perspective of an immigrant with a particular heart for the poor, this unique tome focuses on the influential work of two world leaders, United States President Barack Obama and Pope Francis. Bepty Antoine utilizes historical and cultural knowledge to frame events within a larger context, presenting the actions both men have taken to further social justice issues, often connecting these concerns to environmental crises. Drawing on the tenants of their Christian faith, both the President and the Pope have sought to defend immigrants, refugees, and the global poor, and their efforts, often in the face of extreme opposition, are carefully detailed and celebrated. 2014: The Year of Action focuses on the impressive achievements of two modern heroes and places their struggles for progress within the wider context of current events and popular culture. Wine serves an important role both in Scripture and in the Christian church, but its significance has received relatively little theological attention in modern times. This book fills that gap. Viewing wine as a gift of God's created bounty and as a special symbol used pervasively throughout Scripture, Kreglinger canvasses the history of wine in the church, particularly its use in the Lord's Supper, discusses the fascinating process of winemaking, and considers both the health benefits of wine and the dangers of alcohol abuse. Offering a vision of the Christian life that sees God in all things - including the work of a vintner and the enjoyment of a well crafted glass of wine.

The bishops open a new avenue of dialogue in the sometimes convoluted discussions about global warming, offering a distinctively religious and moral perspective on the need for environmental protection.

To young Christians of the world, Pope Francis has a message for you: "Christ is alive, and he wants you to be alive!" In his fourth apostolic exhortation, Christus Vivit, Pope Francis encapsulates the work of the 2018 synod of bishops on "Young People, The Faith, and Vocational Discernment." Pope Francis has always had a special relationship with young people, and in his fatherly love for you he shows that: You can relate to young people in Scripture who made a difference You identify with the Christ who is always young You face difficult issues in the world today You yearn for the truth of the Gospel You are

capable of amazing things when you respond to the Gospel You learn and grow with help from the faithful of all generations You need bold and creative youth ministry You can discover who God made you to be You are urged to pray for discernment Christus Vivit is written for and to young people, but Pope Francis also wrote it for the entire Church, because, as he says, reflecting on our young people inspires us all. "May the Holy Spirit urge you on as you run this race. The Church needs your momentum, your intuitions, your faith. We need them! And when you arrive where we have not yet reached, have the patience to wait for us."

In all the coverage of the priestly sexual abuse scandal in the Catholic Church, one story has been left untold: the story of the everyday lives of Catholic priests in America, which remain so little understood as to be a secret, even as one priestly sexual predation after another has come to light. In *The Other Side of the Altar*, Paul Dinter tells one priest's story--his own--in such a way as to reveal the lives of a generation of priests that spanned two very different eras. These priests entered the ministry in the 1960s, when Catholic seminaries were full of young men inspired by both the Church's ancient faith and the Second Vatican Council's promises of renewal. But by the early 1970s, the priesthood--and the celibate fraternity it depended upon--proved quite different from what the Council had promised. American society had changed, too, particularly in the area of sexuality. As a result, there emerged a clerical subculture of denial and duplicity, which all but guaranteed that the sexual abuse of children by priests would be routinely covered up by the Church's bishops. Dinter, now married and raising two stepdaughters, left the priesthood in 1994 over the issue of celibacy, but not before having occasion to reflect on the whole range of priestly struggles with celibacy and sexual life in general--in Rome and rural England, on an Ivy League campus, and in parish rectories of the archdiocese of New York. His candid and affecting account--written from the other side of the altar, so to speak--makes clear that celibacy, sexuality, and power among the clergy have long been intertwined, and suggests how much must change if the Catholic Church hopes to regain the trust of its people.

For every major feast, saint's day and commemoration in the calendars of the Anglican churches of the UK, this liturgical resource and spiritual companion offers a feast of readings that reflects the richness, depth and variety of the Christian tradition from the earliest years of the church to the present day. Writings from across the centuries represent the Eastern, Western, Roman and Celtic traditions and constitute a vibrant history of Christianity manifested in the lives of hundreds of holy men and women as diverse as first century martyrs, or twentieth century social reformers. A complementary volume to *Exciting Holiness* which provides scripture readings and prayers for the calendar, this is now updated to include the additional commemorations in the Church of England's calendar of saints.

Prizewinning historian Garry Wills argues that changes have been the evidence of life in the Catholic Church. It has often changed, sometimes with unwanted consequences, more often with good. In this brilliant and incisive study, he gives seven examples of deep and serious change that have taken place (or is taking place) within the last century. As Wills contends, it is only by examining the history of the Church that we can understand Pope Francis's and the Church's challenges.

The Market has deified itself, according to Harvey Cox's brilliant exegesis. And all of the world's problems--widening inequality, a rapidly warming planet, the injustices of global poverty--are consequently harder to solve. Only by tracing how the Market reached its divine status can we hope to restore it to its proper place as servant of humanity.

The New York Times bestselling author of *The Jesuit Guide to (Almost) Everything* turns his attention to the relationship between LGBTQ Catholics and the Church in this loving, inclusive, and revolutionary book. On the day after the Orlando nightclub shooting, James Martin S.J. appeared in a video on Facebook in which he called for solidarity with our LGBTQ brothers and sisters. "The largest mass shooting in US history took place at a gay club and the LGBTQ community has been profoundly affected" he began. He then implored his fellow Catholics—and people everywhere—to "stand not only with the people of Orlando but also with their LGBTQ brothers and sisters. . . . Sadly of all the US Catholic bishops who expressed their condolences after the shooting, only one that I know . . . made any explicit reference to the LGBT community." A powerful call for tolerance, acceptance, and support—and a reminder of Jesus' message for us to love one another—Father Martin's post went viral and was viewed more than 1,6 million times. Now, Martin expands on his reflections in this moving and inspiring book, offering a powerful, loving, and much-needed voice in a time marked by anger, prejudice, and divisiveness. Adapted from a talk he gave to New Ways Ministry, a group that ministers to and advocates for LGBT Catholics, *Building a Bridge* provides a roadmap for repairing and strengthening the bonds that unite all of us as God's children. Martin uses the image of a two-way bridge for LGBTQ Catholics and the Church to come together in a call to end the "us" versus "them" mentality. Turning to the Catechism, he draws on the three criteria at the heart of the Christian ministry—respect, compassion, and sensitivity—as a model for how the Catholic Church should relate to the LGBT community.

"[We need] a grassroots, bottom-up movement that understands the challenge in front of us, and then organizes against monopoly power in communities across this country. This book is a blueprint for that organizing. In these pages, you will learn how monopolies and oligopolies have taken over almost every aspect of American life, and you will also learn about what can be done to stop that trend before it is too late." —From the foreword by Bernie Sanders. A passionate attack on the monopolies that are throttling American democracy. Every facet of American life is being overtaken by big platform monopolists like Facebook, Google, and Bayer (which has merged with the former agricultural giant Monsanto), resulting in a greater concentration of wealth and power than we've seen since the Gilded Age. They are evolving into political entities that often have more influence than the actual government, bending state and federal legislatures to their will and even creating arbitration courts that circumvent the US justice system. How can we recover our freedom from these giants? Anti-corruption scholar and activist Zephyr Teachout has the answer: *Break 'Em Up*. This book is a clarion call for liberals and leftists looking to find a common cause. Teachout makes a compelling case that monopolies are the root cause of many of the issues that today's progressives care about; they drive economic inequality, harm the planet, limit the political power of average citizens, and historically-disenfranchised groups bear the brunt of their shameful and irresponsible business practices. In order to build a better future, we must eradicate monopolies from the private sector and create new safeguards that prevent new ones from seizing power. Through her expert analysis of monopolies in several sectors and their impact on courts, journalism, inequality, and politics, Teachout offers a concrete path toward thwarting these enemies of working Americans and reclaiming our democracy before it's too late.

What happens after you click Tweet? The heart-stopping definitive account of the mission to rescue hundreds of Nigerian schoolgirls whose abduction ignited a global social media campaign and a dramatic worldwide intervention. In the spring of 2014, millions of Twitter users, including some of the world's most famous people, unwittingly helped turn a group of 276 schoolgirls abducted by a little-known Islamist sect into a central prize in the global War on Terror by retweeting a call for their release: #BringBackOurGirls. With just four words, their tweets launched an army of would-be liberators. Soldiers and drones, spies, mercenaries, and glory hunters descended into an obscure conflict that few understood, in a remote part of Nigeria that had barely begun to use the internet. When hostage talks and military intervention failed, the schoolgirls were forced to take survival into their own hands. As their days in captivity dragged into years, the young women learned to withstand hunger, disease, and torment, and became witnesses and victims of unspeakable brutality. Many of the girls were Christians who refused to take the one path offered them—converting to their captors' fundamentalist creed. In secret, they sang hymns, and kept a diary, relying on their faith and friendships to stay alive. *Bring Back Our Girls* unfolds across four continents, from the remote forests of northern Nigeria to the White House; from clandestine meetings in Khartoum safe houses to century-old luxury hotels on picturesque lakes in the Swiss Alps. A twenty-first century story that plumbs the promise and peril of an era whose politics are fueled by the power of hashtag advocacy, this urgent and engrossing work of investigative journalism reveals the unpredictable interconnectedness of our butterfly-wings world, where a few days of online activism can bring years of offline consequences for people continents away.

Leadership Principles for Lasting Success Leadership makes great companies, but few of us truly understand how to turn ourselves and others into great leaders. One company—the Jesuits—pioneered a unique formula for molding leaders and in the process built one of history's most successful companies. In this groundbreaking book, Chris Lowney reveals the leadership principles that have guided the Jesuits for more than 450 years: self-awareness, ingenuity, love, and heroism. Lowney shows how these same principles can make each of us a dynamic leader in the twenty-first century.

TREACHERY, INTRIGUE, AND WORLD DOMINATION BEHIND THE VATICAN WALLS The last pope narrative regained importance with the historical abdication of Pope Benedict XVI in February, 2013. His resignation led to the surprising election of Cardinal Jorge Bergoglio as the first Jesuit pope in history. It's very unusual to have two popes living in the Vatican at the same time. What's more, Pope Francis fits the profile of one whom many have prophesied to be the last, and who will oversee the final transformation and destruction of the Catholic Church. This book details the history of various prophecies, some of which were hidden away in the Vatican for hundreds of years, and predicts that the reign of the last pope will herald the beginning of "great apostasy" followed by "great tribulation." Pope Francis: The Last Pope? Money, Masons and Occultism in the Decline of the Catholic Church also explores the recent scandals within the Catholic Church and addresses questions including: What pressures decreed the end of the pontificate of Benedict XVI? What powers have an interest for the Church to end? and What is the relationship between the Vatican and the New World Order? Ideal for anyone interested in prophecies about the end of times, Pope Francis: The Last Pope? reveals the truth about the extent of Freemasonry's influence in the Vatican and the darkness that may follow the parallel institutions, as well as fascinating investigations into the Gay Lobby, presence of Islamic prayers in the Vatican, the Jesuit agenda, the legend of the White Pope and the Black Pope, the Third Secret of Fátima, and how Benedict's resignation may fulfill an ancient prophecy. The author substantiates his research by including secret, never before seen documents, as well as hard evidence from the heart of Freemasonry and the Holy See.

Through largely unpublished archives in the Middle East, Europe and the United States, and the Pius XII papers, in A Liminal Church Maria Chiara Rioli offers an appraisal of Jerusalem's Roman Catholic diocese in the Palestine War and its aftermath.

There are two ways of getting home; and one of them is to stay there. The other is to walk round the whole world till we come back to the same place; and I tried to trace such a journey in a story I once wrote. It is, however, a relief to turn from that topic to another story that I never wrote.

John Kennedy, and Pope Francis; it illustrates the superb efforts of priests, nuns, missionaries, laypersons, and political figures who have come together with great pride to grow the Catholic Church in the nation's capital.

"I would like to ask you all a question.... How are things when it comes to joy at home? Is there joy in your family?" - Pope Francis The presence of God in the family brings joy, in good times and bad, because with God all things are possible. Using brief meditations from Pope Francis followed by questions for reflection Pope Francis and the Joy of Family Life offers insight into how you can create an oasis of joyful love within your own family. Spend a few minutes every day in prayer with Pope Francis, and help your family discover God's plan in which every family member "feels that God is close and feels loved by him."

One of the most unusual decisions of the leaders of the French Revolution - and one that had immense practical as well as symbolic impact - was to abandon customarily-accepted ways of calculating date and time to create a Revolutionary calendar. The experiment lasted from 1793 to 1805, and prompted all sorts of questions about the nature of time, ways of measuring it and its relationship to individual, community, communication and creative life. This study traces the course of the Revolutionary Calendar, from its cultural origins to its decline and fall. Tracing the parallel stories of the calendar and the literary genius of its creator, Sylvain Maréchal, from the Enlightenment to the Napoleonic era, Sanja Perovic reconsiders the status of the French Revolution as the purported 'origin' of modernity, the modern experience of time, and the relationship between the imagination and political action.
