Updated with the most current evidence-based information, Nursing Skills Online 4.0 for Fundamentals of Nursing, 10th Edition strategically focuses on the skills that pose the greatest risk to patient safety and helps you develop your critical thinking skills. NSO features 19 modules, including a new Cardiac Care module, with four to eight lessons each - enhanced by 900 interactive activities, 130 video clips, 95 animations and slide shows, 1100 images, 855 assessment items, and 1020 glossary terms. The structured pacing purposefully moves you through chunks of content which you then apply to critical thinking tasks or case studies. Lesson quizzes let you evaluate your mastery of the content, and module exams feed out to a course gradebook allowing instructors to evaluate your progress. Case-based/problem-oriented format for learning activities provides you with real-life patient scenarios and promotes critical thinking. QSEN correlated headings and exercises helps you better understand the six Quality and Safety Education for Nurses (QSEN) core competencies. Lesson Post Tests provide an immediate score upon completion including rationales behind correct responses. Printable procedure guidelines enable you to study and learn anywhere you go. Self-assessment exercises allow you to test your knowledge of key concepts including correct answers and rationales for immediate feedback. Safety Considerations screens address the global safety issues in play for the lesson topic. Patient Centered Care screens address variations in approaches to patients of varied cultures and ages during the performance of the skill. Teamwork and Collaboration screens include information on delegation, as well as cooperation with other healthcare professionals who may have input in to patient welfare (physical therapists, nutritionists, respiratory therapists, pharmacists, etc.). Quality Improvement exercises present critical thinking challenges, prodding you to use patient care data to improve outcomes. Frequent interactivity enhances your learning and engagement with content to make understanding complex concepts easier. Objectives, Equipment lists, and Delegation responsibilities at the beginning of each lesson help focus your attention. Answer Guide provides instructors with an easy reference tool to use for answering student questions about exercises and quiz/exam answers/rationales. NEW! Cardiac Care module covers vital skills related to cardiac monitoring. NEW! UNIQUE! Documentation activities help you practice accurate charting and documentation skills which are vital to develop early in your educational experience. NEW! Building on the strengths of the fourth edition, Basic Nursing: Essentials for Practice is back in a new edition! Thoroughly updated and revised to provide a more focused and engaging presentation, this new edition offers the basic principles, concepts, and skills needed by nursing students. The five-step nursing process returns to provide a consistent,

logical organizational framework, with a clear writing style and numerous learning aids. An increased emphasis on caring, along with new boxes on Focused Client Assessment and Outcome Evaluation, reflect current practice trends. This new edition is better than ever! Five-Step Nursing Process provides a consistent organizational framework. More than 40 nursing skills are presented in a clear, 2-column format with rationales for all steps. Procedural Guidelines boxes provide streamlined step-by-step instructions for performing basic skills. Growth and Development chapter and age-related considerations throughout clinical chapters help prepare students to care for clients of all ages. Sample Nursing Care Plans highlight defining characteristics in assessment data, include client goals and expected outcomes in the planning section, and provide rationales for each nursing intervention. Progressive Case Studies follow the interactions of a client and nurse throughout the chapter to illustrate steps in the nursing process and develop critical thinking skills. Brief coverage of higher level concepts including research, theory, professional roles, and management, maintains the text's focus on essential, basic content. The narrative style makes the text more engaging and appealing. Focused Client Assessment boxes provide specific guidelines for factors to assess, questions and approaches, and physical assessment. Content on delegation is discussed throughout the narrative and specific guidelines are included for each skill. Skills now include Unexpected Outcomes and Interventions to alert for potential undesirable responses and provide appropriate nursing actions. Caring in Nursing is presented in a new chapter and as a thread throughout the text. Outcome Evaluation are based on the chapter's case study and provide guidelines on how to ask questions and evaluate care based on the answers received. NIC and NOC are discussed in the Nursing Process chapter to provide an overview of these taxonomies encountered in practice. NCLEX-style multiple-choice questions at the end of each chapter help students evaluate learning.
