The way autoimmune disease is viewed and treated is undergoing a major change as an estimated 50 million Americans (and growing) suffer from these conditions. For many patients, the key to true wellness is in holistic treatment, although they might not know how to begin their journey to total recovery. The Autoimmune Wellness Handbook, from Mickey Trescott and Angie Alt of Autoimmune-Paleo.com, is a comprehensive guide to living healthfully with autoimmune disease. While conventional medicine is limited to medication or even surgical fixes, Trescott and Alt introduce a complementary solution that focuses on seven key steps to recovery: inform, collaborate, nourish, rest, breathe, move, and connect. Each step demystifies the process to reclaim total mind and body health. With five autoimmune conditions between them, Trescott and Alt have achieved astounding results using the premises laid out in the book. The Autoimmune Wellness Handbook goes well beyond nutrition and provides the missing link so that you can get back to living a vibrant, healthy life.

This lively chronicle of the years 1847–1947—the century when the Jewish people changed how we see the world—is “[a] thrilling and tragic history...especially good on the ironies and chain-reaction intimacies that make a people and a past” (The Wall Street Journal). In a hundred-year period, a handful of men and women changed the world. Many of them are well known—Marx, Freud, Proust, Einstein, Kafka. Others have vanished from collective memory despite their enduring importance in our daily lives. Without Karl Landsteiner, for instance, there would be no blood transfusions or major surgery. Without Paul Ehrlich, no chemotherapy. Without Siegfried Marcus, no motor car. Without Rosalind Franklin, genetic science would look very different. Without Fritz Haber, there would not be enough food to sustain life on earth. What do these visionaries have in common? They all had Jewish origins. They all had a gift for thinking in wholly original, even earth-shattering ways. In 1847, the Jewish people made up less than 0.25% of the world’s population, and yet they saw what others could not. How? Why? Norman Lebrecht has devoted half of his life to pondering and researching the mindset of the Jewish intellectuals, writers, scientists, and thinkers who turned the tides of history and shaped the world today as we know it. In *Genius & Anxiety*, Lebrecht begins with the Communist Manifesto in 1847 and ends in 1947, when Israel was founded. This robust, magnificent, beautifully designed volume is “an urgent and moving history” (The Spectator, UK) and a celebration of Jewish genius and contribution.
