updated with alignment to nationwide Common Core standards, and has been adopted by schools and districts in 43 states + Washington, D.C. In Grade 4: Module 3B, students explore perspectives in the American Revolution. They study reasons why the 13 American colonies decided to declare independence, how colonists' opinions differed on this decision, and how the perspectives of free and enslaved blacks were both similar and different from the perspective of the white colonists. After a study of these various perspectives, students construct an opinion piece proclaiming reasons to be a Loyalist or a Patriot. A complete set of materials for Grade 4: Module 3B should include the Teacher Guides (978-1683621676), one Student Workbook (978-1683620266) per student, and the required trade book for this module. The Historic U.S. Documents Cursive Handwriting Series will introduce students to the text of some of the most important documents in United States history. Teachers and parents can introduce historic documents in conjunction with the cursive handwriting workbooks during social studies and history lessons. Before using the Cursive Handwriting Copybook: U.S. Historic Documents, students should be able to understand the difference between capital and lowercase cursive letters. To use this workbook successfully students should have already learned to write individual upper and lowercase cursive letters and be ready to move on to copying cursive text without tracing. Practicing cursive handwriting on a daily basis will expand a student's understanding for the concepts of written language. When cursive handwriting is practiced daily, spacing between words becomes more consistent. Teachers and parents can use the Cursive Handwriting Copybook: Historic U.S. Documents to utilize hand-over-hand guidance techniques that will help students make correct cursive letter strokes. Guided lines have been provided in this handwriting copybook to quickly teach correct cursive letter formation and word spacing. Cursive handwriting practice

doesn't have to take place on paper only. Everyday objects can be used to help students create cursive letters. Students should be encouraged to write cursive letters in the air, sand, clay, shaving cream, etc. to make learning cursive fun. There are no cursive tracing letters in this workbook. It is for Level 2 writers who can recognize upper and lowercase cursive letters and are beginning to write in cursive on their own without tracing. Why is this cursive handwriting workbook an important addition to your student's curriculum? A 2013 New York Times article states that, "Learning to write in cursive is shown to improve brain development in the areas of thinking, language and working memory. Cursive handwriting stimulates brain synapses and synchronicity between the left and right hemispheres, something absent from printing and typing. As a result, the physical act of writing in cursive leads to increased comprehension and participation. The College Board found that students who wrote in cursive for the essay portion of the SAT scored slightly higher than those who printed." This handwriting book is perfect for improving cursive penmanship. The Cursive Handwriting Copybook is a great resource for the homeschool classroom as well as public and private kindergarten, 1st grade, and 2nd grade classrooms. It's a great companion to printed alphabet handwriting programs such as Zaner-Bloser and Kumon. It's superior to one-page online cursive penmanship worksheets because it gives

alphabet tracing practice for the beginning writer. This children's handwriting workbook has a minimum of 30 opportunities to trace each alphabet before free-writing practice pages are presented. Once a student has adequately mastered tracing each alphabet they may then move on to the next section or skip around to other alphabets as comfortable. Daily penmanship practice will help increase your student's ability to:

- Print uppercase and lowercase letters of the alphabet and recognize the difference between the two.
- Write from left to right and top to bottom of page.

Through writing, students can increase their comfort with and success in understanding complex material, unfamiliar concepts, and subject-specific vocabulary." to build verbal vocabulary, write a grocery list together-helping to practice handwriting skills, and select books together at the library-allowing students to enjoy the usefulness of the printed word. Another way to raise their awareness of language in their environment is to point to street signs, billboards, traffic signs, and menus in restaurants-saying the whole word and/or pointing to each individual alphabet while saying calling out each letter. This alphabet tracing workbook for preschool, kindergarten, and 1st grade is a perfect companion to online and computerized alphabet software to teach kids alphabet recognition. It can be used on short and long car rides. Getting students used to using paper workbooks will give them a distinct advantage over students who have only used wipe clean alphabet books and computerized alphabet software-this alphabet tracing book is similar to the writing, social studies, and language arts workbooks students will use in their classrooms.

“conventional wisdom,” we have a proven track record with a broad range of students: the Ivy League bound to those wishing to avoid community college, the self-motivated to the intransigently jaded, and the profoundly gifted to learning disabled. We have a passion for expanding students' dreams and helping them attain their goals. Cardinal Education believes in the social value of a strong public education system and sponsors pro bono programs to bring private sector expertise to bear. However, government fiscal policies are shortchanging public schools of opportunities: activities, sports, variety of classes, advanced classes, student: teacher ratios, and counseling departments. The “private school imperative” means that despite economic trends, admission to private school is becoming so competitive that it necessitates standardized testing excellence. The philosophy of this math workbook is rigor and drill. Because this is the first test students take that actively tries to trick students at every turn, students who sit for these standardized exams need reflexive familiarity with computation (math facts), problem types, and strategy. The entrance exams are the first standardized tests for which budgeting time is a significant issue. Students need to spend the majority of time on analysis to avoid getting tricked rather than computation. By building skills, speed, and confidence, we hope to eliminate anxiety and give students a solid foundation on which to build excellent scores. This book is intended as a supplement for our highly trained staff, so it does not include strategies. However, motivated students can use it successfully with occasional help from a teacher or

parent. Each chapter is comprised of units, with each unit comprised of 4 problem sets of difficulty, increasing in a logically progressive manner. Students should do as many of the 4 problem sets for each unit as it takes to achieve a 90% accuracy rate. Students taking lower level exams should complete problems 1-10 in each set. Students competing for high school admissions should complete each problem set in its entirety. Questions or feedback: [Info@CardinalEducation.com](mailto:Info@CardinalEducation.com)

Hard times will come. When it does is, we often wonder, "How can I praise God in the middle of this mess?" It's a question I've asked. Maybe you have too. Because praising God comes easy during life's grand moments. Yet, in the difficult ones, glorifying Him can just as easily be forgotten. However, that's precisely the time we need to worship! God deserves praise. God commands praise. Christians need to praise! Reflecting on God's unchanging nature offers a reminder of His faithfulness when storms hit.
