Inequalities in human development are a roadblock to achieving the 2030 Agenda for Sustainable Development. They are not just about disparities in income and wealth. They cannot be accounted for simply by using summary measures of inequality that focus on a single dimension. And they will shape the prospects of people that may live to see the 22nd century. The 2019 Report explores inequalities in human development by going beyond income, beyond averages and beyond today. It asks what forms of inequality matter and what drives them, recognizing that pernicious inequalities are generally better thought of as a symptom of broader problems in a society and economy. It also asks what policies can tackle those drivers—policies that can simultaneously help nations to grow their economies, improve human development and reduce inequality.

The Crisis: People who are in rebellion are not the only ones with hard hearts. The dictionary defines hard when it applies to matters of the heart as being "cold; insensitive; callous; unfeeling; unyielding." This malady has stricken every Christian in some area of their life. This is what keeps us from hearing the voice of the Lord and being led by Him in our everyday lives. The Cause: The condition of our heart is determined by what we focus our attention on. It doesn't matter what we know, it's what we think on that controls whether our hearts is hard or soft (Proverbs 23:7). Once this is understood, this same law that will sensitize us towards God can be used to harden us towards the devil. The Cure: The Cure for a hardened heart is a total commitment to keep our minds stayed on the Lord. This teaching will give you one of the clearest understandings of the relationship between faith and unbelief that you have ever had.
