A collection of 30 small batch preserving recipes and 90 recipes in which to use the preserved goods for anyone who's ever headed to their local farmers' market reciting the mantra "I will not overbuy" but has lumbered home with bags overflowing with delicious summer strawberries, zucchini blossoms, and tomatoes, or autumn apples, pears, and cauliflower. Preserving recipes like Marinated Baby Artichokes are followed by recipes for dishes like Marinated Artichoke and Ricotta Pie and Sausages with Marinated Baby Artichokes; a Three-Citrus Marmelade recipe is followed by recipes for Chicken Wings Baked with Three-Citrus Marmelade, Shrimp with Three-Citrus Marmelade and Lime, and Crepes with Three-Citrus Marmelade, and so on. In this book, Eugenia Bone, a New Yorker whose Italian father was forever canning everything from olives to tuna, describes the art of preserving in an accessible way. Though she covers traditional water bath and pressure canning in detail, she also shares simpler methods that allow you to preserve foods using low-tech options like oil-preserving, curing, and freezing. Bone clearly explains each technique so that you can rest assured your food is stable and safe. With *Well-Preserved: Recipes and Techniques for Putting Up Small Batches of Seasonal Foods*, you will never again have a night when you open your cupboard or refrigerator and lament that there's "nothing to eat!" Instead, you'll be whipping up the seasons' best meals all year long.

In the third of the River Cottage Handbook series, Daniel Stevens explains the ins and outs of baking, and inspires us to abandon ready-sliced loaves for a world of delicious breads baked at home. He then demonstrates how to make yeast and non-yeast breads, as well as enriched doughs and home-started sourdough, and includes sixty recipes, covering everything from the simple white loaf and familiar classics such as ciabatta, naan and pizza bread, to fresh new challenges like potato bread, rye, tortilla, croissants, doughnuts and bagels. The handbook is completed by full-colour photographs throughout, including step-by-step photos, instructions for building your own bread oven, and a directory of equipment and useful addresses.

Presents a collection of canning techniques, preserving recipes, and seasonal menus.

British iconoclast and sustainable food champion Hugh Fearnley-Whittingstall goes back to basics in this guide to simple, everyday home cooking. In *River Cottage Every Day*, Hugh shares the dishes that nourish his own family of three hungry school-age kids and two busy working parents—from staples like homemade yogurt and nut butters to simple recipes like Mixed Mushroom Tart; Foil-Baked Fish Fillets with Fennel, Ginger, and Chile; and Foolproof Crème Brûlée. Hugh brings his trademark wit and infectious exuberance for locally grown and raised foods to a wide-ranging selection of appealing, everyday dishes from healthy breakfasts, hearty breads, and quick lunches to all manner of weeknight dinners and enticing desserts. Always refreshingly honest, but without sermonizing, Hugh encourages us to build a close relationship to the sources of our food and become more involved with the way we acquire and prepare it. But he doesn't shrink from acknowledging the challenges of shopping and cooking while juggling the demands of work and family. So while Hugh offers an easy recipe for homemade mayonnaise, he admits to having a jar of store-bought mayo lurking in the fridge, just like the rest of us! Including helpful and encouraging advice on how to choose the finest meat, freshest fish, and most mouthwatering fruits and vegetables, *River Cottage Every Day* shows us that deliciously prepared and thoughtfully sourced meals can be enjoyed every day of the year.

In the seventh of the River Cottage Handbook series, John Wright explores the culinary delights of the British hedgerow. Hugh's *River Cottage Veg Every Day!* became the UK's best-selling vegetable cookbook, persuading us through sheer temptation to make vegetables the mainstay of our daily cooking. In this much-anticipated follow-up, Hugh delivers more irresistible recipes, and this time, takes things one step further. Fuelled by his passionate belief that plant foods should be the dominant force in our kitchens, Hugh has put cheese, butter, cream, eggs, and refined flour and sugar firmly to one side. Instead, he uses veg, fruit, wholegrains, nuts, seeds, spices and cold-pressed oils to explore the length and breadth of what can be achieved with natural, unprocessed plant foods. *River Cottage Much More Veg!* makes it clear that unadulterated ingredients are the very best building blocks for delicious and healthy meals. In typical Hugh style, the recipes are easy, utterly foolproof and delicious. All but a handful are gluten-free, and at least half the dishes require 20 minutes (or less) hands-on work time. With recipes such as Roast squash and chickpeas with spicy apricot sauce, Blackened cauliflower with pecans and tahini, Spiced beetroot, radicchio and orange traybake, Celeriac and seaweed miso broth, Seared summer cabbage with rosemary, chilli and capers, and Baked celery agrodolce, *River Cottage Much More Veg!* demonstrates how easy it is to make versatile, plentiful and delicious vegetables the bedrock of your diet.

In the thirteenth River Cottage Handbook, Steven Lamb shows how to cure and smoke your own meat, fish and cheese. Curing and smoking your own food is a bit of a lost art in Britain these days. While our European neighbours have continued to use these methods on their meat, fish and cheese for centuries, we seem to have lost the habit. But with the right guidance, anyone can preserve fresh produce, whether living on a country farm or in an urban flat – it doesn't have to take up a huge amount of space. The River Cottage ethos is all about knowing the whole story behind what you put on the table; and as Steven Lamb explains in this thorough, accessible guide, it's easy to take good-quality ingredients and turn them into something sensational. Curing & Smoking begins with a detailed breakdown of any kit you might need (from sharp knives to sausage stuffers, for the gadget-loving cook) and an explanation of the preservation process – this includes a section showing which products and cuts are most suitable for different methods of curing and smoking. The second part of the book is organised by preservation method, with an introduction to each one, and comprehensive guidance on how to do it. And for each method, there are, of course, many delicious recipes! These include chorizo Scotch eggs, salt beef, hot smoked mackerel, home-made gravadlax ... and your own dry-cured streaky bacon sizzling in the breakfast frying-pan. With an introduction by Hugh Fearnley-Whittingstall and full-colour photographs as well as illustrations, this book is the go-to guide for anyone who wants to smoke, brine or air-dry their way to a happier kitchen. In the eighth of the River Cottage Handbook series, Pam Corbin offers an appealing guide to baking perfect cakes Baking is the most comforting and entirely satisfying of the culinary arts - making a cake is not only a sumptuous process in its own right but the end result is entirely delicious. Pam Corbin offers the voice of experience, setting out basic techniques and recipes that will guarantee success. As a finishing touch, there is a section devoted to sweet embellishments like feather icing, crystallised violets and chocolate leaves. Say goodbye to sinking sponges and brittle brownies with this comprehensive guide to the heavenly world of cake making, introduced by Hugh Fearnley-Whittingstall.

In the second of the River Cottage Handbook series, Pam Corbin explains how to turn Britain's seasonal gluts of fruit, vegetables, flowers and herbs into delicious preserves to enjoy all year around. Preserving is a centuries-old way to make the most out of every season, stretching the more bountiful months into the sparser ones - and what's more, it is fun, rewarding and easy to learn. Explaining the history, science and basic processes of preserving, Pam Corbin guides us through a world of jams, jellies, butters, curds, pickles, chutneys, cordials, liqueurs, vinegars and sauces that can be made from local produce throughout the year. She includes 75 recipes, covering everything from traditional favourites such as raspberry jam, lemon curd, quince cheese and sloe gin, to fresh new combinations such as apple butter, cucumber pickle and nettle pesto. The handbook includes seasonable tables, regional maps, flow charts of all the preserving processes and full-colour photographs throughout, and is completed by a directory of equipment and useful addresses. In the eleventh River Cottage Handbook, bestselling author Mark Diacono gives recipes and comprehensive guidance for keeping chickens. Chickens are a fantastic addition to a garden or outdoors space - you don't have to live in the back of beyond to have a few clucking around and giving you fresh eggs. They come in all shapes and sizes: some are layers, some are just born to strut. Mark Diacono begins at the basics, showing how you can raise chickens from eggs, and look after them once they start laying their own. The first part of Chicken & Eggs explains how to think ahead about what kind of chickens you want and how many to get, whether you are going for a breed that lays eggs regularly, or that you might eventually use for eating, or that simply looks decorative. You can choose from Orpingtons, Derbyshire redcaps, Muffed Old English Game, Leghorns and many more.

In the ninth River Cottage Handbook, Mark Diacono explains how to nurture and grow your own garden fruit. Growing fruit at home is a delicious and altogether more enjoyable alternative to buying it in the shops. Mark Diacono offers a practical and accessible guide to making the most of your garden and what it has to offer. The first part of the book is an A-Z of the different varieties of fruit, with old favourites like apples, cherries, plums, blackcurrants, white currants, redcurrants, strawberries, blueberries, gooseberries, raspberries and rhubarb as well as more exotic species like figs, grapes, cranberries, Japanese wine berries and apricots. Each is accompanied by a photograph, with detailed advice on when and how to grow and harvest. In the second part of the book, Mark gives straightforward guidelines on techniques like pruning and training, as well as how to deal with problems or pests. There is a section dedicated to growing under covers and in containers. Introduced by Hugh Fearnley-Whittingstall and with 30 delicious recipes, beautiful, full-colour photographs and a directory of useful addresses, this is the ideal reference for any aspiring fruit grower.

In the tenth River Cottage Handbook, Nikki Duffy shows how to grow and cook with herbs. Herbs are the most liberating and confidence-boosting of ingredients: grow some and you feel like a proper gardener, bring some into the kitchen and you feel like a proper cook. They allow you to experiment and bring individuality to your cooking while, at the same time, anchoring you in sound culinary tradition because herbs are often responsible for those key flavours that 'make' a dish. Not only that but they are a step on the road to a more self-sufficient, homegrown, organic way of eating. In the first part of the book, Nikki explains how to get the most from herbs. She outlines the basic choosing, picking and using guidelines. The second part is a catalogue of herbs, each with grow-your-own notes, flavour descriptions and mini-recipes. Among the forty herbs that Nikki describes are basil, bay, bergamot, chives, coriander, dill, fennel, horseradish, hyssop, marigold, marjoram, mint, parsley, perilla, rocket, rosemary, sage, scented geranium, tarragon, thyme, wild garlic and winter savory. Following this are over fifty wonderful and adaptable recipes for

everything from herb-scented cakes and biscuits to soups, stuffings and tarts, where more than one herb is, or can be, used. With an introduction by Hugh Fearnley-Whittingstall and full-colour photographs, Herbs is a must-have book for every kitchen.

- 'Pam Corbin is the master, and the first person I turn to for everything to do with preserving. I've learnt so much from her' – DIANA HENRY Pam Corbin is the expert who professional cooks consult when they want to make jams, jellies, marmalades, chutneys, pickles or anything else to do with preserving. They know her as 'Pam the Jam', and this book is the culmination of her years of experience, distilled into more than 100 tried-and-tested recipes. Her jams, marmalades and fruit spreads contain far less sugar than traditional recipes, which means that they taste astonishingly fruity and delicious. Likewise, her chutneys and pickles are lighter and sprightlier than the old-fashioned kind. Pam will show you how to make more unusual preserves too – such as glossy fruit cheeses to serve with everything from Stilton to manchego (which calls for her classic quince membrillo). Or creamy yet zesty fruit curd: there's a recipe for classic lemon curd, and also a wonderfully light lime and coconut one. If you have an array of Pam's preserves in your store cupboard, you can transform any meal in an instant. She'll inspire you to dig into your jars of preserves to make spin-off recipes such as scrumptious lime cheesecake, cherry pie or spicy sausage rolls. Packed with detailed instructions, explanations and tips, this is the only preserve-making bible that you will ever need.

In the fourth River Cottage handbook, Mark Diacono tells us everything we need to know to create our own productive, organic garden, no matter where we live. Drawing directly from his experience as an acclaimed climate-change gardener, and of setting up a kitchen garden from scratch for River Cottage, Mark explains the practical aspects of organic growing, introduces us to a whole world of vegetables we may not have previously considered, and does away with alienating gardening jargon once and for all. Mark begins with a catalogue of vegetables that will grow in this country, explaining for each their benefits, what varieties to go for, dos and don'ts, and popular culinary uses. He then invites us to create a wish list of foods, and shows us his own list from his early gardening days. Next, he explains how to turn this wish list into a coherent kitchen garden plan appropriate for our space, whether it be a patch of acidic soil, a roof-top garden or an allotment, whether we put on our wellies in every free moment or are 'time-poor' gardeners. Then he puts all the theory into practice, showing us how to look after nutrients in the soil, how to resist pests and diseases, and how to make our garden sustainable and organic. In clear, concise sections we learn about seed trays, supporting plants with climbing structures, mulching, composting, companion planting, irrigation and promoting pollination, and there are additional tables showing sowing and harvesting times, plant sizes, and alternative varieties of plants for different sites. About thirty recipes and a directory of useful addresses finish the book, and the handbook is complemented by bright colour photography throughout. Practical and inspiring, with a textured hard cover and an introduction by Hugh Fearnley-Whittingstall, Veg Patch is destined to join Handbooks No. 1, 2 and 3 as an indispensable household reference.

The champion of uncelebrated foods including fat, offal, and bones, Jennifer McLagan turns her attention to a fascinating, underappreciated, and trending topic: bitterness. What do coffee, IPA beer, dark chocolate, and radicchio all have in common? They're bitter. While some culinary cultures, such as in Italy and parts of Asia, have an inherent appreciation for bitter flavors (think Campari and Chinese bitter melon), little attention has been given to bitterness in North America: we're much more likely to reach for salty or sweet. However, with a surge in the popularity of craft beers; dark chocolate; coffee; greens like arugula, dandelion, radicchio, and frisée; high-quality olive oil; and cocktails made with Campari and absinthe—all foods and drinks with elements of bitterness—bitter is finally getting its due. In this deep and fascinating exploration of bitter through science, culture, history, and 100 deliciously idiosyncratic recipes—like Cardoon Beef Tagine, White Asparagus with Blood Orange Sauce, and Campari Granita—award-winning author Jennifer McLagan makes a case for this misunderstood flavor and explains how adding a touch of bitter to a dish creates an exciting taste dimension that will bring your cooking to life.
