Strategies to Reduce Sodium Intake in the United States Institute of Medicine,Food and Nutrition Board,Committee on Strategies to Reduce Sodium Intake,2010-11-14 Reducing the intake of sodium is an important public health goal for Americans. Since the 1970s, an array of public health interventions and national dietary guidelines has sought to reduce sodium intake. However, the U.S. population still consumes more sodium than is recommended, placing individuals at risk for diseases related to elevated blood pressure. *Strategies to Reduce Sodium Intake in the United States* evaluates and makes recommendations about strategies that could be implemented to reduce dietary sodium intake to levels recommended by the Dietary Guidelines for Americans. The book reviews past and ongoing efforts to reduce the sodium content of the food supply and to motivate consumers to change behavior. Based on past lessons learned, the book makes recommendations for future initiatives. It is an excellent resource for federal and state public health officials, the processed food and food service industries, health care professionals, consumer advocacy groups, and academic researchers.

The French Market Cookbook Clotilde Dusoulier,2013-07-02 Cook from the farmer's market with inspired vegetarian recipes—many of which are gluten-free and dairy-free—with a French twist, all highlighting seasonal produce. Beloved ChocolateAndZucchini.com food blogger Clotilde Dusoulier is not a vegetarian. But she has, like many of us, chosen to eat less meat and fish, and is always looking for new ways to cook what looks best at the market. In *The French Market*

Cookbook, she takes us through the seasons in 82 recipes—and explores the love story between French cuisine and vegetables. Choosing what’s ripe and in season means Clotilde does not rely heavily on the cheese, cream, and pastas that often overpopulate vegetarian recipes. Instead she lets the bright flavors of the vegetables shine through: carrots are lightly spiced with star anise and vanilla in a soup made with almond milk; tomatoes are jazzed up by mustard in a gorgeous tart; winter squash stars in golden Corsican turnovers; and luscious peaches bake in a cardamom-scented custard. With 75 color photographs of the tempting dishes and the abundant markets of Paris, and with Clotilde’s charming stories of shopping and cooking in France, *The French Market Cookbook* is a transportive and beautiful cookbook for food lovers everywhere.

Coi Daniel Patterson, 2013-10-14 An absorbing self-portrait of an exceptional cook. - Harold McGee Daniel Patterson is the head chef/owner of Coi in San Francisco, one of America’s most celebrated restaurants. Patterson mixes modern culinary techniques with local ingredients to create imaginative dishes that speak of place, memory, and emotion. His approach has earned him five James Beard nominations and winner of the James Beard Award’s Best Chef of the West 2014, two Michelin stars, and a worldwide reputation for pioneering a new kind of Californian cuisine. Now, in his new book *Coi: Stories and Recipes*, Patterson shares a personal account of the restaurant, its dishes, and his own unique philosophy on food and cooking. 70 recipes are featured with narrative essays, including Chilled Spiced Ratatouille Soup; Carrots Roasted in Coffee Beans; Strawberries and Cream with Tiny Herbs; and Lime Marshmallow with Coal-Toasted Meringue. This book is beautifully written by Patterson, who is respected for his original food writing in publications such as *The New York Times* and *Lucky Peach*, and is also co-author, along with Mandy Aftel, of *Aroma: The Magic of Essential Oils in Food and Fragrance* (2004). 150 color photographs by Maren Caruso include atmospheric images of the restaurant and the California landscape. Preserving Italy Domenica Marchetti, 2016-06-14 Capture the flavors of Italy with over 150 recipes for preserves, pickles, sauces, liqueurs, and more in this “engagingly informative” guide (Elizabeth Minchilli, author of *Eating Rome*). The notion of preserving shouldn’t be limited to American jams and jellies, and in this book, Domenica Marchetti puts the focus on the ever-alluring flavors and ingredients of Italy. There, abundant produce and other Mediterranean ingredients lend themselves particularly well to canning, bottling, and other preserving methods. Think of marinated artichokes in olive oil, classic giardiniera, or, of course, the late-summer tradition of putting up tomato sauce. But in this book we get so much more, from Marchetti’s travels across the regions of Italy to the recipes handed down through her family: sweet and sour peppers, Marsala-spiked apricot jam, lemon-infused olive oil, and her grandmother’s amarene, sour cherries preserved in alcohol. Beyond canning and pickling, the book also includes recipes for making cheese, curing meats, infusing liqueurs, and even a few confections, plus recipes for finished dishes so you can savor each treasured jar all year long. “Pack artichokes, peppers and mushrooms in oil. Make deliciously spicy pickles from melon. Even limoncello, mostarda and confections like torrone can

come straight from your kitchen... The techniques may have been passed down by generations of nonnas, but they knew what they were doing.”—Florence Fabricant, *The New York Times* “Marchetti elevates preserved food from the role of condiment to center stage.”—Publishers Weekly

Microbiology of Thermally Preserved Foods Tibor Deák, József Farkas, 2013 While introducing the principles and processes of industrial-level food canning, the volume clarifies the effects of microorganisms, their ecology, fate, and prevention in canning operations, as well as in other thermal processing techniques, such as aseptic packaging. It covers microbial spoilage and detection for vegetables, fruits, milk, meat and seafood from the raw food materials through individual unit operations, facility sanitation, and packaging. It thus offers a practical introduction to understanding, preventing and destroying microbe-based hazards in food plants that use thermal processes to preserve and package foods.
