The Professor Is In Karen Kelsky,2015-08-04 The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid

the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application - Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap - Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.

The Puppet Masters Emile van der Does de Willebois,J.C. Sharman,Robert Harrison,Ji Won Park,Emily Halter,2011-11-01 This report examines the use of these entities in nearly all cases of corruption. From Plan to Market Mark C. Schug,Jane S. Lopus,John S. Morton,National Council on Economic Education,1997 This packet of lessons focuses on the transition from a legacy of central planning to a market orientation in the economic systems of Central and Eastern Europe, the newly independent states of the former Soviet Union, and China. These lessons seek to provide high school teachers with a well-informed approach to teaching about this transition. The lessons emphasize the complex texture of events and the regional distinctions found among the transition economies. The materials also highlight findings about certain conditions that seem crucial to economic reform and introduce economic concepts that teachers and students can use to describe and explain the successes and the failures of economic change. The ten lessons include: (1) The Legacy of Soviet Communism; (2) Different Paths to Reform: Case Studies of Poland, China, and Russia; (3) Political and Economic Freedoms; (4) How To Privatize?; (5) Monopoly Is Not Just a Game; (6) Why Trade?; (7) Why Middlemen Matter:

The Role of Financial Institutions in a Market Economy; (8) Resisting the Siren Song of Inflation; (9) Brother, Can You Spare a Ruble?; and (10) Distribution of Income: Different Ways to Slice the Pie. The appendix contains selected world development indicators for the regions under study. (EH)

Results Bruce A. Pasternack,Gary L. Neilson,2005-10-18 Every company has a personality. Does yours help or hinder your results? Does it make you fit for growth? Find out by taking the quiz that's helped 50,000 people better understand their organizations at OrgDNA.com and to learn more about Organizational DNA. Just as you can understand an individual's personality, so too can you understand a company's type—what makes it tick, what's good and bad about it. Results explains why some organizations bob and weave and roll with the punches to consistently deliver on commitments and produce great results, while others can't leave their corner of the ring without tripping on their own shoelaces. Gary Neilson and Bruce Pasternack help you identify which of the seven company types you work for—and how to keep what's good and fix what's wrong. You'll feel the shock of recognition (“That's me, that's my company”) as you find out whether your organization is: • Passive-Aggressive (“everyone agrees, smiles, and nods, but nothing changes”): entrenched underground resistance makes getting anything done like trying to nail Jell-O to the wall • Fits-and-Starts (“let 1,000 flowers bloom”): filled with smart people pulling in different directions • Outgrown (“the good old days meet a brave new world”): reacts slowly to market developments, since it's too hard to run new ideas up the flagpole • Overmanaged (“we're from corporate and we're here to help”): more reporting than working, as managers check on their subordinates' work so they can in turn report to their bosses • Just-in-Time (“succeeding, but by the skin of our teeth”): can turn on a dime and create real breakthroughs but also tends to burn out its best and brightest • Military Precision (“flying in formation”): executes brilliant strategies but usually does not deal well with events not in the playbook • Resilient (“as good as it gets”): flexible, forward-looking, and fun; bounces back when it hits a bump in the road and never, ever rests on its laurels For anyone who's ever said, “Wow, that's a great idea, but it'll never happen here” or “Whew, we pulled it off again, but I'm tired of all this sprinting,” Results provides robust, practical ideas for becoming and remaining a resilient business. Also available as an eBook From the Hardcover edition.
