Paolo Alvazzi del Frate

**Prete, frate e giudice** Sante Rossetto, 2017

*Finding Europe* Anthony Molho, Diogo Ramada Curto, Niki Koniorodos, 2007 This is an important collection and starting point for the worthy goal of promoting a better understanding of the past that makes it less able to be manipulated for contemporary political and religious aims...Compiled out of the European past, its aim of a better understanding of traditional values ought to be useful for contemporary cultures and for the work of scholars of all cultures and continents. - Renaissance Quarterly In the last decade or so, many books have been devoted to the history of Europe. Two conceptual axes predominate in a large number of these accounts: a discourse focusing on Europe's values, and another discourse, fashioned largely in opposition to the first, which emphasizes the process of European construction. The first conceives of Europe's past teleologically, as a process by which certain values (Christian ethics, individualism, capitalism, tolerance, republicanism, due process, etc.) were affirmed and came to define European culture. The second approach rejects the discourse on values emphasizes the post-Enlightenment emergence of the concept of Europe, and the political and ideological implications in its continuous redefinitions (and re-elaborations) during the past two or more centuries. This volume offers new approaches that integrate the long temporal dimension of the values-based approach, albeit devoid of its teleological element, with the constructivist interpretation.

**Shrines and Pilgrimage in the Modern World** Peter Jan Margry, 2008 The modern pilgrimage—to sites ranging from Graceland to the veterans' annual ride to the Vietnam Veterans Memorial to Jim Morrison's Paris grave—is intertwined with man's existential uncertainties in the face of a rapidly changing world. In a climate that reproduces the religious quest in seemingly secular places, it's no longer clear exactly what the term pilgrimage infers—and *Shrines and Pilgrimage in the Modern World* critiques our notions of the secular and the sacred, while commenting on the modern media's multiplication of images that renders the modern pilgrimage a quest without an object. Using new ethnographical and theoretical approaches, this volume offers a surprising new vision on the non-secularity of the "secular" pilgrimage. This book will be sure to stoke our intellectual fire and heat up the discussion over the highly charged topic of secular pilgrimage."—Simon Bronner, Penn

State University

**Saints** Françoise Meltzer, Jas Elsner, 2011-12-15 While the modern world has largely dismissed the figure of the saint as a throwback, we remain fascinated by excess, marginality, transgression, and porous subjectivity—categories that define the saint. In this collection, Françoise Meltzer and Jas Elsner bring together top scholars from across the humanities to reconsider our denial of saintliness and examine how modernity returns to the lure of saintly grace, energy, and charisma. Addressing such problems as how saints are made, the use of saints by political and secular orders, and how holiness is personified, *Saints* takes us on a photo tour of Graceland and the cult of Elvis and explores the changing political takes on Joan of Arc in France. It shows us the self-fashioning of culture through the reevaluation of saints in late-antique Judaism and Counter-Reformation Rome, and it questions the political intent of underlying claims to spiritual attainment of a Muslim sheikh in Morocco and of Sephardism in Israel. Populated with the likes of Francis of Assisi, Teresa of Avila, and Padre Pio, this book is a fascinating inquiry into the status of saints in the modern world.

The Art of Executing Well Nicholas Terpstra, 2008 This volume focuses on a feature of executions that was unique to Renaissance Italy: the presence in prisons and on scaffolds of laymen, gathered in confraternities called *conforterie*, who worked with prisoners to prepare them spiritually and psychologically for execution. The book includes both primary sources and a series of essays that expand on the theatrical, artistic, theological, musical, and historical contexts of comforting.

*Bandits* Eric Hobsbawm, 2010-12-30 A trailblazing study of the social bandit or rebel **BANDITS** is a study of the social bandit or bandit-rebel - robbers and outlaws who are not regarded by public opinion as simple criminals, but rather as champions of social justice, as avengers or as primitive resistance fighters. Whether Balkan *haiduks*, Indian *dacoits* or Brazilian *congaceiros*, their spectacular exploits have been celebrated and preserved in story and myth. Some are only known to their fellow countrymen; others such as Rob Roy, Robin Hood and Jesse James are famous throughout the world. First published in 1969, **BANDITS** inspired a new field of historical study: bandit history.

Medieval Prostitution Jacques Rossiaud, 1995-12-11 In fifteenth-century France, public prostitution was condoned by all sectors of society. Clerics and municipal officials not only tolerated prostitution, but were often its principal beneficiaries, owning and frequenting brothels quite openly. The explanation of this remarkable state of affairs is just one aspect of Jacques Rossiaud's vivid reconstruction of a part of medieval society that has previously received little attention. Drawing upon extensive research in medieval archives, the author shows that most fifteenth-century Frenchwomen could expect a life of constant subjugation to male desire. Rape, for instance, was common and considered only a minor crime. He then considers whether public prostitution might paradoxically have been seen by the secular and religious authorities as a means of social control, and of preserving marital stability: the virtue of wives and daughters was best protected by the existence of public brothels, where sexual urges could be satisfied without adultery or rape. Jacques Rossiaud also describes the social

background of the prostitutes, brothel-keepers, pimps, and their clientele, providing a vivid overview of the context in which medieval prostitution existed. *Medieval Prostitution* will be of interest to medieval historians, as well as to students of the history of the family and sexuality.

*Sir Robert Walpole* Brian W. Hill, 1989 Sir Robert Walpole's ministry (1721-1742) was the longest since the Revolution of 1688. Though he is often called 'the first Prime Minister' Walpole was, Brian Hill suggests, both less and more than his modern counterparts. Less because the term itself was not generally accepted, least of all by Walpole himself, more because he was in practice more powerful than most of his successors--Jacket, p. [2].

*Medieval Public Justice* Massimo Vallerani, 2012-06-18 In a series of essays based on surviving documents of actual court practices from Perugia and Bologna, as well as laws, statutes, and theoretical works from the 12th and 13th centuries, Massimo Vallerani offers important historical insights into the establishment of a trial-based public justice system.

**Mad Blood Stirring** Edward Muir, 1998-06-26 Winner of the Howard R. Marraro Prize for Italian History from the American Historical Association Nobles were slaughtered and their castles looted or destroyed, bodies were dismembered and corpses fed to animals—the Udine carnival massacre of 1511 was the most extensive and damaging popular revolt in Renaissance Italy (and the basis for the story of Romeo and Juliet). *Mad Blood Stirring* is a gripping account and analysis of this event, as well as the social structures and historical conflicts preceding it and the subtle shifts in the mentality of revenge it introduced. This new reader's edition offers students and general readers an abridged version of this classic work which shifts the focus from specialized scholarly analysis to the book's main theme: the role of vendetta in city and family politics. Uncovering the many connections between the carnival motifs, hunting practices, and vendetta rituals, Muir finds that the Udine massacre occurred because, at that point in Renaissance history, violent revenge and allegiance to factions provided the best alternative to failed political institutions. But the carnival massacre also marked a crossroads: the old mentality of vendetta was soon supplanted by the emerging sense that the direct expression of anger should be suppressed—to be replaced by duels.

**The Castle on the Hudson** Renato Cantore, 2017-07-25T00:00:00+02:00 Charles Paterno was seven when he left Castelmezzano, a small mountain town in Basilicata to set sail on one of the rattletrap ships headed to America. Thirty years later he was one of the top builders in New York City, among the first to construct the skyscrapers that would form the world's most famous skyline. Intelligence, brilliance, intuition and an ability to stay ahead of the times made him a leading figure in the life of Manhattan. He created garden communities, focused on new technologies and turned to the best architects. Paterno didn't just want to offer houses, but new lifestyles to tens of thousands of people. His first American dream looked like a white castle at the northernmost tip of Manhattan, where he lived for years with his wife and son, surrounded by a small but very loyal retinue. A friend of Giuseppe Prezzolini, he donated a library of 20,000 books, the

Paterno Library, to the Casa Italiana at Columbia University. Fiorello La Guardia, the Italian-American mayor of New York City, called him a genius. Born into poverty, Paterno died a wealthy man on the green of the most exclusive country club in Westchester.

**Social Mobility in Medieval Italy (1100-1500)** AA. VV.,Sandro Carocci,Isabella Lazzarini,2021-07-27T12:14:00+02:00

This volume aims to investigate the complex theme of social mobility in medieval Italy both by comparing Italian research to contemporary international studies in various European contexts, and by analysing a broad range of themes and specific case studies. Medieval social mobility as a European phenomenon, in fact, still awaits a systematic analysis, and has seldom been investigated iuxta propria principia in social, political and economic history. The essays in the book deal with a number of crucial problems: how is social mobility investigated in European and Mediterranean contexts? How did classic mobility channels such as the Church, officialdom, trade, the law, the lordship or diplomacy contribute to shaping the many variables at play in late medieval societies, and to changing - and challenging - inequality? How did movements and changes in social spaces become visible, and what were their markers? What were the dynamics at the heart of the processes of social mobility in the many territorial contexts of the Italian peninsula?

*European Supreme Courts* Paolo Alvazzi del Frate,2013 This book examines the continuities and sets the contemporary role of the European supreme courts within the context of a rich legacy of legal traditions, culture and history across Europe

**Philomena (Movie Tie-In)** Martin Sixsmith,2013-11-06 New York Times Bestseller The heartbreaking true story of an Irishwoman and the secret she kept for 50 years When she became pregnant as a teenager in Ireland in 1952, Philomena Lee was sent to a convent to be looked after as a “fallen woman.” Then the nuns took her baby from her and sold him, like thousands of others, to America for adoption. Fifty years later, Philomena decided to find him. Meanwhile, on the other side of the Atlantic, Philomena’s son was trying to find her. Renamed Michael Hess, he had become a leading lawyer in the first Bush administration, and he struggled to hide secrets that would jeopardize his career in the Republican Party and endanger his quest to find his mother. A gripping exposé told with novelistic intrigue, Philomena pulls back the curtain on the role of the Catholic Church in forced adoptions and on the love between a mother and son who endured a lifelong separation.

Venice & the East Deborah Howard,2000 As European cities such as Venice looked further afield, not only for material goods, but also for artistic inspiration and information on new technologies and ideas, they inevitably came into contact with

a great many new cultures. In this book Deborah Howard explores the experiences of Venetian merchants and travellers in the East and the influences that were brought to the city from the Islamic cultures encountered. The study is based on the literature of travellers, objects, buildings and architecture, documents and manuscripts, and takes a thematic look at the city: San Marco, the Merchant City, palaces, Palazzo Ducale, the Pilgrim City.
