My autobiography is a record of my life and interactions with many interesting people over the course of my work. This involved key industries and organisations like Keppel Corp, Wearnes, Natsteel, SPH, UOB, LTA, JTC, and SSO. Having the good fortune to meet many prominent Singaporeans such as Tan Chin Tuan, Wee Cho Yaw as well as Mr Lee Kuan Yew, Dr Goh Keng Swee, Dr Toh Chin Chye, Mr Lim Kim San and SR Nathan, allowed me not only a good perspective of various industries and businesses but also how some of these eminent statesmen think. They moulded my view of life. I've also gone through a wide range of experiences from changes in governments, impact of technology on our daily lives, changes in entertainment media to various life-threatening crises. I hope this unique compendium would be of interest to younger readers, growing up in a new and different world, but knowing how we got here, and why.

Like several other Asian countries, Malaysia uses English for a variety of official, professional and everyday purposes. Many Malaysians use English alongside their first language, typically Malay, Chinese or Tamil, but have a particular need for English if they are to succeed in their careers. What is special about this book is that it looks under the surface of the use of English, and shows how the teaching of English is tailored to bring this language situation about, by applying recent developments in the study of English and of English Language Teaching. It deals with questions such as the use of corpora in language teaching, and investigates some of the obstacles young Malaysians face in acquiring the necessary command of English. Issues investigated include the link between lack of proficiency and lack of motivation, the effect of examinations and the 'washback' effect, and the problems of academic writing. Other chapters deal with English in the workplace, including doctor-patient communication, the communication challenges facing tour guides, and gender-based differences in the learning of computer skills. The book will be of great value to anyone professionally involved with global English, 'glocalisation' or language contact, including teachers, publishers and language planners, especially those concerned with the use of global English in Asia.
