#1 New York Times Bestseller "Significant...The book is both instructive and surprisingly moving." —The New York Times Ray Dalio, one of the world's most successful investors and entrepreneurs, shares the unconventional principles that he's developed, refined, and used over the past forty years to create unique results in both life and business—and which any person or organization can adopt to help achieve their goals. In 1975, Ray Dalio founded an investment firm, Bridgewater Associates, out of his two-bedroom apartment in New York City. Forty years later, Bridgewater has made more money for its clients than any other hedge fund in history and grown into the fifth most important private company in the United States, according to Fortune magazine. Dalio himself has been named to Time magazine's list of the 100 most influential people in the world. Along the way, Dalio discovered a set of unique principles that have led to Bridgewater's exceptionally effective culture, which he describes as "an idea meritocracy that strives to achieve meaningful work and meaningful relationships through radical transparency." It is these principles, and not anything special about Dalio—who grew up an ordinary kid in a middle-class Long Island neighborhood—that he believes are the reason behind his success. In *Principles*, Dalio shares what he's learned over the course of his remarkable career. He argues that life, management, economics, and investing can all be systemized into rules and understood like machines. The book's hundreds of practical lessons, which are built around his cornerstones of "radical truth" and "radical transparency," include Dalio laying out the most effective ways for individuals and organizations to make decisions, approach challenges, and build strong teams. He also describes the innovative tools the firm uses to bring an idea meritocracy to life, such as creating "baseball cards" for all employees that distill their strengths and weaknesses, and employing computerized decision-making systems to make believability-weighted decisions. While the book brims with novel ideas for organizations and institutions, *Principles* also offers a clear, straightforward approach to decision-making that Dalio believes anyone can apply, no matter what they're seeking to achieve. Here, from a man who has been called both "the Steve Jobs of investing" and "the philosopher king of the financial universe" (CIO magazine), is a rare opportunity to gain proven advice unlike anything you'll find in the conventional business press.

Right now, 70% of Americans aren't passionate about their work and are desperately longing for meaning and purpose. They're sick of "average" and know there's something better out there, but they just don't know how to reach it. One basic principle?The Proximity Principle?can change everything you thought you knew about pursuing a career you love. In his latest book, The Proximity Principle, national radio host and career expert Ken Coleman provides a simple plan of how positioning yourself near the right people and places can help you land the job you love. Forget the traditional career advice you've heard! Networking, handing out business cards, and updating your online profile do nothing to set you apart from other candidates. Ken will show you how to be intentional and genuine about the connections you make with a fresh, unexpected take on resumes and the job interview process. You'll discover the five people you should look for and the four best places to grow, learn, practice, and perform so you can step into the role you were created to fill. After reading The Proximity Principle, you'll know how to connect with the right people and put yourself in the right places, so opportunities will come?and you'll be prepared to take them.

"The Book Every 20-Something Should Read" Turning the big 3-0 is a milestone many women loath. There's this lie society has sold women that life ends at thirty because your twenties were the decade to make all your hopes and dreams a reality, and when the clock strikes twelve on your thirtieth birthday, your time is up! If it hasn't happened yet, it will never happen, so you should simply give up and settle. Olayinka Almaroof boldly challenges this lie with a new truth that says thirty is not the end but just the beginning! Thirty is only dreadful if we are ill-prepared, but when we live wisely through our twenties, thirty is just the next stop on the elevator up! In Chapter 30, writer Olayinka Almaroof takes the concept of "paying it forward" into the literary realm, inviting readers to journey back through her twenties as she recounts thirty pivotal life lessons she learned. Grab your favorite girlfriends and journey through this young woman's memories through three realms: Life, Love, and Spirituality. "I wrote this book in hopes that you would learn from my mistakes and benefit from the wisdom I gained along the way. I am still learning every day, but I wanted to share the life lessons I wish someone would have shared with me. For that girl who never had wise big sisters to hold her hand and guide her, I want this book to be a symbol of my hand intertwined with yours as you journey through these pages. It is my belief that we don't have to only learn from our personal life experiences or hardships; through community and sisterhood we should be able to learn through women who have braved the journey before us." Chapter 30 is apart of the 'Wisdom Collection' written by author, Olayinka Almaroof. Check out the second installation to this collection 'The Little Black Book of Wisdom'.

Available everywhere books are sold. Addition Information: Chapter 30 can also be used as a study guide for book clubs and Bible studies. The text contains study questions at the end of each chapter for discussion and in-depth reflection.

TALKING TO GOD IS EASY. IT'S THE LISTENING THAT'S THE HARD PART. Although most of us can talk with ease to our best friend, many of us aren't so good at keeping quiet and hearing what our friend has to say. So it is with God. For true communication with Him, we must learn to listen through understanding His Word. Dr. Charles Stanley's Listening to God, part of the Life Principles Study Series, presents a sound way to explore the Word and hear God's truths. You'll learn to identify with the passages, recognize your emotional response, reflect on the passages' meaning and take steps to apply what you've learned.

Photo caption activities pose questions to students to encourage critical thinking, and answers to those questions are provided to instructors in the instructor guide. As the text investigates the principles of human performance, pedagogical aids such as learning objectives, key terms, and Check Your Understanding questions help students stay on track with learning in each chapter. Focus on Research and Focus on Application sidebars deliver more detailed research information and make connections to real-world applications in areas such as teaching, coaching, and therapy. The sixth edition of Motor Learning and Performance: From Principles to Application goes beyond simply presenting research—it challenges students to grasp the fundamental concepts of motor performance and learning and then go a step further by applying the concepts.
