Problems in Contract Law Cases and Materials Aspen Publishers

Contracts: A Modern Coursebook, Second Edition by Ben Templin is an innovative coursebook unlike any other on the market. The book takes a hybrid approach between a “traditional” casebook and a problems-based casebook, incorporating a more thorough discussion of the law followed by cases then problems. Featuring a unique design that engages the reader and incorporates professional skills and experiential-type learning, Contracts: A Modern Coursebook is a revolutionary, classroom-tested book. Rather than playing “hide the ball,” professors using this book will be able to say, “Here’s the ball. Let’s play catch.” New to the Second Edition: Now Over 500 Questions and Problems, nearly doubling the number of questions and answers for professors to use to assess students. A new section—Questions for Review—tests students’ understanding of the law before they try the more difficult analytic problems. Enhanced analytic problems—updated based on feedback from professors and students. New cases with tighter editing to adjust the mix between classic and contemporary cases for greater balance, and to focus on the core lesson. More flowcharts and tables, providing additional visual learning aids to help students synthesize concepts. More examples and case illustrations to keep students engaged and to stimulate critical thinking. Design enhancements, including a redesign of “Rule Boxes” that makes parsing the rule statements easier for students. A new numbering system to more easily track “Learning Outcomes” to “Explanations” to “Case Law” to “Assessments.” Professors and students will benefit from: Learning Objectives: Unlike traditional casebooks, every chapter begins with three to seven precise learning goals. Millennials respond positively when learning objectives are stated at the beginning of a lesson. The defined learning objectives for each chapter help professors comply with ABA requirements to establish learning outcomes that consist of “clear and concise statements of knowledge that students are expected to acquire.” Clear and Concise Explanations of the Law: Much like a hornbook, every chapter provides clear and concise explanations of the law. Overarching rules are identified and highlighted visually. An analytical framework is provided to help students parse the rule. Examples and Case Illustrations explain the parameters and application of the rule. Test Yourself questions are embedded exercises within the explanation section to let students assess their understanding of the rules. Case Law—Developing Critical Reasoning Skills: Since students learn the law before reading the cases, the focus of case analysis is on the reasoning that the court applies. By posing direct questions and giving students prompts to respond to as they read the case, students build critical reasoning skills, and, as a result, are better prepared for class. Problem Solving and Analysis—Built-in Formative Assessment: At the end of each chapter, the Problem Solving and Analysis section provides students the opportunity to build critical thinking skills (the highest level of Bloom’s Taxonomy of Educational Objectives) through a series of thought-provoking hypotheticals based on real-world scenarios. The rich set of questions builds accountability and addresses the challenge of providing in-semester formative feedback to large classes to help professors comply with ABA formative assessment standards. Contemporary Layout and Design: The contemporary book design is optimized to improve readability, heighten student engagement, and increase retention. Concise and Compact: Shorter than competing casebooks, the casebook can be used in 4-credit, 5-credit, or 6-credit courses. Classroom Tested: Contracts: A Modern Coursebook has been classroom tested over three years. More than 400 students have used the text for both the first year contracts course and as a supplement for a third year remedies course. Students have been

overwhelmingly enthusiastic about the content, format, and approach.

Just Writing covers the basic principles of good legal writing — including style, grammar, and punctuation — and demonstrates them through numerous examples. The text provides legal writers of all experience levels with tips, techniques, and helpful advice for every step of the process: planning, drafting, revising, editing, and proofreading. However, Just Writing goes further, guiding students to eloquence in concise legal prose. The text provides valuable resources for English-as-a-Second-Language students and teachers.

Contract Law: A Case & Problem-Based Approach is a unique casebook that provides an organizational structure introducing students to each major area of contract law before exploring these areas in greater depth later in the casebook. Specifically, the casebook is broken into three major parts, each of which is designed not only to orient the students to the major subject areas of contract law but also meant to help them appreciate the connections and relationships between and among these various subject areas. Part I, the “30,000-foot view,” familiarizes students with contract law, discusses the sorts of problems with which contract law is concerned, and introduces them to some of the basic rules and theories governing contract law. Part II, the “10,000-foot view,” exposes students to each major substantive area of contract law in more depth by discussing one classic case in each area, along with additional historical, theoretical, and contextual materials to supplement the black-letter doctrine. After finishing Parts I and II, the student will have a basic understanding of each major area of contract law, along with a good understanding of how these parts fit together. Part III is therefore designed to explore each of the major subject areas in greater depth, and is organized along the lines of a traditional contracts casebook, including a healthy mix of classic and modern cases, short problems, and exercises. New to the Second Edition: Additional materials and cases added to explore the contract doctrines of impossibility and impracticability in light of past and current epidemics (in the case of polio) and pandemics (in the case of COVID-19). Additional case added to explore the relationship between Contract Law, Civil Rights, and Constitutional Law. Reorganization of some materials in Chapter 8 (defenses). More focused notes and appendices Professors and student will benefit from: Organization exposes students to main concepts, and gives professors a number of choices about how to teach their course. Helpful doctrinal introductions to each new major substantive section. Historical, theoretical, and comparative materials are presented to help students understand and think critically about the black-letter rules. “Thinking tools” feature that helps the student think critically about the law, along with theoretical, historical, doctrinal, contextual, and practice-oriented notes enrich the students’ black-letter experience. Enjoyable, contextual materials that are included after a number of classic cases help to bring to light fascinating background information.

Jill Poole's bestselling Casebook on Contract Law provides students with a comprehensive selection of case law, addressing all aspects of the subject encountered on undergraduate courses. Extracts have been carefully chosen from a wide range of historical and contemporary cases to illustrate the reasoning processes of the courts, and to show how legal principles develop. Cases can either be analysed and discussed in isolation or, taken as a whole, the selection of cases form chapters providing a structured overview of the modern law of contract. Online Resource Centre The casebook is fully supported by an Online Resource Centre, which provides: - Self-test questions and answers - Guidance on answering questions in contract law - Exercises and guidance on reading cases - An opportunity for students to ask the author any questions

The variety, pace, and power of technological innovations that have emerged in the 21st Century have been breathtaking. These technological developments, which include advances in networked information and communications, biotechnology, neurotechnology, nanotechnology, robotics, and environmental engineering technology, have raised a number of vital and complex questions. Although these

technologies have the potential to generate positive transformation and help address 'grand societal challenges', the novelty associated with technological innovation has also been accompanied by anxieties about their risks and destabilizing effects. Is there a potential harm to human health or the environment? What are the ethical implications? Do these innovations erode or antagonize values such as human dignity, privacy, democracy, or other norms underpinning existing bodies of law and regulation? These technological developments have therefore spawned a nascent but growing body of 'law and technology' scholarship, broadly concerned with exploring the legal, social and ethical dimensions of technological innovation. This handbook collates the many and varied strands of this scholarship, focusing broadly across a range of new and emerging technology and a vast array of social and policy sectors, through which leading scholars in the field interrogate the interfaces between law, emerging technology, and regulation. Structured in five parts, the handbook (I) establishes the collection of essays within existing scholarship concerned with law and technology as well as regulatory governance; (II) explores the relationship between technology development by focusing on core concepts and values which technological developments implicate; (III) studies the challenges for law in responding to the emergence of new technologies, examining how legal norms, doctrine and institutions have been shaped, challenged and destabilized by technology, and even how technologies have been shaped by legal regimes; (IV) provides a critical exploration of the implications of technological innovation, examining the ways in which technological innovation has generated challenges for regulators in the governance of technological development, and the implications of employing new technologies as an instrument of regulatory governance; (V) explores various interfaces between law, regulatory governance, and new technologies across a range of key social domains.

Instructors who want to concentrate on basic themes of contract law will find this flexible, problem-oriented casebook ideally suited to their purpose. Taking a straightforward approach, *Cases, Problems, and Materials on Contracts, Fourth Edition*, is carefully constructed to facilitate student understanding. To make teaching and learning both efficient and effective, the authors: supply an excellent assortment of well-conceived hypotheticals - with answers in the *Teacher's Manual*. Provide thorough coverage of the basic themes of contract law. Keep the book to a manageable length, suitable for use in courses of four, five, or six hours. Use a popular cases-and-problems approach. Maintain an accessible tone throughout the text, with clear section/concept introductions. Organize the material for maximum flexibility, starting with Offer and Acceptance and moving to Consideration, but designed so you can easily begin with Consideration or Remedies. Edit cases tightly. Truly elaborate on all chapters for a smoothly flowing text. The Fourth Edition presents important new material: Careful coverage of extensive Article 2 changes; the focus is on the existing version of Article 2, but the 2003 rewrite is considered in detail so instructors can choose which version to emphasize. UETA And The E-Sign Act. Both classic and new cases. Revised and updated *Teacher's Manual*. New and refreshed problems. Help your students master the intricacies of contract law with the casebook that zeroes in on fundamental topics -- Thomas D. Crandall and Douglas J. Whaley's *Cases, Problems, and Materials on Contracts, Fourth Edition*. An author website to support classroom instruction using this title is available at <http://www.aspenlawschool.com/crandall4>

Cases, Problems, and Materials on Contracts is distinguished among other texts by its excellent organization and thorough coverage of the basic themes of contract law. The accessible, straightforward text begins with clear introduction to each section or concept. Carefully selected cases have been tightly edited for the best effect. Using an engaging

problem-oriented approach, students learn contract doctrine by applying their knowledge to short, well-conceived hypotheticals. Offering a flexible organization, the book starts with “Offer and Acceptance” and moves on to “Consideration,” however, the book is designed so courses can easily start with “Consideration” or “Remedies.” Its flexibility allows for use in courses in which professors are required to teach sales, yet can also be adapted to avoid teaching the UCC. A manageable length accounts for the book being used in courses of 4, 5, and 6-hour length. The authors have worked closely on all chapters to deliver a seamless revision to this popular text. Key Features of the New Edition: The seventh edition begins with a new chapter containing an expanded introduction to the study of contracts law. Every chapter now includes new introductory material All chapters, with the exception of chapter one, end with an “Assessment” section, which consists of multiple choice questions and answers, designed to help the students review the material just learned.

For a casebook that smoothly mixes the latest cases with more of the classics than any other book, choose Randy Barnett's *Contracts: Cases and Doctrines*. Now in its Third Edition, this popular casebook successfully employs a student-friendly 'back-to basics' approach. When you examine the casebook, be sure to notice its: flexible modular organization; the book begins with Remedies, but chapters can easily be rearranged to suit instructor preferences longer, more lightly-edited opinions that train students to sift through decisions to identify the most pertinent facts and reasoning memorable fact patterns to enliven study and provide more provocative contrasts unique background information that makes cases come alive and puts them in context study guide questions before most materials that help students focus their reading the Third Edition smoothly integrates e-commerce cases and materials including: 'click-through' agreements 'shrink-wrap' agreements telephone sales statute of frauds and unconscionability excerpts from the new Uniform Electronic Transactions Act (UETA) And The Uniform Computer Information Transactions Act (UCITA) proposed revisions To The Uniform Commercial Code (UCC) in addition, The Third Edition features: captivating cases like *CNA & American Casualty v. Arlyn Phonenix* background material on avoiding problems of assent with e-commerce, The UN convention on contracts For The sale of goods, and *Alaska Packers Association v. Domenico* a significantly revised Teacher's Manual, with transition guide and sample syllabi

Contract law allows parties to set their own rules within constraints. It provides a set of default rules and if the parties do not like them, they can change them. *Rethinking Contract Law and Contract Design* explores various long-standing contract doc

The methodology in *Cases and Problems on Contracts* started as a successful experiment. Students are forced to exercise analytic thinking prior to coming to class and master basic contracts by working problems and dissecting cases.

The material employs the problem method in tandem with case dissection to develop students' interest and increase their store of knowledge. A large number of the cases were decided in the twenty-first century and involve current issues. The coursebook also includes many cases involving lawyers' contracts to illuminate various aspects of professional responsibility demonstrating that the law governing lawyers' contracts is different.

The new edition includes many new features including a new introductory chapter which provides an overview of the course in the first two weeks, as well as modern movements in contracts jurisprudence. This edition covers new cases dealing with contract issues growing out of the current foreclosure crisis as well as new cases from the Supreme Court's recent arbitration jurisprudence. The authors added new coverage of unilateral change of terms provisions in consumer contracts and new materials covering the Constitution's contract clause in relation to current state pension crisis. The materials have been reorganized and streamlined. Some cases have been moved around in the book so as to provide a more logical structure that students will find more accessible.

In *Problems in Contract Law: Cases and Materials*, Ninth Edition, by Charles L. Knapp, Nathan M. Crystal, and Harry G. Prince, a balance of traditional and contemporary cases reflect the development and complexity of contract law.

Explanatory notes and text place classic and contemporary cases in their larger legal context, while questions and problem exercises bridge theory and practice. Adaptable for instructors with different teaching techniques, this successful book includes various perspectives and contractual settings, and offers a highly intelligent, contemporary treatment of contract law. It can easily be used in teaching by traditional case analysis, through problem-based instruction, or using theoretical inquiry. New to the Ninth Edition: Seven new cases that reflect advances in or improved statements of contract law Two restored cases (*Kirksey v. Kirksey* and *Hill v. Jones*) that provide valuable perspectives on fundamental areas of contract law Eight new problems (including seven net additions and one replacement) to provide more review options for teachers and students and to add contemporary fact patterns A new, two-color design featuring interesting photographs illustrating people and places discussed in some of the cases Editing of note and text material to reduce length without affecting coverage Reorganization of text and comment material to focus comments primarily on historical developments, allowing professors flexibility in assigning or deleting comments Student accessibility to deleted cases from prior editions through Connected Casebook, allowing professors the further flexibility of continuing to easily assign cases for which they have a particular preference Professors and students will benefit from: Flexible application for professors with various teaching methodologies: traditional, problem, theoretical, and practical A mixture of classic and contemporary cases The authors' emphasis on accessibility of the material—rejecting a hide-the-ball approach Review questions at the end of each chapter that are primarily designed for students to perform self-assessments of their grasp

of the material. Answers with explanations are included in an appendix within the book.

The product of a unique collaboration between academic scholars, legal practitioners, and technology experts, this Handbook is the first of its kind to analyze the ongoing evolution of smart contracts, based upon blockchain technology, from the perspective of existing legal frameworks - namely, contract law. The book's coverage ranges across many areas of smart contracts and electronic or digital platforms to illuminate the impact of new, and often disruptive, technologies on the law. With a mix of scholarly commentary and practical application, chapter authors provide expert insights on the core issues involving the use of smart contracts, concluding that smart contracts cannot supplant contract law and the courts, but leaving open the question of whether there is a need for specialized regulations to prevent abuse. This book should be read by anyone interested in the disruptive effect of new technologies on the law generally, and contract law in particular.

Buy a new version of this Connected Casebook and receive access to the online e-book, practice questions from your favorite study aids, and an outline tool on CasebookConnect, the all in one learning solution for law school students. CasebookConnect offers you what you need most to be successful in your law school classes—portability, meaningful feedback, and greater efficiency. Cases, Problems, and Materials on Contracts is known for pioneering the problem method of law school teaching. A staple in classrooms for decades, it stands out from other texts in the scope of its coverage and its use of short, carefully-constructed Problems to expose students to new concepts, reinforce what they have just learned, and stimulate thought. The Eighth Edition, the first since the passing of Thomas Crandall and the addition of David Horton as co-author, is more accessible than ever. It introduces complicated issues with a clear narrative summary or explicit statement of black-letter law. The cases have been tightly edited for best effect. The book can also be easily adapted to fit various pedagogical needs. Although it starts with “Agreement” and moves to “Consideration,” it is also designed for teachers who prefer to begin with “Consideration” or “Remedies.” It can be used in courses that both include and exclude sales. Finally, because it is shorter than most other texts in this field, it works in 4-unit, 5-unit, and 6-unit courses. New to the Eighth Edition: Substantial input from a new co-author means that the book contains scores of new cases, Problems, and narrative introductions to issues. Each opinion has been streamlined to enhance readability. Where possible, applicable Restatement of Contracts and Uniform Commercial Code sections have been printed in the text, saving students the cost of buying separate supplements. Professors and students will benefit from: Coverage of the basics of Contracts Law in a format that allows greater exposure to the legal concepts through the many Problems that fill each chapter alongside the most illustrative cases on point Assessment multiple-choice questions at the end of each chapter that are meatier than such questions in most books, focusing not on the “right answer” so

much as on what real attorneys must consider when confronted with the issues presented. The entire book's approach is not just to teach rules of law but to train students to be lawyers faced with commercial issues. For example, Problems sometimes ask students whether they would be committing malpractice if they took a certain course of conduct, an issue very much on the mind of actual attorneys but seldom mentioned in law school classrooms. CasebookConnect features: **ONLINE E-BOOK** Law school comes with a lot of reading, so access your enhanced e-book anytime, anywhere to keep up with your coursework. After your casebook, Casenote Legal Briefs will be your most important reference source for the entire semester. It is the most popular legal briefs series available, with over 140 titles, and is relied on by thousands of students for its expert case summaries, comprehensive analysis of concurrences and dissents, as well as of the majority opinion in the briefs. Casenote Legal Briefs Features: Keyed to specific casebooks by title/author; Most current briefs available; Redesigned for greater student accessibility; Sample brief with element descriptions called out; Redesigned chapter opener provides rule of law and page number for each brief; Quick Course Outline chart included with major titles; Revised glossary in dictionary format

This title contains well-prepared briefs for each major case in Knapps's casebook on Contract Law. High Court briefs are written to present the essential facts, issue, decision and rationale for each case in a clear, concise manner. While prepared briefs can never substitute for the insight gained by actually reading a case, these briefs will help readers to identify, understand, and absorb the core "take away" knowledge from each case. Moreover, these briefs are followed by

a useful legal analysis, which provides extra tips and contextual background about each case, connecting the case to the broader concepts being developed throughout the casebook. This book also supplies case vocabulary, which defines new or unusual legal words found throughout the cases. Finally, to enhance the reader's recall, there is a corresponding memory graphic for each brief that portrays an entertaining visual representation of the relevant facts or law of the case.

Contracts: Cases and Doctrine, Sixth Edition, features a mix of lightly-edited classic and contemporary cases that stresses current contract doctrine along with the essential lawyering skill of case analysis—how to sift through the facts of the case to discern the prevailing rules and theory. Randy Barnett and Nate Oman's innovative text introduces each case and provides the historical background of the iconic cases that make the study of contract law engaging. Study Guide questions help students identify salient issues as they read each case. Judicial biographies of each judge provides additional context.

Key Features of the New Edition: The 6th Edition has been edited to make it even more modular and therefore easier for professors to select which doctrines to cover. The introductory materials have been shortened to permit a speedier entry to whichever basic doctrine the professor chooses to begin with. A new section on public policy defenses has been added. Recent developments involving arbitration agreements in the wake of the Supreme Court's AT&T Mobility case are also covered. In addition, roughly a dozen new cases have been substituted, chosen for their interesting facts or their proven pedagogical usefulness. As always, every effort is made to provide students with background materials on the litigation, such as new judicial biographies and excerpts from recently published scholarship dealing with the cases covered. New cases include: *Jordan v. Knafel* *Arnold Porter v. Fuqua Industries* *Nguyen v. Barnes & Noble Inc.* Also, in keeping with the book's focus on the "classic" cases we have included some iconic cases missing from earlier editions, including: *Masterson v. Sine* *Security Stove & Manufacturing Co. v. American Railway Express* *Lefkowitz v. Great Minneapolis Surplus Store* *Lawrence v. Fox* *Harris v. Watson*

Basic Tort Law: Cases, Statutes, and Problems, Second Edition, written by authors who bring years of experience teaching and writing about torts to the task, is concise, accessible, and employs a well-articulated and class-tested pedagogy. A torts

K: A Common Law Approach to Contracts is a highly focused, case-based contract law text from the distinguished writing team of George and Korobkin. In addition to offering a comprehensive treatment of the basic issues of contract law, this stimulating casebook emphasizes development of analogical reasoning skills throughout. Each section is limited to three types of materials--brief narrative, judicial opinions and discussion problems--and is designed to teach students how to read opinions, analyze issues, distinguish material from immaterial facts, and apply holdings to similar problems. Hallmark features: Highly regarded author team has written more than 50 law journal articles and several legal texts. Lean, focused, case-based text can be taught in a one-semester course. Comprehensive treatment of first-year contract law. Each section organized to promote methods of legal reasoning , including: A brief narrative that states a basic, fundamental proposition of

contract law and guidance as to the second order doctrinal issues raised. Edited judicial opinions. Provocative discussion problems, designed for analysis from the perspectives of the judge and the opposing parties. Judicial opinions include classic and contemporary cases in contract law. Discussion problems simulate the fact patterns students will be given in final exam. Step-by-step discussion of how to teach cases through the Socratic method. PowerPoint slides that provide a framework for discussion of core concepts. Hypotheticals and discussion problem answers.

In this series of chapters on contract damages issues, Victor P. Goldberg provides a framework for analyzing the problems that arise when determining damages, and applies it to case law in both the USA and the UK.

Contract Law: Cases and Materials presents a selection of well-chosen cases and illuminating commentary ideal for introducing students to the study of contract law in Australia. Developed to accompany Stewart, Swain and Fairweather's Contract Law: Principles and Context, this casebook maintains the accessibility of the principles text while providing the depth and analysis of topics required to learn contract law.

Following the structure of the principles text, this text explores areas not traditionally covered in other casebooks, such as resolving disputes, preparing to make a contract, preliminary agreements, and interpreting contracts. Each chapter also briefly explores contracts in international contexts. Containing well-chosen, carefully curated cases and extracts, Contract Law: Cases and Materials takes a practical approach to student learning and integrates rich pedagogy to build critical thinking and analysis skills, making it an invaluable resource for contract law students.

After your casebook, a Casenote Legal Brief is your most important reference source for the entire semester. The series is trusted for its expert summary of the principal cases in your casebook. Its proven reliability makes Casenote Legal Briefs the most popular case brief series available. With more than 100 titles keyed to the current editions of major casebooks, you know you can find the help you need. The brief for each case saves you time and helps you retain important issues. Each brief has a succinct statement of the rule of law/black letter law, description of the facts, and important points of the holding and decision. Quicknotes are short definitions of the legal terms used at the end of each brief. Use the Glossary in the end of your text to define common Latin legal terms. Such an overview, combined with case analysis, helps broaden your understanding and supports you in classroom discussion. Each title is keyed to the current edition of a specific casebook; it's your trusted guide to the text throughout the semester. The brief for each principal case in the casebook saves you time and helps you retain important issues. Each brief has a succinct statement of the rule of law/black letter law, description of the facts, important points of the holding and decision, and concurrences and dissents included in the casebook excerpt. This overview is combined with a short analysis: all to help you broaden your understanding and support you in classroom discussion. Quicknotes at end of each brief give you short definitions of the legal terms used. A handy Glossary of common Latin words and phrases is included in every Casenote. Detailed instruction on how to brief a case is provided for you. Contracts: Cases, Discussion, and Problems, Fourth Edition is known for its strikingly clear, straightforward text that illuminates cases as well as concepts and theory. The book focuses on modern cases to expose students to contemporary contract law, but it also includes many important or iconic older cases. The cases are set in context by extensive author-written explanatory text. Insightful questions draw attention to difficult and crucial aspects of the law and prompt vigorous class discussion. Numerous problems, ranging from simple to complex, supplement cases and introduce topics taught most effectively through problems. The casebook's traditional organization begins with

formation and then corresponds to the sequence followed by the Restatement (2nd) of Contracts and treatises. Its concise, efficient presentation results in an optimum length for the course. Procedural issues are highlighted when presented by the cases and transactional issues such as drafting, client counseling, and negotiation are raised through the use of questions and small exercises throughout the text. Strengthening the text's focus on contemporary methods of contracting, modern issues in standard contracts are explored along with contracts entered into electronically. International and comparative material offers alternative approaches for students to consider, such as those taken by the United Nations Convention on Contracts for the International Sale of Goods (CISG) and the UNIDROIT Principles of International Commercial Contracts.

This casebook is designed to meet the challenges of providing students with the most current and comprehensive analysis of modern contract law within the time constraints of the modern law school curricula. While the Seventh Edition includes the most current judicial and statutory developments, the enhanced use of problems interacting with text material allows students to gain a clear and sophisticated understanding of some of the more complex concepts in fewer classroom hours. Today's student is asked to assimilate all of the basic concepts to which students in the past have been exposed as well as a host of new developments. To meet these challenges, this edition includes problems and questions surrounded by text referring to case law and other authorities in a fashion that allows the student to pursue preparation as well as the classroom experience in a highly productive fashion. Notwithstanding these innovations, the essential nature of the book has not changed. It is a casebook. New cases replacing cases in the prior edition demonstrate a high pedagogical value. The overriding purpose is to provide the student with the maximum opportunity to develop a comprehensive understanding of contract law in the 21st century that will be sufficient for long-term career success. Contract law will continue to evolve. It is important to provide the student with a vehicle promoting a sophisticated understanding of the subject in a fashion that will allow the student to assimilate future developments with justifiable confidence. The eBook versions of this title feature links to Lexis Advance for further legal research options.

This convenient paperback from a highly respected author team supplements the authors' own casebook as well as any other casebook for Contracts. It reproduces most sections from the Restatement (Second) of Contracts black-letter text with selected comments, examples, and illustrations; most sections of the Uniform Commercial Code Articles 1 and 2, with more select sections of Articles 2A, 3 and 9; most articles from the United Nations Convention on Contracts for the International Sale of Goods (CISG); and many articles from the UNIDROIT Principles of International Commercial Contracts. This supplement also reproduces excerpts from other relevant source materials and provides accompanying commentary to enhance the study of contract law. Rules of Contract Law (2019 Edition) includes: • Restatement (Second) of Contracts • Restatements of the Law of Agency (Third), Employment Law, and Restitution and Unjust Enrichment (Third) • Principles of the Law of Software Contracts • Uniform Commercial Code Articles 1 and 2 and excerpts from Articles 2A, 3, and 9 • U.N. Convention on Contracts for the International Sale of Goods • UNIDROIT Principles of International Commercial Contracts (2016) • Materials on Electronic Contracting (UCITA, UETA, and E-Sign Act) • Comment on Commercial, Employment, and Consumer Arbitration • Contract Drafting: A Sample Problem Highlights of the 2019 Edition: Expansive coverage of Restatement (Second) of Contracts, but more concise than prior edition Select provisions from other Restatements, including Restitution and Unjust Enrichment (Third), Agency (Third), and Employment, as well as Principles of Law of Software Contracts Expansive coverage of UCC Articles 1 and 2 Expansive coverage of the CISG Commentary on arbitration and contract drafting problems

PROBLEMS IN CONTRACT LAW: Cases and Materials has always been a favorite of first-time Contracts teachers. By combining contemporary theory and problems with more traditional cases and notes, this successful casebook has become the choice of a wide range of professors. This eagerly-awaited revision introduces new co-author H.G. Prince and a host of new material while it retains the intellectual integrity of previous editions. This extremely teachable casebook draws praise for its: exceptionally engaging problems that mesh with cases, notes, and questions to hold student interest; integration of contemporary contract theory such as feminist, law and economics, and other viewpoints; balanced structure and organization that allows the book to be comprehensive, without overwhelming students; companion Rules Supplement; outstanding Teacher's Manual, with sample syllabi, teaching points keyed to specific pages, answers to many of the problems, and questions keyed to case summaries. To keep the book fresh and current, this Fourth Edition features: updated problems, cases, and references; expanded coverage of promissory estoppel; greater discussion of Alternative Dispute Resolution as it relates to contract law. For your next Contracts course, consider the book that is firmly positioned where scholarship meets practice: **PROBLEMS IN CONTRACT LAW: Cases and Materials, Fourth Edition**.

A student classic: clear, comprehensive, contextual. Jill Poole's immensely popular Textbook on Contract Law has been guiding students through contract law for over 20 years. This new edition has been updated with the latest key legal developments by Professor Robert Merkin and Dr Severine Saintier. The law of contract is placed within its commercial context, and students are provided with a detailed yet accessible treatment of all the key areas of contract law. Key features: - Each chapter begins with a summary of key issues, providing an overview of central themes and points of law, and concludes with suggestions for further reading, guiding students towards the most relevant texts and articles - Key points, illustrative examples and questions encourage a deeper understanding of the central facts and issues - Headings, case summaries and case extract boxes allow for easy navigation through the text. Online resources: The study of contract law continues via the online resources, keeping you up to date and helping to consolidate your learning. - 300 multiple choice questions with answers and feedback - Self-test questions and answers - Guidance on answering problem questions in contract law - Updates on new legislation, cases, and other legal developments.

This classic casebook traces the development of contract law in the English and American common law traditions. Like earlier editions, the 8th Edition features authoritative introductions to major topics, carefully selected cases, and well-tailored notes and problems. The casebook is ecumenical in its outlook, presenting a well-balanced approach to the study of contract law without ever losing sight of the importance of doctrine in all its detail. Cases are situated within a variety of disciplines: history, economics, philosophy, and ethics and present the law in a variety of settings: commercial, familial, employment, and sports and entertainment. The 8th Edition will feel familiar yet fresh to current users and both exciting and comfortable to newcomers to contracts or to this casebook.

Landmark Cases in the Law of Contract offers twelve original essays by leading contract scholars. As with the essays in the

companion volume, *Landmark Cases in the Law of Restitution* (Hart, 2006) each essay takes as its focus a particular leading case, and analyses that case in its historical or theoretical context. The cases range from the early eighteenth- to the late twentieth-centuries, and deal with an array of contractual doctrines. Some of the essays call for their case to be stripped of its landmark status, whilst others argue that it has more to offer than we have previously appreciated. The particular historical context of these landmark cases, as revealed by the authors, often shows that our current assumptions about the case and what it stands for are either mistaken, or require radical modification. The book also explores several common themes which are fundamental to the development of the law of contract: for instance, the influence of commercial expectations, appeals to 'reason' and the significance of particular judicial ideologies and techniques.

In *Problems in Contract Law: Cases and Materials*, Ninth Edition, by Charles L. Knapp, Nathan M. Crystal, and Harry G. Prince, a balance of traditional and contemporary cases reflect the development and complexity of contract law. Explanatory notes and text place classic and contemporary cases in their larger legal context, while questions and problem exercises bridge theory and practice. This successful book includes various perspectives and contractual settings, and offers a highly intelligent, contemporary treatment of contract law. It can easily be used in teaching by traditional case analysis, through problem-based instruction, or using theoretical inquiry. New to the Ninth Edition: Seven new cases that reflect advances in or improved statements of contract law Two restored cases (*Kirksey v. Kirksey* and *Hill v. Jones*) that provide valuable perspectives on fundamental areas of contract law Eight new problems (including seven net additions and one replacement) to provide more review options for students and to add contemporary fact patterns A new, two-color design featuring interesting photographs illustrating people and places discussed in some of the cases Editing of note and text material to reduce length without affecting coverage Reorganization of text and comment material to focus comments primarily on historical developments, allowing professors flexibility in assigning or deleting comments Student accessibility to deleted cases from prior editions through Connected Casebook, allowing professors the further flexibility of continuing to easily assign cases for which they have a particular preference Professors and students will benefit from: A mixture of classic and contemporary cases The authors' emphasis on accessibility of the material--rejecting a hide-the-ball approach Review questions at the end of each chapter that are primarily designed for students to perform self-assessments of their grasp of the material. Answers with explanations are included in an appendix within the book.
