Cry in a Long Night Jabra Ibrahim Jabra, 2022-05-31 Jabra's debut novel, first published in 1955 and called by Edward Said "one of the principal successes of Arabic artistic prose and drama," introduced stream of consciousness, flashback and interior monologue to the Arabic novel and set the stage for the outpouring of excellent modern Arabic prose in the decades that followed. In the first novel by the Palestinian author Jabra Ibrahim Jabra, Amin Samaa walks the length of his native city on a portentous night. Amin is headed to the house of Inayat Yasser, an aristocratic heiress who has hired him to help her write a book on the history of her Ottoman family, now fallen on hard times. On his way there, Amin recalls his childhood in a nearby village and the city slum his family had to flee to after his father died. Old friends, thieves and madames attempt to waylay him. And the haunting atmosphere of the city gives rise to memories of Amin's wife Sumaya, whose sudden disappearance two years before has left him at a loss. Sumaya's sudden reappearance forces Amin into a decision that will change his life forever. In a novel written just two years before the 1948 Palestinian Nakba, the events and characters lead to a momentous conclusion. Jabra brought modernist techniques into modern Arabic literature: the reminiscences of D. H. Lawrence, the introspective wanderer of James Joyce, and the acerbic wit and country-house feel of early Aldous Huxley. This classic of Arabic literature is not to be missed.

The Handbook of Personal Area Networking Technologies and Protocols Dean Anthony Gratton, 2013-08-29 This Handbook offers an unparalleled view of wireless personal area networking technologies and their associated protocols. It lifts the lid on their growing adoption within the consumer electronics, home automation, sports, health and well-being markets. Bluetooth low energy, ZigBee, EnOcean and ANT+ are comprehensively covered, along with other WPAN technologies including NFC, Wi-Fi, Bluetooth classic and high speed, and WHDI. It also features 802.11ac, the Internet of Things, Wireless USB, WiGig and WirelessHD. The Handbook shows how white space radio, cellular and Femtocells have inadvertently blurred the boundaries between personal and wide area communications, creating disruptive topologies through technology convergence. It explores how pervasive WAN technologies have spawned a new generation of consumers through the Lawnmower Man Effect and explains how our personal space has become integral to social media streams, including Twitter, Facebook and Pinterest. An essential read for students, software engineers and developers, product planners, technical marketers and analysts.

Too Fast to Think Chris Lewis, 2016-10-03 Our lives are getting faster and faster. We are engulfed in constant distraction from email, social media and our 'always on' work culture. We are too busy, too overloaded with information and too focused on analytical left-brain thinking processes to be creative. Too Fast to Think exposes how our current work practices, media culture and education systems are detrimental to innovation. The speed and noise of modern life is undermining the clarity and quiet that is essential to power individual thought. Our best ideas are often generated when we are free to think diffusely, in an uninterrupted environment, which is why moments of inspiration so often occur in places completely separate to our offices. To reclaim creativity, Too Fast to Think teaches you how to retrain your brain into allowing creative ideas to emerge, before they are shut down by interruption, distraction or the self-doubt of your over-rational brain. This is essential reading for anyone who wants to maximize their creative potential, as well as that of their team. Supported by cutting-edge research from the University of the Arts London and insightful interviews with business leaders, academics, artists, politicians and psychologists, Chris Lewis takes a holistic approach to explain the 8 crucial traits

that are inherently linked to creation and innovation.

Natural Products Moupriya Nag, Dibyajit Lahiri, Jaideep Banerjee, Taniya Roy Chowdhury, 2023-12-01 Microbial biofilm plays an important role in the life cycle of microorganisms surviving in diverse and harsh environments such as extremes of temperatures, pH, salinity, nutrient scarcity etc. Biofilm formation is a survival strategy adopted by microorganisms allowing colonization in new niches by dispersal of microbes from the microbial clusters embedded within an outer polymer layer produced by the microorganism itself. This layer comprises of extracellular polymeric substances (EPS) that helps the indwelling microbes to grow and divide in a protected environment against invaders like antimicrobial agents, surfactant, biocides and phagocytic cells of host organisms. Thus, EPS matrix prevents the penetration of antimicrobials thereby allowing the indwelling microbes to survive and give rise to antimicrobial resistance posing threat to human health. The present book highlights a detailed analysis of the mechanism of biofilm formation in both Gram positive and Gram-negative bacteria and the role of quorum sensing signaling mechanism in the genetic regulation pathway. The book titled *Natural Products: Alternative therapeutics as Quorum Sensing (QS) inhibitors* provides a detailed and systematic review of mechanism of quorum sensing in both Gram positive and Gram-negative bacteria and alternative pharmacological developments as a potent solution to the rise of antimicrobial resistance during biofilm formation. Features: A systematic overview of the mechanism of quorum sensing in the development of microbial biofilms Biofilm formation and its role in the emergence of antimicrobial resistance. Recent pharmacological development of antibiofilm remedies involving biogenic compounds. This book serves as a reference book for researchers investigating the progression of events during microbial biofilm formation starting from the genetic cascade regulating quorum sensing to secretion of autoinducers and design of safer methodologies for the successful eradication of microbial biofilm. It may also be used as a textbook for a undergraduate level course in microbiology or microbial biotechnology.

Hunters in a Narrow Street Jabrā Ibrāhīm Jabrā, 1990 The novel's plot is riveting.... a well-written and fascinating transcription of Iraqi and Palestinian life in the late forties. It is a brilliant commentary upon a specific time and place.--The International Fiction Review Deserves our full attention and interest.--International Journal of Middle East Studies Provides crisp and, at times, stark descriptions and analyses of a host of issues and values which dominated Arab political, and social and literary life in the [late forties and] fifties, as represented by the not untypical Baghdad of that period.--Journal of Arabic Literature Jameel Farran, a Christian Arab, is forced to flee his destroyed Jerusalem in 1948. Teaching at Baghdad University, he falls in love with a beautiful Muslim girl, Sulafa, but their turbulent affair meets almost insurmountable obstacles of tradition and circumstance. This is a story of multiple conflicts--between Arab and Jew, desert and city, dictatorship and futile liberal effort, Eastern tradition and Western innovation. Jabra's Baghdad is a city filled with strife, squalor, and frustration; his picture of the brothels, the streets, the drawing rooms, and the lecture halls is a rich and

powerful one, realistic and profoundly disturbing.
