This fascinating book - the first comprehensive study of reading and politics in early modern England - examines how texts of that period were produced and disseminated and how readers interpreted and were influenced by them. Based on the voluminous reading notes of one gentleman, Sir William Drake, the book shows how readers formed radical social values and political ideas as they experienced civil war, revolution, republic and restoration. By analysing the strategies of Drake's reading practices, as well as those of several key contemporaries (including Jonson, Milton and Clarendon), Kevin Sharpe demonstrates how reading in the rhetorical culture of Renaissance England was a political act. He explains how Drake, for example, by reading and rereading classical and humanist works of Tacitus, Machiavelli, Guicciardini and Bacon, became the advocate of dissimulation, intrigue and realpolitik. Authority, Sharpe argues, was experienced, reviewed and criticised not only in the public forum but in the study, on the page and in the imagination, of early modern readers. 'Erudite, intelligent and fascinating ...a wonderful study of a subject central to the intellectual and cultural history of early modern England.' Anthony Grafton Kevin Sharpe was director of the Centre for Renaissance and Early Modern Studies and professor of renaissance studies at Queen Mary, University of London. He is the author of 'The Personal Rule of Charles I', 'Selling the Tudor Monarchy' and 'Image Wars', all published by Yale University Press.

Dr Spufford's book examines the profits made by these publishers, the scale of their operations, and the way the 'small books' were distributed throughout the country. It also examines their content, and compares the English chapbooks with their French counterparts. An account of the life and work of gnomes, based on first-hand observations by the author and artist, who, themselves turned into gnomes, visited with gnomes in Lapland and Siberia.

Offering a fresh history centred on the reactions and experiences of ordinary readers and writers, Lyons deals with key turning points that occurred throughout the centuries, such as the invention of the codex, the transition from scribal to print culture, the reading revolution and the industrialisation of the book. Tracing the major historical developments across Europe and North America which revolutionized our relationship with texts, this book provides an engaging and invaluable overview of the history of scribal and print culture.

Winner of a Books for a Better Life Award Many people who find themselves "stuck" in life are vaguely aware that fear is responsible for holding them back. Whether it's a fear of intimacy, mortality, success, or failure, the majority of us experience an inhibiting fear at some point in our lives. Naming these fears and examining them is critical to becoming aware of and, eventually, overcoming them. Life Unlocked draws from cutting-edge research in human psychology and neuroscience to illuminate the ways in which fear applies a brake to our movement through life. Informed by the latest breakthroughs in brain imaging and psychiatry, Dr. Pillay offers readers an enlightening understanding of how our brains work and physically process feelings of fear and anxiety. Based on this research, and his extensive clinical experience with patients, Dr. Pillay has developed 7 essential lessons to help move people past their fears: 1. What you don't know can hurt you 2. Dread is not something you feel; it is something you attend to 3. If it's hard to change, it is not unchangeable 4. We all know that we fear failure, but fear of success is equally relevant 5. Attachments are not just crucial to survival; they affect your physiology 6. Fear-based prejudice may

Continuing on to the electronic revolution, Martin's account takes in the changes wrought on writing by computers and electronic systems of storage and communication, and offers surprising insights into the influence these new technologies have had on children born into the computer age. The power of writing to influence and dominate is, indeed, a central theme in this history, as Martin explores the processes by which the written word has gradually imposed its logic on society over four thousand years. The summation of decades of study by one of the world's great scholars on the subject, this fascinating account of writing explains much about the world we inhabit, where we uneasily confer, accept, and resist the power of the written word.

Silent reading is now universally accepted as normal; indeed reading aloud to oneself may be interpreted as showing a lack of ability or understanding. Yet reading aloud was usual, indeed unavoidable, throughout antiquity and most of the middle ages. Saenger investigates the origins of the gradual separation of words within a continuous written text and the consequent development of silent reading. He then explores the spread of these practices throughout western Europe, and the eventual domination of silent reading in the late medieval period. A detailed work with substantial notes and appendices for reference.

Relatable, heartbreaking, and real, this is a story of resilience--the perfect novel for readers of powerful contemporary fiction like Girl in Pieces and Every Last Word. Before, I was a million things. Now I'm only one. The Burned Girl. Ava Lee has lost everything there is to lose: Her parents. Her best friend. Her home. Even her face. She doesn't need a mirror to know what she looks like--she can see her reflection in the eyes of everyone around her. A year after the fire that destroyed her world, her aunt and uncle have decided she should go back to high school. Be "normal" again. Whatever that is. Ava knows better. There is no normal for someone like her. And forget making friends--no one wants to be seen with the Burned Girl, now or ever. But when Ava meets a fellow survivor named Piper, she begins to feel like maybe she doesn't have to face the nightmare alone. Sarcastic and blunt, Piper isn't afraid to push Ava out of her comfort zone. Piper introduces Ava to Asad, a boy who loves theater just as much as she does, and slowly, Ava tries to create a life again. Yet Piper is fighting her own battle, and soon Ava must decide if she's going to fade back into her scars . . . or let the people by her side help her fly. "A heartfelt and unflinching look at the reality of being a burn survivor and at the scars we all carry. This book is for everyone, burned or not, who has ever searched for a light in the darkness." --Stephanie Nielson, New York Times bestselling author of Heaven Is Here and a burn survivor

Fiction and the Reading Public provoked fierce controversies when first published in 1932, and it has since come to be recognised as a classic in its field. In her fascinating study, Q D Leavis investigates what has happened to the public taste in the last three centuries and what effect this has had on both the life of the nation and the equality of living for the individual. A brilliant piece of literary exegesis and an illuminating anthropological commentary - DAILY MAIL An illuminating study. . . it offers a rich store of interest, not only in its vigorous scrutiny of the novel and the influences which have shaped it, but also in its study of changing attitudes and tempos of life among the general public who read novels. . . An achievement of distinguished quality and high value. New Republic. She has performed a noble office by inquiring into the case of the bestseller. The result is no less entertaining than instructive -SATURDAY REVIEW.

Winner of the Ruth and Sylvia Schwartz Children's Book Award For twelve-year-old Diego and his family, home is a prison in Cochabamba,

Bolivia. His parents farmed coca, a traditional Bolivian medicinal plant, until they got caught in the middle of the government's war on drugs and were mistakenly convicted of drug possession. Diego's parents are locked up, but he can come and go: to school, to the market to sell his mother's handknitted goods, and to work as a "taxi," running errands for other prisoners. But then his little sister temporarily runs off while under his watch, earning his mother a heavy fine. The debt and dawning realization of his hopeless situation make him vulnerable to his friend Mando's plan to make big money, fast. Soon, Diego is deep in the jungle, working as a virtual slave in an illegal cocaine operation. As his situation becomes more and more dangerous, he knows he must take a terrible risk if he ever wants to see his family again. Robert Darnton, Roger Chartier, and others have written much on the history of reading in the Old Regime, but this is the first broad study of reading to focus on the period after 1800. How and why did people understand texts as they did in modern France? In answering this question, James Allen moves easily from one interpretive framework to another and draws on a wide range of sources--novels, diaries, censor reports, critical reviews, artistic images, accounts of public and private readings, and the letters that readers sent to authors about their books. As he analyzes reading "in the public eye," the author explores the formation of "interpretive communities" during the years when reading silently and alone gradually became more common than reading aloud in a group. In the Public Eye discusses printing, publishing, literacy, schooling, criticism, and censorship, to study the social, cultural, economic, and political forces that shaped French interpretive practice. Examining the art and act of reading by different audiences, it discloses the mentalities of literate people for whom few other historical records exist. The book will be essential reading for those interested in modern French history, post-structuralist literary theory and criticism, reader-response theory and criticism, and social and intellectual history in general.
