In this graphic novel, presented in English for the first time, the Italian "Crumb" portrays a lost generation of late 1970s/early 1980s teenagers coping with family problems, school, sex, and drugs. A true visionary, with a fluid line and an uncanny sense of color and composition, Paziienza's innovative graphic style served up stories that were iconoclastic, outrageous, humorous, and deeply personal, often based on himself and his microcosm of friends and collaborators. Paziienza was a revolutionary cartoonist who ushered an underground sensibility to Italian and European comics, breaking from the more staid tradition of genteel adult (and children's) graphic albums.

Annotation Explores an underexamined source of influence that affects the way schooling is experienced and understood in contemporary culture, namely the flow of symbolic forms comprising mainstream popular culture. The volume centers on the portrayal of aspects of schooling --its characteristics, participants, glories, and problems--as they are constructed and displayed in diverse forms of popular culture. The main assumption is that involvement in contemporary schooling at any level--as teacher, student, policymaker, administrator, or concerned citizen--is conditioned by the sociocultural context in which schooling is understood, a context that is in turn mediated by powerful forms of popular culture. The inspiration for the NBC drama New Amsterdam and in the spirit of Oliver Sacks, this intensely involving memoir from a former medical director of a major NYC hospital looks poignantly at patients' lives and reveals the author's own battle with cancer. Using the plights of twelve very different patients--from dignitaries at the nearby UN, to supermax prisoners at Riker's Island, to illegal

immigrants, and Wall Street tycoons--Dr. Eric Manheimer "offers far more than remarkable medical dramas: he blends each patient's personal experiences with their social implications" (Publishers Weekly). Manheimer was not only the medical director of the country's oldest public hospital for over 13 years, but he was also a patient. As the book unfolds, the narrator is diagnosed with cancer, and he is forced to wrestle with the end of his own life even as he struggles to save the lives of others.

A critically acclaimed experimental collection of poetry, or rather the story of a troubled soul in verse: the journey starts with the mysterious 'Ybo'; the mind is lost in psychedelic and foggy lines. Then *Heav'n from Hell* takes the reader into the conflict of the adolescent soul with predecessors, followed by flickers, miniature spiritual landscapes that look at the Metaphysical Tradition to sketch subtle emotions. War, anger, frustration, love, confusion, death, religion and a dip into the erotic then lead to final burlesque.

Istanbul has long been a place where stories and histories collide, where perception is as potent as fact. From the Koran to Shakespeare, this city with three names--Byzantium, Constantinople, Istanbul -- resonates as an idea and a place, real and imagined. Standing as the gateway between East and West, North and South, it has been the capital city of the Roman, Byzantine, and Ottoman Empires. For much of its history it was the very center of the world, known simply as "The City," but, as Bettany Hughes reveals, Istanbul is not just a city, but a global story. In this epic new biography, Hughes takes us on a dazzling historical journey from the Neolithic to the present, through the many incarnations of one of the world's greatest cities--exploring the ways that Istanbul's influence has spun out to shape the wider world. Hughes investigates what it takes to make a city and tells the story not just of emperors, viziers, caliphs, and sultans, but of the poor and the voiceless, of the women and men whose aspirations and dreams have continuously reinvented Istanbul. Written with energy and animation, award-winning historian Bettany Hughes deftly guides readers through Istanbul's rich layers of history. Based on meticulous research and new archaeological evidence, this captivating portrait of the momentous life of Istanbul is visceral, immediate, and authoritative -- narrative history at its finest. Designed for use by teachers and teacher educators, this text should help both

novice and experienced teachers reinterpret their working lives. The reader is led on a path of personal exploration that goes beyond standard approaches and leads from the personal to the critical. Illustrative material is drawn from all levels, from kindergarten to high school, to illuminate issues and questions fundamental to teachers' lives. Film and literary narratives supply further case studies and contribute to the fusion of critical reflection and everyday realities that typically inform teachers' experiences of work.

"Grounded in the field of adult education, this international compilation offers a range of critical perspectives on popular culture as a form of pedagogy. Its fundamental premise is that adults learn in multiple ways, including through their consumption of fiction. As scholars have asserted for decades, people are not passive consumers of media; rather, we (re)make our own meanings as we accept, resist, and challenge cultural representations. At a time when attention often turns to new media, the contributors to this collection continue to find "old" forms of popular culture important and worthy of study. Television and movies – the emphases in this book – reflect aspects of consumers' lives, and can be powerful vehicles for helping adults see, experience, and inhabit the world in new and different ways. This volume moves beyond conceptually oriented scholarship, taking a decidedly research-oriented focus. It offers examples of

textual and discursive analyses of television shows and films that portray varied contexts of adult learning, and suggests how participants can be brought into adult education research in this area. In so doing, it provides compelling evidence about the complexity, politics, and multidimensionality of adult teaching and learning. Using a range of television shows and movies as exemplars, chapters relate popular culture to globalization, identity, health and health care, and education. The book will be of great use to instructors, students, and researchers located in adult education, cultural studies, women's and gender studies, cultural sociology, and other fields who are looking for innovative ways to explore social life as experienced and imagined."
