

Psychology Everyday Life David Myers

For Americans entering the twenty-first century, it is the best of times and the worst of times. Material wealth is at record levels, yet disturbing social problems reflect a deep spiritual poverty. In this compelling book, well-known social psychologist David G. Myers asks how this paradox has come to be and, more important, how we can spark social renewal and dream a new American dream. Myers explores the research on social ills from the 1960s through the 1990s and concludes that the materialism and radical individualism of this period have cost us dearly, imperiling our children, corroding general civility, and diminishing our happiness. However, in the voices of public figures and ordinary citizens he now hears a spirit of optimism. The national dialogue is shifting—away from the expansion of personal rights and toward enhancement of communal civility, away from efforts to raise self-esteem and toward attempts to arouse social responsibility, away from “whose values?” and toward “our values.” Myers analyzes in detail the research on educational and other programs that deal with social problems, explaining which seem to work and why. He then offers positive and well-reasoned advice, suggesting that a renewed social ecology for America will rest on policies that balance “me thinking” with “we thinking.”/div

Social psychologist David G. Myers has reviewed thousands of recent scientific studies conducted worldwide in search of the key to happiness. With wit and wisdom, he explodes some of the popular myths on the subject and presents specific techniques for finding true joy in living: Are most people happy? What are the inner traits of happy people? Are extroverts happier than introverts? Are men happier than women? Does religious faith promote inner peace and joy? Does well-being come with being well-off? Are happy children more likely to become happy adults? What part do friends play in personal happiness? Is age a factor in feeling happy? What can you do to improve your own sense of well-being? and much more

With every carefully revised, meticulously updated edition, Psychology by David Myers and Nathan DeWall continues to be the best-selling introductory psychology program. And students don't just use it--they love it. How do we know? They tell us. Students regularly contact the authors with feedback and appreciation for producing a text that is both enlightening and engaging. With wit and humor, and through poignant personal stories, Drs. Myers and DeWall lead you on an exciting journey through psychological science.

David Myers' new partnership with coauthor C. Nathan DeWall matches two dedicated educators and scholars, each passionate about teaching psychological science through writing and interactive media. With this new edition of the #1 bestselling Psychology, Myers and DeWall take full advantage of what an integrated text/media learning combination can do. New features move students from reading the chapter to actively learning online: How Would You Know puts students in the role of scientific researcher and includes tutorials on key research design principles; Assess Your Strengths self-tests help students learn a little more about themselves, and include tips about nurturing key strengths. These and other innovations rest on the same foundations that have always distinguished a new David Myers edition—exhaustive updating (hundreds of new citations), captivating writing, and the merging of rigorous science with a broad human perspective that engages both the mind and heart.

Exploring Social Psychology succinctly explores social psychological science and applies it to contemporary issues and everyday life. Based on the bestselling text, Social Psychology by David Myers and Jean Twenge, the book presents 31 short modules—each readable in a single sitting—that introduce students to such scientific explorations as love and hate, conformity and independence, prejudice and helping, and persuasion and self-determination. The Connect course for this offering includes SmartBook, an adaptive reading and study experience which guides students to master, recall, and apply key concepts while providing automatically-graded assessments. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following: • SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content. • Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course. • Progress dashboards that quickly show how you are performing on your assignments and tips for improvement. • The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping. Complete system requirements to use Connect can be found here: <http://www.mheducation.com/highered/platforms/connect/training-support-students.html>

A study of how materialism and consumerism undermine our quality of life. In The High Price of Materialism, Tim Kasser offers a scientific explanation of how our contemporary culture of consumerism and materialism affects our everyday happiness and psychological health. Other writers have shown that once we have sufficient food, shelter, and clothing, further material gains do little to improve our well-being. Kasser goes beyond these findings to investigate how people's materialistic desires relate to their well-being. He shows that people whose values center on the accumulation of wealth or material possessions face a greater risk of unhappiness, including anxiety, depression, low self-esteem, and problems with intimacy—regardless of age, income, or culture. Drawing on a decade's worth of empirical data, Kasser examines what happens when we organize our lives around materialistic pursuits. He looks at the effects on our internal experience and interpersonal relationships, as well as on our communities and the world at large. He shows that materialistic values actually undermine our well-being, as they perpetuate feelings of insecurity, weaken the ties that bind us, and make us feel less free. Kasser not only defines the problem but proposes ways we can change ourselves, our families, and society to become less materialistic.

"We cast social psychology in the intellectual tradition of the liberal arts. By the teaching of great literature, philosophy, and science, liberal arts education seeks to expand our awareness and to liberate us from the confines of the present. By focusing on humanly significant issues, we aim to offer social psychology's big ideas and findings to pre-professional psychology students, and to do so in ways that stimulate all students. And with close-up looks at how the game is played—at the varied research tools that reveal the workings of our social nature—we hope to enable students to think smarter"--

Adopting a multicultural approach, this text guides readers in the study of social thinking, social influence, and social relations. It emphasizes social psychology's applications to both work and life, and uses vignettes to emphasize the relevance of social psychology research.

Human illusions and the Biblical call to hope

Thus begins market-leading author David Myers' discussion of developmental psychology in Unit 9 of his new Myers' Psychology for AP® Second Edition. With an undeniable gift for writing, Dr. Myers will

lead your students on a guided tour of psychological science and poignant personal stories. Dr. Myers teaches, illuminates, and inspires. Four years ago, we published this ground-breaking text which is correlated directly to the AP® course. Today, we build on that innovation and proudly introduce the 2nd AP® Edition. Whether you are new to AP® psychology or have many years under your belt, this uniquely AP® book program can help you achieve more.

Best-selling authors David Myers' and Nathan DeWall's briefest introduction to psychology speaks to all students regardless of their background or level of preparedness, with no assumptions made in the vocabulary, examples, or presentation. Students of all kinds are comfortable with the inclusive tone and the manageable, pedagogically-effective chapters. Instructors appreciate the authors' encouraging students throughout to THINK critically, CONSIDER diverse perspectives, and IMPROVE their everyday life. Psychology in Everyday Life is a complete and affordable resource for students at all levels. Dave Myers and Nathan DeWall work on the text and corresponding LaunchPad content so there is a tight connection between all aspects of the course. This edition is heavily updated to reflect the latest in psychological science and to further emphasize the value of thinking critically, considering diverse perspectives, and improving our everyday life. The following elements support this new theme in the fifth edition: THINK CRITICALLY: New "Psychological Science in a Post-Truth World" section in Chapter 1, with its new companion animated tutorial in LaunchPad. "Thinking Critically About" infographics, with new companion activities in LaunchPad. CONSIDER DIVERSE PERSPECTIVES: New coverage on topics related to diversity and inclusion, especially the significantly revised Chapter 4, Sex, Gender, and Sexuality. New historical timeline in Appendix F, with an emphasis on diverse voices. New classroom activities on topics related to diversity now included in the Instructor's Resources. IMPROVE YOUR EVERYDAY LIFE New Student Preface, "How to Apply Psychology to Live Your Best Life," focused on student success. New "Improve Your Everyday Life" feature throughout each chapter helps students apply psychology's principles to their own lives. Assess Your Strengths activities in LaunchPad help make psychology's concepts meaningful, memorable, and useful for students.

How reliable is our intuition? How much should we depend on gut-level instinct rather than rational analysis when we play the stock market, choose a mate, hire an employee, or assess our own abilities? In this engaging and accessible book, David G. Myers shows us that while intuition can provide us with useful—and often amazing—insights, it can also dangerously mislead us. Drawing on recent psychological research, Myers discusses the powers and perils of intuition when: • judges and jurors determine who is telling the truth; • mental health workers predict whether someone is at risk for suicide or crime; • coaches, players, and fans decide who has the hot hand or the hot bat; • personnel directors hire new employees; • psychics claim to be clairvoyant or to have premonitions; • and much more.

Already The Bestselling AP* Psychology Author, Myers Writes His First Exclusive AP* Psych Text Watch Dave G. Myers introduce this new text here. Watch instructor video reviews here. David G. Myers is best known for his top-selling college psychology texts, used successfully across North America in thousands of AP* courses. As effective as Myers' college texts have been for the AP* course, we believe his new text will be even better, because Myers' Psychology for AP* has been written especially for the AP* course!

You know his name. You trust his work. Now David Myers brings you a textbook that speaks to all students, regardless of their background or level of preparedness. Known as Myers "no assumptions" text, this book strives to make the vocabulary, examples, and presentations accessible to all students. This briefer, more colorful, visually stirring text offers rich presentations of psychology's core concepts and research—examined through the everyday lives of diverse people. And like all David Myers books, the storyteller's voice is distinctive. And for this edition of Psychology in Everyday Life, Dr. Myers introduces something completely new, never-before found in a Myers text: a coauthor!

'Thought-provoking and practical ... Good advice based on sound neuroscientific principles' Sunday Times In The Organized Mind, New York Times and Sunday Times bestselling author and neuroscientist Daniel Levitin offers solutions for the problems of information overload. _____ Overwhelmed by demands on your time? Baffled by the sheer volume of data? You're not alone. Even the smartest mind can't beat the organized mind - when we're unable to make sense of it all, our creativity plummets, our decision making suffers and we grow absent-minded. Nowadays, we drown under emails, forever juggle six tasks at once and try to make complex decisions ever more quickly. This is information overload. Using a combination of academic research and examples from daily life, Daniel Levitin explains how to take back control of your life, from healthcare to online dating to raising kids, showing that the secret to success is always organization. You'll discover life-changing facts about: - How to make the most of your brain's daily processing limit - Why pressing Send or clicking Like are addictive - Why daydreaming is your brain at its most productive - What the most successful people keep in their drawer - Why multitasking is a bad way to do nearly everything In a world where information is power, The Organized Mind holds the key to harnessing that information and making it work for you.

David Myers' and Nathan DeWall's best-selling and briefest introduction to psychology speaks to all students regardless of their background or level of preparedness, with no assumptions made in the vocabulary, examples, or presentation. Students of all kinds are comfortable with Myers' manageable chapters, which include careful connections to associated visuals, comparative tables, and research-based pedagogy. Psychology in Everyday Life is a high quality and affordable resource for students of all levels. The text and accompanying LaunchPad have been heavily updated to reflect psychological science and students' everyday lives today.

Get the brief book that speaks to all students regardless of their background or level of preparedness. This, more than any other Myers/DeWall text, acknowledges the diversity of student readers. On these pages, you will find no assumptions about: Gender Culture Economic Background Education Physical Abilities Life Experiences Relationship or Family Status Plus, this edition is heavily updated to reflect the latest in psychological science and to further emphasize the value of applying psychology to everyday life.

Creating an exceptionally student-friendly textbook in psychology isn't just about making the chapters shorter and pages more colorful. It's about using that type of format to provide a clear portrait of psychological science, concise but not oversimplified, all while continually answering the recurring student question: "What does this have to do with me?" David Myers' brief introduction to psychology, Psychology in Everyday Life, certainly does offer brief, easily manageable chapters and a colorful, image-rich design (both shaped by extensive research, class testing, and instructor/student feedback). But what makes it such an exceptional text is what flows through those chapters—rich presentations of psychology's core concepts and field-defining research, examined in context of the everyday lives of all kinds of people around the world and communicated in the captivating storyteller's voice that is instantly recognizable as Myers'. The new edition of Psychology in Everyday Life offers an extraordinary amount of new research, effective new inquiry-based study tools, and further design innovations, all while maintaining its trademark brevity and clean layout. And it is accompanied by an innovative media/supplements of the same scope as all of David Myers' more comprehensive textbooks.

The psychology course is often a student favorite because it's so relevant to our everyday lives. And like all Myers and DeWall texts, Psychology in Everyday Life delivers an enjoyable and entertaining read, complete with the latest research and an eye-catching design. Unlike other Myers/DeWall books, this is a brief offering that makes no assumptions about a student's background or experiences. This book is

written with the diversity of your students in mind.

Some 28 million people in America and 350 million people worldwide live with hearing loss. How do these people and their families cope? What are their experiences of pain, humor, and hope? What support do medicine and technology now offer them, and what is on the horizon? In this engaging and practical book, David Myers, who has himself suffered gradual hearing loss, explores the problems faced by the hard of hearing at home and at work and provides information on the new technology and groundbreaking surgical procedures that are available. Drawing on both his own experiences and his expertise as a social psychologist, Myers recounts how he has coped with hearing loss and how he has incorporated technological aids into his life. The family and friends of the hard of hearing also face adjustments. Myers addresses their situation and provides advice for them on how best to alert loved ones to a hearing problem, persuade them to seek assistance, and encourage them to adjust to and use hearing aids.

Announcing a new Myers/DeWall text, created specifically for the Fall 2019 AP® course framework! You are likely familiar with the name Dr. David G. Myers. Now, he and his new co-author, Nathan DeWall, bring you a book that will allow you to use College Board's new Personal Progress Checks and Dashboard more effectively. This updated edition includes 100% of the new course content in the new nine-unit structure. All teacher and student resources will also be updated to correlate to the new student edition; this includes the TE, TRFD, TB, Strive, and LaunchPad. Everything will publish in summer 2020 such that you can use this new program for Fall 2020 classes. If you're not familiar with Myers/DeWall texts, you are in for a treat! Drs. Myers and DeWall share a passion for the teaching of psychological science through wit, humor, and the telling of poignant personal stories (individually identified in the text by the use of each author's initials [DM and ND]). Through close collaboration, these authors produce a unified voice that will teach, illuminate, and inspire your AP® students.

An introduction to psychology course. The author's updating and integrated use of the SQ3R learning system (Survey, Question, Read, Rehearse, Review) help to make the text accessible. A comprehensive supplements package is available to help both students and instructors.

Why Myers? David Myers has become the world's best-selling introductory psychology author by serving the needs of instructors and students so well. Each Myers textbook offers an impeccable combination of up-to-date research, well-crafted pedagogy, and effective media and supplements. Most of all, each Myers text demonstrates why this author's style works so well for students, with his signature compassionate, companionable voice, and superb judgment about how to communicate the science of psychology and its human impact. Why Modules? This modules-based version of Myers' best-selling, full-length text, Psychology (breaking down that book's 16 chapters into 59 short modules) is yet another example of the author's ability to understand what works in the classroom. It comes from Myers' experiences with students who strongly prefer textbooks divided into briefer segments instead of lengthier chapters, and with instructors who appreciate the flexibility offered by the modular format. Modular organization presents material in smaller segments. Students can easily read any module in a single sitting. Self-standing modules. Instructors can assign modules in their own preferred order. The modules make no assumptions about what students have previously read. Illustrations and key terms are repeated as needed. This modular organization of short, stand-alone text units enhances teacher flexibility. Instead of assigning the entire Sensation and Perception chapter, instructors can assign the module on vision, the module on hearing, and/or the module on the other senses in whatever order they choose. Watch our new videos from David Myers here, including our animation on THE TESTING EFFECT narrated by David Myers.

This is the access card only and does not include the textbook. LaunchPad contains resources for you and your students; it combines an interactive e-book with high-quality multimedia content and ready-made assessment options, including LearningCurve adaptive quizzing. Curated pre-built units are easy to assign or adapt with your own material, such as video, animations, simulations, readings, quizzes, discussion groups and more. LaunchPad also provides access to a grade book that shows both class and individual student performance, and for individual assignments as well. While a streamlined interface helps students focus on what's due next, social commenting tools let them engage, make connections, and learn from each other. Use LaunchPad on its own or integrate it with your school's learning management system so your class is always on the same page.

From its beginnings to this remarkably fresh and current new edition, Myers and DeWall's Psychology has found extraordinarily effective ways to involve students with the remarkable research underlying our understanding of human behavior. But while the content and learning support evolves edition after edition, the text itself continues to be shaped by basic goals David Myers established at the outset, including to connect students to high-impact research, to focus on developing critical thinking skills, and to present a multicultural perspective on psychology, so students can see themselves in the context of a wider world. This new edition offers 2100 research citations dated 2015-2020, making these the most up-to-date introductory psychology course resources available. With so many exciting new findings, and every chapter updated with current new examples and ideas, students will see the importance and value of psychological research, and how psychology can help them make sense of the world around them. The abundant, high quality teaching and learning resources in LaunchPad and in Achieve Read & Practice, carefully matched to the text content, help students succeed, while making life easier and more enjoyable for instructors.
