Radhakrishnan Robert N. Minor, 1987-09-30 It is the thought of Sarvepalli Radhakrishnan that is most often presented in the West as □Hinduism.□ He was a remarkable man. In addition to having been President of India while Nehru was Prime Minister, and the Indian Ambassador to the Soviet Union, he held the Spaulding Chair of Comparative Religion and Ethics at Oxford University. And he continues to be a culture hero of India. Radhakrishnan's thought developed in the context of his full life. Robert Minor places his thought in that context. His book traces the influences on him and the growth of his thought from his birth in Tirutani to his retirement to Madras. The book contains a complete bibliography of Radhakrishnan's writings and of the secondary literature.

Psychology in India Revisited - Developments in the Discipline, Volume 3 Janak Pandey, 2004 The Survey of Psychology series presents critical reviews of and reflects the major changes in psychological research in India. After a comprehensive introduction, this, the third volume in the series, begins with a chapter that critically highlights the major contributions in the areas of attitudes, social cognition and justice from a theoretical and cultural perspective. The second chapter examines individualistic as well as traditional collectivist Indian values arguing that both can co-exist. This is followed by a chapter on the various dimensions of poverty, the poor and deprivation. Chapter Four reviews the major theoretical approaches to the subject, and the next chapter presents the prevalent trends and shortcomings of the conceptual and methodological problems in the relatively new area of environmental psychology. Chapter Six provides various pertinent issues related with motivation, leadership and human performance within a conceptual framework and with theoretical perspectives. The last chapter critically examines the changes and the general shift in the content of research as well as the strength and weaknesses of the discipline of psychology at the start of the new millennium.

Depression in Kerala Claudia Lang, 2018-06-18 This book examines depression as a widely diagnosed and treated common mental disorder in India and offers a significant ethnographic study of the application of a traditional Indian medical system (Ayurveda) to the very modern problem of depression. Based on over a year of fieldwork, it investigates the Ayurvedic response to the burden of depression in the Indian state of Kerala as one of the key processes of the local appropriation or glocalization of depression. More broadly, Lang considers: What happens with the category of depression when it leaves the West and travels to South Asia? How is depression appropriated in a South Asian society characterized by medical pluralism? She explores on the level of ideas, institutions and materialities how depression interacts with and changes local worlds, clinical practice and knowledge and subjectivities. As depression travels from 'the West' to South India, its ontology, Lang argues, multiplies and thus leads to what she calls 'depression multiple'.
