Social media is having a profound, but not yet fully understood impact on public relations. In the 24/7 world of perpetually connected publics, will public relations function as a dark art that spins (or tweets) self-interested variations of the truth for credulous audiences? Or does the full glare of the internet and the increasing expectations of powerful publics motivate it to more honestly engage to serve the public interest? The purpose of this book is to examine the role of PR by exploring the myriad ways that social media is reshaping its conceptualization, strategies, and tactics. In particular, it explores the dichotomies of fake and authentic, powerless and powerful, meaningless and meaningful. It exposes transgressions committed by practitioners—the paucity of digital literacy, the lack of understanding of the norms of social media, naivety about corporate identity risks, and the overarching emphasis on spin over authentic engagement. But it also shows the power that closely networked social media users have to insert information and opinion into discussions and force "false PR friends" to be less so. This timely, challenging, and fascinating book will be of interest to all students, researchers, and practitioners in Public Relations, Media, and Communication Studies. Winner of the 2016 NCA PRIDE Award for best book

This book examines the relationship between police, media and the public and analyses the shifting techniques and technologies through which they communicate. In a critical discussion of contemporary and emerging modes of mediatized police work, Lee and McGovern demonstrate how the police engage with the public through a fluid and quickly expanding assemblage of communications and information technologies. *Policing and Media* explores the rationalities that are driving police/media relations and asks; how these relationships differ (or not) from the ways they have operated historically; what new technologies are influencing and being deployed by policing organizations and police public relations professionals and why; how operational policing is shaping and being shaped by new technologies of communication; and what forms of resistance are evident to the manufacture of preferred images of police. The authors suggest that new forms of simulated and hyper real policing using platforms such as social media and reality television are increasingly positioning police organisations as media organisations, and in some cases enabling police to bypass the traditional media altogether. The book is informed by empirical research spanning ten years in this field and includes chapters on journalism and police, policing and social media, policing and reality television, and policing resistances. It will be of interest to those researching and teaching in the fields of Criminology, *Policing and Media*, as well as police and media professionals.

Winner of the 2019 Textbook & Academic Authors Association's The Most Promising New Textbook Award How can public relations play a more active role in the betterment of society? Introduction to Strategic Public Relations: Digital, Global, and Socially Responsible Communication prepares you for success in today's fast-changing PR environment. Recognizing that developments in technology, business, and culture require a fresh approach, Janis T. Page and Lawrence Parnell have written a practical introductory text that aligns these shifts with the body of knowledge from which the discipline of public relations was built. Because the practice of public relations is rooted in credibility, the authors believe that you must become ethical and socially responsible communicators more concerned with building trust and respect with diverse communities than with creating throwaway content. The authors balance this approach with a focus on communication theory, history, process, and practice and on understanding how these apply to strategic public relations planning, as well as on learning how to create a believable and persuasive message. Key Features Chapter-opening Scenarios capture your attention by discussing current PR challenges—such as the Wells Fargo cross-selling, VW emissions cover-up, and P&G's "Like a Girl" campaign—and thus frame the chapter content and encourage active reading. At the end of the chapter, you explore various aspects of socially responsible communication to "solve" the PR challenge. Socially Responsible Case Studies in each chapter illustrate the key responsibilities of a modern public relations professional such as media relations, crisis communications, employee communications, applied communications research, and corporate and government-specific communications. Each case features problem-solving questions to encourage critical thinking. Social Responsibility in Action boxes feature short, specific social responsibility cases—such as Universals' #NoFoodWasted, Nespresso in South Sudan, and Merck's collaboration with AIDS activists—to highlight best practices and effective tactics, showing the link between sound public relations strategy and meaningful social responsibility programs. Insight boxes spark classroom discussion on particularly important or unique topics in each chapter. Personality Profile boxes will inspire you with stories from PR veterans and rising stars such as the U.S. CEO of Burson-Marsteller, the Chief Communication Officer of the United Nations Foundation, and the Executive VP at HavasPR.

Recognizing the role of problem solving in media and the primacy of critical thinking at all stages of the writing process -- from preparatory measures to final writing -- the author challenges the assumption that discipline and creativity are incompatible partners. That partnership is described in detail, then dramatized with absorbing examples and illustrations drawn from interviews with experienced practitioners in print and broadcast journalism, public relations and advertising. Each chapter is a discovery of how this reliable partnership for solving writing problems in media applies to both anticipated and unexpected communication situations. Making known what media professionals have learned through trial and error on the job, here is a thinking and writing dynamic that students, new hires, and aspiring free-lancers can now acquire before entering the world of print or broadcast journalism, public relations or advertising.

International Public Relations: Perspectives from deeply divided societies is positioned at the intersection of public relations (PR) practice with socio-political environments in divided, conflict and post-conflict societies. While most studies of PR focus on the activity as it is practiced within stable democratic societies, this book explores perspectives from contexts that have tended to be marginalized or uncharted. Presenting research from a diverse range of societies still deeply divided along racial, ethnic, religious or linguistic lines, this collection engages with a variety of questions including how PR practice in these societies may contribute to our understanding of PR theory building. Importantly, it highlights the role of communication strategies for actors that still deploy political violence to achieve their goals, as well as those that use it in building peace, resolving conflict, and assisting in the development of civil society. Featuring a uniquely wide range of original empirical research, including studies from Israel/Palestine,

Mozambique, Northern Ireland, former Yugoslavia, former Czechoslovakia, Spain, Malaysia and Turkey, this groundbreaking book will be of interest not only to scholars of public relations, but also political communication, international relations, and peace and conflict studies. Authors Scott A. Kuehn and Andrew Lingwall have created two comprehensive writing models to help students overcome their problems in finding and developing story topics by giving them “starting points” to begin writing. The Professional Strategy Triangle model shows students how to think critically about the audience, the situation, and the message before starting a news story or persuasive piece and the FAJA four-point model asks students a series of questions about their story type (Fact, Analysis, Judgment, or Action) to guide them to the right angle or organizational structure for their message. Rooted in classical rhetorical methods, this step-by-step technique enables readers to strategically approach each writing task, no matter the format.

This volume aims to explore and understand highly engaged publics in a variety of social media contexts and across networks. The hope is the expansion and extension of public relations theories and models in this book helps move the discipline forward to keep up with the practice and the media environment.
