Noted Canadian retirement expert Barry LaValley examines the non-financial aspects of your transition into retirement. This retirement book focuses on preparing your mind for retirement and helps you understand the retirement psychology, retirement health, retirement relationships and the role that money plays in retirement planning. The goal of the book is to give readers a retirement planning tool that can be updated on an ongoing basis by both pre-retirement planners and retirees. Special information is provided for both Canadian pre-retiree planners and Canadian retirees who seek to understand what successful retirees do. The author looks at the best retirement research available in Canada and throughout the world and uses that Third Age research to help readers devise an effective Third Age Retirement plan. Note, this retirement planning book contains many retirement planning exercises for readers as part of the book along with many "Did you know's?" and "Have you thought about's?" relating to your retirement.

"Dychtwald and Morison offer a brilliant and convincing perspective: an essential re-think of what 'aging' and 'retirement' mean today and an invitation to help mobilize the best in the tidal wave of Boomer Third Agers." —Daniel Goleman, PhD, Author, Emotional Intelligence: Why It Can Matter More Than IQ Throughout 99 percent of human history, life expectancy at birth was less than 18 years. Few people had a chance to age. Today, thanks to extraordinary medical, demographic, and economic shifts, most of us expect to live long lives. Consequently, the world is witnessing a powerful new version of retirement, driven by the power and needs of the Baby Boomer generation. Consumers over age 50 account for more than half of all spending and control more than 70% of our total net worth – yet are largely ignored by youth-focused marketers. How will work, family, and retirement be transformed to accommodate two billion people over the age of 60 worldwide? In the coming years, we'll see explosive business growth fueled by this unprecedented longevity revolution. What Retirees Want presents the culmination of 30 years of research by world-famous "Age Wave" expert Ken Dychtwald, Ph.D., and author and consultant Robert Morison. It explains how the aging of the Baby Boomers will forever change our lives, businesses, government programs, and the consumer marketplace. This exciting new stage of life, the "Third Age," poses daunting questions: What will "old" look like in the years ahead? With continued advances in longevity, all of the traditional life-stage markers and boundaries will need to be adjusted. What new products and services will boom as a result of this coming longevity revolution? What unconscious ageist marketing practices are hurting people – and business growth? Will the majority of elder boomers outlive their pensions and retirement savings and how can this financial disaster be prevented? What incredible new technologies of medicine, life extension, and human enhancement await us in the near future? What purposeful new roles can we create for elder boomers so that the aging nations of the Americas, Europe, and Asia capitalize on the upsides of aging? Which pioneering organizations and companies worldwide have created marketing strategies and programs that resonate with the quirky and demanding Boomer generation? In this entertaining, thought-provoking, and wide-ranging book, Dychtwald and Morison explain how individuals, businesses, non-profits, and governments can best prepare for a new era – where the needs and demands of the "Third Age" will set the lifestyle, health, social, marketplace, and political priorities of generations to come.

Retirement has changed, and America's most trusted career counselor is here to guide you through your own Retirement Reinvention "Robin Ryan is the most knowledgeable career expert in the nation today." —PBS For twenty years, Robin Ryan has been helping clients get the most out of their careers and their lives. Now, in Retirement Reinvention, she shatters the myths of retirement. The old model of retirement is changing. The majority of retirees today are seeking fun and meaningful ways to spend their time. Full of practical advice, this thought-provoking guide offers readers a path for reinventing their own retirements, including step-by-step instructions for: • Leaving an old career behind • Pinpointing interests and skills • Exploring different places to live • Defining new, satisfying opportunities • Finding meaningful ways to give back to your community • Striking the right balance between work and leisure From starting a dream business to shifting to the nonprofit sector to volunteering, Robin Ryan will help you create a plan and pivot toward a future as vital as it is truly rewarding. How do we rate work? It's good, it's bad or it's brilliant. What response does your work usually get? Be honest. This book will help you make your work brilliant. You don't have to be brilliant to produce brilliant work. Many of the characters you will meet in this book failed at school, lacked natural talent, were not especially gifted or were repeatedly sacked. But their methods produced brilliant work – and they will work for you, too. Make Brilliant Work is the essential book from Rod Judkins, author of the international bestseller The Art of Creative Thinking. Whether you are a business or an individual, you might find it hard to produce something significant and important. The real-life heroes in this book will show you how to make the transformation from ordinary to extraordinary. From Roald Dahl to Steven Spielberg, and star architect Zaha Hadid: the figures in Make Brilliant Work will show you how to think for yourself, take risks and persevere to create brilliant work.

Change Your Beliefs, Change Your Life We all have times in our lives when the results of our behavior don't seem to be meeting our needs. In this new book, Hyrum Smith does two things that are invaluable to people who wish to make their lives less painful. First, he reveals, through a clear and simple model, how we get to the point where our behaviors cause these kinds of problems. Then, with a simplicity that is

impressive in itself, he describes the steps we must take to identify and rectify the beliefs leading to our painful behavior. The result is a powerful process for transforming your habits and relationships and achieving lasting personal and career success.

Grow old on purpose. This book invites readers to navigate a purposeful path from adulthood to elderhood with choice, curiosity, and courage. Everyone is getting old; not everyone is growing old. But the path of purposeful aging is accessible to all—and it's fundamental to health, happiness, and longevity. With a focus on growing whole through developing a sense of purpose in later life, *Who Do You Want to Be When You Grow Old?* celebrates the experience of aging with inspiring stories, real-world practices, and provocative questions. Framed by a long conversation between two old friends, the book reconceives aging as a liberating experience that enables us to become more authentically the person we always meant to be with each passing year. In their bestseller *Repacking Your Bags*, Richard J. Leider and David A. Shapiro defined the good life as “living in the place you belong, with people you love, doing the right work, on purpose.” This book builds on that definition to offer a purposeful path for living well while aging well.

Retirement is a comma in our lives, not a full stop. *Life After Work* looks at the psychological, emotional and wellbeing issues that surround this complex and important transition in life. This book suggests that retirement is a life stage over which we may have greater control than previously thought; it no longer has to be the case that retirement is a terminal point, a time where you became sedentary and inactive. Retirement is on one level a private, individual matter that affects one's sense of self and purpose, physical and mental processes, as well as financial security or provision. On another level, retirement has an impact on relationships with loved ones, family and friends, as well as colleagues. It can strengthen or disrupt bonds, leading to new bonds being formed or to withdrawal. This book is written by successful authors and psychologists Robert Bor, Carina Eriksen and Lizzie Quarterman, each with many years' experience of helping people cope with life stage changes and prepare for retirement. It contains illustrative case studies throughout, from which valuable lessons can be learned, and draws on the very latest psychological research and techniques to provide a blueprint for planning and living a wonderful retirement or life post-work. Planning for your future is crucial in enabling you to maximise the opportunities available. Following the book's blueprint will help you prepare for this phase in your life, and the sooner you start the better. *Life After Work* will be of great interest to readers of all ages seeking guidance on retirement and will also appeal to psychologists of life stage changes.

Common misconceptions, assumptions, and behavioral biases often prevent people from building robust and flexible retirement plans-and this is an enormous problem. If you don't know your decisions are based on false assumptions, how can you avoid making serious mistakes? *Rewirement: Rewiring the Way You Think about Retirement!* offers a solution. Under the expert guidance of Jamie P. Hopkins, Esq., CFP(R), RICP(R), you'll learn to identify problems that might sabotage your savings while learning how to build and implement the retirement plan you need. The 2nd Edition of *Rewirement* goes even further in the behavioral traps that might set you on the wrong path for retirement.

Additionally, the book has been updated to address changes in tax laws, retirement planning, and public policy that have taken place over the last few years. Considered one of the top forty financial services professionals under the age of forty by *InvestmentNews*, and as a top young attorney by the American Bar Association, Hopkins provides an accessible and actionable ten-step process for building your retirement income plan. You'll discover the basics of retirement planning, details on Social Security, tax diversification strategies, how to tap into home equity, and how best to use employer-sponsored plans. At the same time, you'll learn how to prepare for long-term care while protecting yourself against market risks. Essential reading for anyone who needs to make quality financial decisions, *Rewirement* lays out the process needed to develop a retirement income plan in easily understood steps. Do you need to rewire your retirement thinking? Would you know if

Each of the seven chapters contains dozens of examples of situations experienced by actual retirees and includes short self-assessment quizzes. Topics covered include doing a personal inventory, shoring up one's relationships, investigating new roles and activities, and taking charge of one's future. This thought-provoking book is a must-read for recent retirees and those about to retire.

A career guide that rethinks the golden years, this handbook offers 50+ income models for creating flexible, fulfilling, and profitable work during the encore stage of one's career. **RETHINK YOUR RETIREMENT** For many people, retirement is no longer a trifecta of golf, grandkids, and gardening—it's an opportunity for new pursuits that involve both earning income and exploring personal passions. If you're planning for retirement or already at "retirement age" but want to continue working—whether to supplement your income or to stay mentally and physically active—veteran career coach Nancy Collamer shows how to identify your favorite interests and expertise and repackage them into more than fifty ways to earn income. These second acts range from the traditional (part-time employment, consulting) to newer Internet-based options (teaching online, writing a blog). With a prescriptive approach to securing second-act careers that are flexible, fulfilling, and fun, this book offers a wide variety of income-generating examples as well as exercises to clarify your lifestyle goals and help you plan for your next move. **Second-Act Careers** shows how to create a profitable and meaningful semi-retirement on your own terms and in your own way.

Refire! Don't Retire asks readers the all-important question: as you look at the years ahead, what can you do to make them satisfying and meaningful? Ken Blanchard and Morton Shaevitz point out that some people see their later years as a time to endure rather than as an exciting opportunity. Both research and common sense confirm that people who embrace these years with energy and gusto—rather than withdrawing and waiting for things to happen—consistently make the rest of their lives the best of their lives. In the trademark Ken Blanchard style, the authors tell the compelling story of Larry and Janice Sparks, who discover how to see each day as an opportunity to enhance their relationships, stimulate their minds, revitalize their bodies, and grow spiritually. As they learn to be open to new experiences, Larry and Janice rekindle passion in every area of their lives. Readers will find humor, practical information, and profound wisdom in **Refire! Don't Retire**. Best of all, they will be inspired to make all the years ahead truly worth living.

Find out how harnessing the powerful business principles of design thinking can make retirement your best chapter in life. There is no one right time or way to retire. Retirement is a major life transition; but if you spend the time designing a future filled with promise and possibilities, the prospect can be utterly exciting and revitalizing. In *Retirement by Design*, professional mentor and coach Ida Abbott shows you how the innovative business principles behind design thinking can be applied to plan a rich, fulfilling, and more meaningful retirement. Her guided workbook uses a business-like approach to leaving business, making your switch much smoother and less jolting. Whether you're considering a new place to settle down, working through financial planning, strategizing how to unwind a business, or deciding on which organizations you want to stay engaged with, making critical decisions takes a lot of organization, thought, and planning. Abbott shows how the five principles of design thinking will revolutionize your retirement-planning process: Empathy: Get inside the shoes of your future self. What will be important to that version of you? Define: Hone in on what is and will be most critical for you to focus on (whether it's volunteering, family, activities, or skills). Ideate: Draw, scribble, brainstorm, and throw around as many different retirement scenarios as you can come up with. Prototype: If retiring across the country in Arizona sounds perfect—try it out first. Come up with opportunities to test out your scenarios with short trips and trial time off. Test: This is the fun part—get back to the drawing board and try more retirement scenarios (and future versions of yourself) before sitting down to make those life-changing decisions.
