La guerra de las palabras es un cuento para niños grandes y pequeños. Con un lenguaje cercano y culto a la vez, con referencias a libros, obras de arte y personajes históricos. El hilo conductor es un supuesto curso de Lengua en que las palabras luchan entre sí por la primacía y descubren que unidas dicen más y mejor...mismamente los seres humanos. El lenguaje es como la metáfora humana por excelencia. Tanto las vivencias en clase como las historietas biográficas que se cuentan, ponen un gracejo escolar, no exento de ternura. Es un libro encantador. El lector, poco a poco, se irá identificando con situaciones iguales o semejantes a las vividas en propia carne y tarde o temprano, la imaginación lo sentará en un pupitre de la clase de don Antonino.

. . . I probably would have written ages ago, only I was not aware that you were still alive. . . . -TyfannyThank you for your letter of July 10th. I have to apologize to you that I am still among the living. There will be a remedy for this, however. . . .-Albert Einstein.

. . I'm a little below average in mathematics. . . . I worry (perhaps too much), although in the end I imagine it will all work out for the best. . . .-Barbara. . . Do not worry about your difficulties in mathematics; I can assure you that mine are still greater. -Albert Einstein

This enchanting book displays a small sampling of the amusing, touching, and sometimes precocious letters sent to Albert Einstein by children from around the world, and his often witty and very considerate responses. Alice Calaprice has compiled a delightful and charming collection of more than 70 letters, most never published before, from children to perhaps the greatest scientist of all time. Enhancing this correspondence are numerous photographs showing Einstein amid children, wearing an Indian headdress, carrying a puppet of himself, donning furry slippers, among many

other wonderful pictures. They reveal the intimate human side of the great public persona, a man who, though he spent his days contemplating the impersonal abstractions of mathematics and physics, was very fond of children and enjoyed being in their company. Obviously, Einstein led a busy life, and so he could not answer every letter sent to him. Nonetheless, he made time to respond to those that touched him in some way. To Monique from New York, who asked about the age of the Earth and when it will come to an end, he patiently responded that it is a little more than a billion years old, and, As for the question of the end of it I advise: Wait and see! To six little scientists from Morgan City, Louisiana, who despite the skepticism of their classmates maintained that life would survive even if the sun burned out, he wrote, The minority is sometimes right-but not in your case. Complete with a foreword by Einstein's granddaughter Evelyn, a biography and chronology of Einstein's life, and an introduction by Einstein scholar Robert Schulmann on the great scientist's educational philosophy, this wonderful compilation will be welcomed by teachers, parents, and all the young, budding scientists in their lives. A portion of the author's royalties will be donated to UNICEF. Alice Calaprice (Princeton, NJ) is the editor of *The Quotable Einstein* and *The Expanded Quotable Einstein*, and the author of *An Owl in the House*, a science book for young audiences. She is the in-house editor for *The Collected Papers of Albert Einstein* and the former Senior Editor at Princeton University Press. For use in schools and libraries only. Profiles ten bold women of color including Rosa Parks, Harriet Tubman, and Shirley Chisholm, whose courageous acts against oppression made them leaders in the battle for civil rights.

"This is a beautiful farewell to two extraordinary people. It enthralled and moved me, and it will move and enthrall anyone who has ever entered the glorious literary world of Gabriel García Márquez."—Salman Rushdie "In *A Farewell to Gabo and Mercedes* Rodrigo Garcia finds the words that cannot be said, the moments that signal all that is possible to know about the passage from life to death, from what love brings and the loss it leaves. With details as rich as any giant biography, you will find yourself grieving as you read, grateful for the profound art that remains a part of our cultural heritage."—Walter Mosley, *New York Times* bestselling author of *Down the River Unto the Sea* "An intensely personal reflection on [Garcia's] father's legacy and his family bonds, tender in its treatment and stirring in its brevity."—Booklist (starred review) The son of one of the greatest writers of our time—Nobel Prize winner and internationally bestselling icon Gabriel García Márquez—remembers his beloved father and mother in this tender memoir about love and loss. In March 2014, Gabriel García Márquez, one of the most acclaimed writers of the twentieth century, came down with a cold. The woman who had been beside him for more than fifty years, his wife Mercedes Barcha, was not hopeful; her husband, affectionately known as "Gabo," was then nearly 87 and battling dementia. I don't think we'll get out of this one, she told their son Rodrigo. Hearing his mother's words, Rodrigo wondered, "Is this how the end begins?" To make sense of events as they unfolded, he began to write the story of García Márquez's final days. The result is this intimate and honest account that not only contemplates his father's mortality but reveals his remarkable humanity. Both an illuminating memoir and a heartbreaking work of reportage, *A Farewell to Gabo and Mercedes* transforms this towering genius from literary creator to protagonist, and paints a rich and revelatory portrait of a family coping with loss. At its center is a man at his most vulnerable, whose wry humor shines even as his lucidity wanes. Gabo savors affection and attention from those in his orbit, but wrestles with what he will lose—and what is already lost. Throughout his final journey is the charismatic Mercedes, his constant companion and the creative muse who was one of the foremost influences on Gabo's life and his art. Bittersweet

and insightful, surprising and powerful, *A Farewell to Gabo and Mercedes* celebrates the formidable legacy of Rodrigo's parents, offering an unprecedented look at the private family life of a literary giant. It is at once a gift to Gabriel García Márquez's readers worldwide, and a grand tribute from a writer who knew him well. "You read this short memoir with a feeling of deep gratitude. Yes, it is a moving homage by a son to his extraordinary parents, but also much more: it is a revelation of the hidden corners of a fascinating life. *A Farewell to Gabo and Mercedes* is generous, unsentimental and wise." —Juan Gabriel Vásquez, author of *The Sound of Things Falling* "A warm homage filled with both fond and painful memories." —Kirkus "Garcia's limpid prose gazes calmly at death, registering pain but not being overcome by it . . . the result is a moving eulogy that will captivate fans of the literary lion." — Publishers Weekly Visiting a young boy on earth, an extraterrestrial delivers an environmental message of hope from the stars.

"Miguel is a careless boy who leaves everything out of place, breaks whatever is in his path, and doesn't obey his parents. Tired, they decide to give him a month to look for a place to live: they have fired him. Time passes, Miguel doesn't listen, and he suddenly finds himself in the street with nowhere to go. A tale that offers a critical yet funny look at the relationship between parents and lazy, irresponsible children who wear them out. "

On a fateful day in February 2002, campaign manager Clara Rojas accompanied longtime friend and presidential hopeful Ingrid Betancourt into an area controlled by the powerful leftist guerrilla group, the Revolutionary Armed Forces of Colombia (FARC). Armed with machine guns and grenades, the FARC took them hostage and kept them in the jungle for the next six years. After more than two years of captivity deep in the Colombian jungle, surrounded by jaguars, snakes, and tarantulas, miles from any town or hospital, Clara Rojas prepared to give birth in a muddy tent surrounded by heavily armed guerrillas. Her captors promised that a doctor would be brought to the camp to help her. But when Rojas went into labor and began to suffer complications, the only person on hand was a guerrilla wielding a kitchen knife. The guerrillas drugged Rojas with anesthetic while one of them slit open her abdomen. Her son, Emmanuel, was born by amateur cesarean section in April 2004. His survival was miraculous, but her joy was soon cut short when the FARC took him from her when he was only eight months old. For the next three years, Clara was given no information about him, but her desire to one day see him again kept her alive. In early 2008, Clara was finally liberated and reunited with her son—to whom this book is dedicated.

Based in case studies conducted in the US, Europe, and Latin America, this book explores the feasibility and benefits of trilingual/ multilingual education in the United States. Currently, there are few programs in the country of this nature, as educators tend to conclude that English-language learners would be overwhelmed by study in additional languages. Henn-Reinke

builds an argument supporting trilingual education in the US, discussing issues of identity, curriculum, pedagogy, and the impact of other psycho-socio-linguistic factors.

Si bajan las cifras de ventas de libros y periódicos, ¿significa que se lee menos? A diferencia de la mayoría de encuestas que indagan sólo la lectura en papel, se estudian aquí también los nuevos modos de leer —en computadoras, tabletas y teléfonos móviles— junto a los cambios de las bibliotecas, la expansión de salas de lectura, libroclubes y ferias de libros. Esta investigación cualitativa, editada por Fundación Telefónica, sobre cómo leen jóvenes y adultos de distintas generaciones y niveles educativos, en las escuelas, en casa o en el transporte, individualmente o en grupos, muestra los muchos propósitos por los cuales se llega a la lectura; al explorar no cuánto se lee sino cuándo y cómo se lee, se vuelven visibles las transformaciones de esta práctica.
