Although the arts of incense and perfume making are among the oldest of human cultural practices, it is only in the last two decades that the use of odors in the creation of art has begun to attract attention under the rubrics of 'olfactory art' or 'scent art.' Contemporary olfactory art ranges from gallery and museum installations and the use of scents in music, film, and drama, to the ambient scenting of stores and the use of scents in cuisine. All these practices raise aesthetic and ethical issues, but there is a long-standing philosophical tradition, most notably articulated in the work of Kant and Hegel, which argues that the sense of smell lacks the cognitive capacity to be a vehicle for either serious art or reflective aesthetic experience. This neglect and denigration of the aesthetic potential of smell was further reinforced by Darwin's and Freud's views of the human sense of smell as a near useless evolutionary vestige. Smell has thus been widely neglected within the philosophy of art. Larry Shiner's wide-ranging book counters this tendency, aiming to reinvigorate an interest in smell as an aesthetic experience. He begins by countering the classic arguments against the aesthetic potential of smell with both philosophical arguments and evidence from neuroscience, psychology, anthropology, history, linguistics, and literature. He then draws on this empirical evidence to explore the range of aesthetic issues that arise in each of the major areas of the olfactory arts, whether those issues arise from the use of scents with

theater and music, sculpture and installation, architecture and urban design, or avant-garde cuisine. Shiner gives special attention to the art status of perfumes and to the ethical issues that arise from scenting the body, the ambient scenting of buildings, and the use of scents in fast food. Shiner's book provides both philosophers and other academic readers with not only a comprehensive overview of the aesthetic issues raised by the emergence of the olfactory arts, but also shows the way forward for further studies of the aesthetics of smell.

bestowed institutional recognition of the artistry inherent in these humble textiles. In subsequent decades, quilting's popularity exploded. Some who took up quilting created pieced quilts that honored traditional patterns, symmetry, and repetition. But others saw the potential for pushing beyond patchwork, giving birth to the art quilt. Today, adherents from both art and quilting backgrounds incorporate storytelling, digital images, nonfabric materials, asymmetry, and three dimensions—in short, anything goes in the world of art quilting, as long as the result is stitched, layered, and not primarily functional. As a writer covering textiles, art, and craft, Linzee Kull McCray wondered just how deeply fiber artists were influenced by their surroundings. Focusing on midwestern art quilters in particular, she put out a call for entries and nearly 100 artists responded; they were free to define those aspects of midwesternness that most affected their work. The artists selected for inclusion in this book embrace the Midwest's climate, land, people, and culture, and if they don't always embrace it wholeheartedly, then they use their art to react to it. The proof can be seen in the varied, powerful quilts in this energizing book. Enlivened by the Midwest's landscapes and seasons, Sally Bowker paints her fabrics with acrylics, creating marks and meaning with layers of hand stitching and appliqued bits of fabric. Shin-hee Chin uses sketchlike stitching for its ability to penetrate fabric and create depth; living in the Midwest helps her stay balanced between eastern philosophy and western culture. jeweler as well as to the topography of her home state of Michigan. Pat Owoc prepares papers with disperse dyes, then selects from as many as 150 to create her fabrics; her art-quilt series honors midwestern pioneers. Martha Warshaw photographs old fabrics, tweaks the images in Photoshop, and prints the results for her pieces, which connect her to the legacy of quilting in past generations. The Midwest has always had strong textile communities. Now the twenty artists featured in this beautifully illustrated book have created a new community of original art forms that bring new life to an old tradition. work, how they learned to do it, why they do it. This book will give you glimpses of the memories, and perhaps the scars, of the artists. Be honored. The artists in this book know that it is good to make art and they make good art. Through their work they demonstrate their faith in the product and the process. For some of them, art making is their anchor, in the turbulent world of helping professions. For some, images come in response to their clients. For all of them, making art deepens and enriches their lives. *Working With Images: The Art of Art Therapists* is a presentation of artworks and contextual essays by professional art therapists. This book is foreworded by Don Siedien and includes an introduction that addresses the structure, rationale and intent of this book. The introduction is followed by the artist-therapists' contributions. Each art therapist's selected artworks are presented on one full page in the text. Immediately following the art piece(s) is a brief biographical sketch, a photo of the art therapist and his or her artist's statement. From the very beginning of the art therapist profession in the United States there has been steady discussion of the relative importance of the 'artist' aspect of art therapists' professional identity. In the thirty years that the American Art Therapy Association has been in existence there have been few other topics that have generated as much interest and debate at the annual national conference. Over the past several

years there has been growing interest in re-igniting our artistic passions and welcoming them back into our professional identity. This movement has been evidenced by a number of conference papers and workshops and professional journal articles focused on examining the integration of the artist and the therapist aspects of our work. *Working With Images: The Art of Art Therapists* presents art therapists as committed and serious, fine artists. This book will be a significant contribution to the literature, and identity, of the art therapy profession.

Quilts and Color presents more than sixty graphically bold American quilts from the Pilgrim/Roy Collection, one of the finest and largest collections of quilts in the world. These collectors recognized that quilt makers often grappled with the same concerns as many modern artists. Influenced by twentieth-century art developments such as Abstraction, Op Art and the Colour Field movement, Paul Pilgrim and Gerald Roy were among the first to appreciate quilts as more than simply decorative bedcovers, womens fancy work, or symbols of a rustic past. Reproduced brilliantly and arranged by ideas based in colour theory Vibrations, Mixtures, Gradation Harmonies, Contrasts, Variations, Optical Illusions and Singular Visions each quilt in this book is celebrated as a unique work of art. The accompanying text also sheds light on the social and cultural history of the quilts as well as the practices and aspirations of their mostly anonymous makers, who created such works of enduring beauty and arresting visual impact.

Highlighted by two hundred full-color photographs, a celebration of American crafts and decorative arts and the artists who create them showcases masterpieces of furniture, wood, ceramics, glass, fiber, jewelry, metal, and basketry from the past two centuries, along with a look at how craft has shaped American history, arts, vitality, and identity. 25,000 first printing.

**QUILTS, LIVES AND LEGACIES** The oldest of eleven children raised on a former plantation in Florida, Eluster Richardson was expected to become a farmer like his father. However, Richardson realized early in life that he had a gift and passion for painting. Richardson persevered and now reflects on a career of 40 years of successful artistic expression in oil and watercolor. In *Quilts, Lives and Legacies*, Richardson focuses his talent on oil paintings of quilts that were hand stitched by his late mother, Mrs. Amanda Richardson. Says the artist, "I wanted my mom's quilts to live past me in my paintings. Her passion was her quilts, so I thought, well, if I can use my mom's quilts in my paintings to have her life, her

A timely and expansive survey of a groundbreaking American art movement that overturned aesthetic hierarchies in a riot of color and ornamentation The Pattern and Decoration movement emerged in the 1970s as an embrace of long-dismissed art forms associated with the decorative. Pioneering artists such as Miriam Schapiro (1923-2015), Joyce Kozloff (b. 1942), Robert Kushner (b. 1949), and others appropriated patterns, frequently from non-Western decorative arts, to produce intricate, often dizzying or gaudy designs in media ranging from painting, sculpture, and collage to ceramics, installation art, and performance. This dazzling book showcases an astonishing array of works by more than 40 artists from across the United States, examining the movement's defiant adoption of art forms traditionally viewed as feminine, craft-based, or otherwise inferior to fine art. In addition to offering an overview of the Pattern and Decoration movement as it is commonly recognized, this volume considers artists of the period who are not typically associated with the movement. Rethinking the significance of patterns and the decorative in postwar American art, this panoramic view provides new insights into

abstraction, feminism, and installation art. Artist biographies, an exhibition history, and reprints of historically significant writings further establish *With Pleasure* as the most expansive publication on the subject.

"As a blanket, a commemorative covering, and a work of art, the quilt is a nearly universal cultural artifact. In recent years it has been recognized as one of our most compelling symbols of cultural diversity and the power of women. In this collection, Cheryl B. This interdisciplinary approach makes Quilt Culture an extraordinarily rich exploration of a cultural artifact whose meaning is far more complex than that of a simple bed covering."--Publishers website.
