*The Decline of Marriage in Namibia* Julia Pauli,2019-02-28 In Southern Africa, marriage used to be widespread and common. However, over the past decades marriage rates have declined significantly. Julia Pauli explores the meaning of marriage when only few marry. Although marriage rates have dropped sharply, the value of weddings and marriages has not. To marry has become an indicator of upper-class status that less affluent people aspire to. Using the appropriation of marriage by a rural Namibian elite as a case study, the book tells the entwined stories of class formation and marriage decline in post-apartheid Namibia.

Mercedes SL Series Andrew Noakes,2004-10-30 Mercedes Benz has now been manufacturing SL sports cars for fifty years, and for all that time the cars adorned with those two special letters have been admired and coveted by car lovers the world over. It all started in 1954, with the fabulous and iconic 300SL Gullwing, a road car developed directly from the stunning 300SLR racing car. Other models followed, including the more affordable 190SL, the 'Pagoda' car of the sixties and the stylish ranges of the seventies and eighties. Mercedes now use the SL tag before rather than after the numbers in the cars' designations, but the line is as strong as ever, with a magnificent new range and an SLR supercar developed with McLaren that takes the family right back to its roots.

*Shadow Libraries* Joe Karaganis,2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks. From the top down, *Shadow Libraries* explores the institutions that shape the provision of educational materials, from the formal sector of universities and publishers to the broadly informal ones organized by faculty, copy shops, student unions, and students themselves. It looks at the history of policy battles over access to education in the post-World War II era and at the narrower versions that have played out in relation to research and textbooks, from library policies to book subsidies to, more recently, the several "open" publication models that have emerged in the higher education sector. From the bottom up, *Shadow Libraries* explores how, simply, students get the materials they need. It maps the ubiquitous practice of photocopying and what are—in many cases—the more marginal ones of buying books, visiting libraries, and downloading from unauthorized sources. It looks at the informal networks that emerge in many contexts to share materials, from face-to-face student networks to Facebook groups, and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online—the shadow libraries of the title. If Alexandra Elbakyan's Sci-Hub is the largest of these efforts to date, the more characteristic part of her story is the prologue: the personal struggle to participate in global scientific and educational communities, and the recourse to a wide array of ad hoc strategies and networks when formal, authorized means are lacking. If Elbakyan's story has struck a chord, it is in part because it brings this contradiction in the academic project into sharp relief—universalist in principle and unequal in practice. *Shadow Libraries* is a study of that tension in the digital era. **Marine Flora and Fauna of the Eastern United States** Michael Vecchione,1989 The cephalopods found in neritic waters of the northeastern United States include myopsid and oegopsid squids, sepiolid squids, and octopods. A key with diagnostic illustrations is provided to aid in identification of the eleven species common in the neritic waters between Cape Hatteras and Nova Scotia; included also is information on two oceanic species that occur over the continental shelf in this area and that can be confused with similar-looking neritic species. Other sections comprise a glossary of taxonomic

characters used for identification of these species, an annotated systematic checklist, and checklists of the 89 other oceanic species and 18 Carolinian and subtropical neritic species that might occur occasionally off the northeastern United States.

**BMW 5 & 6 Series E12 - E24 - E28 -E34 Restoration Tips and Techniques** Andrew Everett,2012-10-14 A wealth of restoration tips and techniques covering E12, E24, E28, E34, 5 and 6 Series BMWs built between 1972 and 1995. Covers all models from 518 to M6. Advice is given on acquiring a good BMW 5 & 6 Series model, plus tips on restoring, engines, bodywork, trim, electrics, suspension & much more. If you have a car like this then you can save thousands as you bring it back up to specification - for your safety or as a restoration project this is the book you need. It is now 40 years since the first BMW 5 Series went down the production lines at Dingolfing. Back in 1972, only the BMW executives with the greatest of foresight could have predicted that in 2012, the 5 Series would still be in production and still be the class leader - and it's amusing to note that the latest model - the F10 520i - is also a two litre four cylinder just as those first Fives were. BMW occupies a unique position in the hearts of car buyers and enthusiasts for no other marque of car has such a wide fan base. From what are probably the finest range of cars in the world to an enjoyable secondhand car, through to concours events, track days to drifting championships plus huge clubs and countless forums, no other manufacturer has such a huge and diverse following as BMW. The large numbers of the first three generations of the 5 Series that still survive attest to that, and this book is aimed at owners wanting to know more and pick up some useful maintenance, repair and restoration tips.

**491 Days** Winnie Madikizela-Mandela,2014-03-10 On a freezing winter's night, a few hours before dawn on May 12, 1969, South African security police stormed the Soweto home of Winnie Madikizela-Mandela, activist and wife of the imprisoned Nelson Mandela, and arrested her in the presence of her two young daughters, then aged nine and ten. Rounded up in a group of other antiapartheid activists under Section 6 of the Terrorism Act, designed for the security police to hold and interrogate people for as long as they wanted, she was taken away. She had no idea where they were taking her or what would happen to her children. For Winnie Mandela, this was the start of 491 days of detention and two trials. Forty-one years after Winnie Mandela's release on September 14, 1970, Greta Soggot, the widow of one of the defense attorneys from the 1969?-70 trials, handed her a stack of papers that included a journal and notes she had written while in detention, most of the time in solitary confinement. Their reappearance brought back to Winnie vivid and horrifying memories and uncovered for the rest of us a unique and personal slice of South Africa's history. 491 Days: Prisoner number 1323/69 shares with the world Winnie Mandela's moving and compelling journal along with some of the letters written between several affected parties at the time, including Winnie and Nelson Mandela, himself then a prisoner on Robben Island for nearly seven years. Readers will gain insight into the brutality she experienced and her depths of despair, as well as her resilience and defiance under extreme pressure. This young wife and mother emerged after 491 days in detention unbowed and determined to continue the struggle for freedom.

These celebrated carburetors have been fitted to some of the most exciting and memorable cars and have been more widely used by tuners and modifiers, both for road and competition machinery, than any alternative. The mysteries of why and how they work so well and the practicalities of getting the best from them in any application are explained at length. Setting the carburetor to suit a particular engine, fault-finding on an existing installation, and the maintenance and repair of older carburetors are all topics which receive detailed attention. Anyone maintaining or restoring a classic Weber-equipped car, or contemplating a Weber-based conversion, or simply interested in the science of engine performance and tuning, will learn something from these pages.
