

Radical Reform Islamic Ethics And Liberation Tariq Ramadan

Tariq Ramadan

Radical Reform Tariq Ramadan, 2009-02-05 In this new book, Tariq Ramadan argues that it is crucial to find theoretical and practical solutions that will enable Western Muslims to remain faithful to Islamic ethics while fully living within their societies and their time. He notes that Muslim scholars often refer to the notion of *ijtihad* (critical and renewed reading of the foundational texts) as the only way for Muslims to take up these modern challenges. But, Ramadan argues, in practice such readings have effectively reached the limits of their ability to serve the faithful in the West as well as the East. In this book he sets forward a radical new concept of *ijtihad*, which puts context -- including the knowledge derived from the hard and human sciences, cultures and their geographic and historical contingencies -- on an equal footing with the scriptures as a source of Islamic law.

Radical Reform Tariq Ramadan, 2008-11-17 Tariq Ramadan has emerged as one of the foremost voices of reformist Islam in the West, notable for urging his fellow Muslims to participate fully in the civil life of the Western societies in which they live. In this new book, Ramadan addresses Muslim societies and communities everywhere with a bold call for radical reform. He challenges those who argue defensively that reform is a dangerous and foreign deviation, and a betrayal of the faith. Authentic reform, he says, has always been grounded in Islam's textual sources, spiritual objectives, and intellectual traditions. But the reformist movements that are based on renewed reading of textual sources while using traditional methodologies and categories have achieved only adaptive responses to the crisis facing a globalizing world. Such readings, Ramadan argues, have reached the limits of their usefulness. Ramadan calls for a radical reform that goes beyond adaptation to envision bold and creative solutions to transform the present and the future of our societies. This new approach interrogates the historically established sources, categories, higher objectives, tools, and methodologies of Islamic law and jurisprudence, and the authority this traditional geography of knowledge has granted to textual scholars. He proposes a new geography which redefines the sources and the spiritual and ethical objectives of the law creating room for the authority of scholars of the social and hard sciences. This will equip this transformative reform with the spiritual, ethical, social and scientific knowledge necessary to address contemporary challenges. Ramadan argues that radical reform demands not only

the equal contributions of scholars of both the text and the context, but the critical engagement and creative imagination of the Muslim masses. This proposal for radical reform dramatically shifts the center of gravity of authority. It is bound to provoke controversy and spark debate among Muslims and non-Muslims alike.

Islam and the Arab Awakening Tariq Ramadan, 2012-10-12 One of the most important developments in the modern history of the Middle East, the so-called Arab Spring began in Tunisia in December 2010, bringing down dictators, sparking a civil war in Libya, and igniting a bloody uprising in Syria. Its long-term repercussions in Egypt and elsewhere remain unclear. Now one of the world's leading Islamic thinkers examines and explains it, in this searching, provocative, and necessary book. Time Magazine named Tariq Ramadan one of the most important innovators of the twenty-first century. A Muslim intellectual and prolific author, he has won global renown for his reflections on Islam and the contemporary challenges in both the Muslim majority societies and the West. In *Islam and the Arab Awakening*, he explores the uprisings, offering rare insight into their origin, significance, and possible futures. As early as 2003, he writes, there had been talk of democratization in the Middle East and North Africa. The U.S. government and private organizations set up networks and provided training for young leaders, especially in the use of the Internet and social media, and the West abandoned its unconditional support of authoritarian governments. But the West did not create the uprisings. Indeed, one lesson Ramadan presents is that these mass movements and their consequences cannot be totally controlled. Something irreversible has taken place: dictators have been overthrown without weapons. But, he writes, democratic processes are only beginning to emerge, and unanswered questions remain. What role will religion play? How should Islamic principles and goals be rethought? Can a sterile, polarizing debate between Islamism and secularism be avoided? Avoiding both naive confidence and conspiratorial paranoia, Ramadan voices a tentative optimism. If a true civil society can be established, he argues, this moment's fragile hope will live.

Introduction to Islam Tariq Ramadan, 2017-09-12 From one of the most prominent intellectuals in the Muslim world comes a timely new introduction to one of the world's most practiced-and most misunderstood-religions. In frank, unapologetic language, Tariq Ramadan walks readers through Islam and its principles, rituals, diversity, and evolution. Ramadan, known for his efforts to reform and change the understanding of Islam in the West, avoids ideology and idealism, instead attempting to depict the true meaning of Islam for readers who have no previous experience with the religion. The book is therefore focused on defining the basic principles of Islam and offering an overview of the faith's history: from its beginnings in prophetic mission, to the Sunni-Shi'a schism, to the formation of distinct schools of law, theology, philosophy, and mysticism. Perhaps the most misinterpreted aspect of Islam, shariah, literally translated as the way that leads to a source of water, receives an entire chapter of attention. Ramadan explains the ways in which shariah has been reduced by fundamentalism to a mere criminal code and expands upon its place in the larger Islamic worldview. He then confronts some

of the most pressing issues facing Muslims today, including gender equality, religious diversity, and violence. Both sensitive and accessible, *Introduction to Islam* is a much-needed guide to understanding the role of Islam in the modern world.

Migration and Islamic Ethics, 2019-11-11 *Migration and Islamic Ethics*, Issues of Residence, Naturalization and Citizenship addresses how Islamic ethical and legal traditions can contribute to current global debates on migration and displacement; how Islamic ethics of *mu'akha*, *ḍiyāfa*, *ijāra*, *amān*, *jiwār*, *sutra*, *kafāla*, among others, may provide common ethical grounds for a new paradigm of social and political virtues applicable to all humanity, not only Muslims. The present volume more broadly defines the Islamic tradition to cover not only theology but also to encompass ethics, customs and social norms, as well as modern political, humanitarian and rights discourses. The first section addresses theorizations and conceptualizations using contemporary Islamic examples, mainly in the treatment of asylum-seekers and refugees; the second, contains empirical analyses of contemporary case studies; the third provides historical accounts of Muslim migratory experiences. Contributors are: Abbas Barzegar, Abdul Jaleel, Dina Taha, Khalid Abou El Fadl, Mettursun Beydulla, Radhika Kanchana, Ray Jureidini, Rebecca Gould, Said Fares Hassan, Sari Hanafi, Tahir Zaman.

Islamic Perspectives On The Principles Of Biomedical Ethics Mohammed Ghaly, 2016-07-19 *Islamic Perspectives on*

the Principles of Biomedical Ethics presents results from a pioneering seminar in 2013 between Muslim religious scholars, biomedical scientists, and Western bioethicists at the research Center for Islamic Legislation & Ethics, Qatar Faculty of Islamic Studies. By examining principle-based bioethics, the contributors to this volume addressed a number of key issues related to the future of the field. Discussion is based around the role of religion in bioethical reasoning, specifically from an Islamic perspective. Also considered is a presentation of the concept of universal principles for bioethics, with a response looking at the possibility (or not) of involving religion. Finally, there is in-depth analysis of how far specific disciplines within the Islamic tradition — such as the higher objectives of Sharia (maqāṣid al-Sharī'ah) and legal maxims (qawā'id fiqhīyah) — can enrich principle-based bioethics.

Lost History Michael Hamilton Morgan, 2008 Essential reading for anyone seeking to understand the major role played by the early Muslim world in influencing modern society, *Lost History* fills an important void. Written by an award-winning author and former diplomat with extensive experience in the Muslim world, it provides new insight not only into Islam's historic achievements but also the ancient resentments that fuel today's bitter conflicts. Michael Hamilton Morgan reveals how early Muslim advancements in science and culture lay the cornerstones of the European Renaissance, the Enlightenment, and modern Western society. As he chronicles the Golden Ages of Islam, beginning in 570 a.d. with the birth of Muhammad, and resonating today, he introduces scholars like Ibn Al-Haytham, Ibn Sina, Al-Tusi, Al-Khwarizmi, and Omar Khayyam, towering figures who revolutionized the mathematics, astronomy, and medicine of their time and paved the way for Newton, Copernicus, and many others. And he reminds us that inspired leaders from Muhammad to Suleiman the Magnificent and beyond championed religious tolerance, encouraged intellectual inquiry, and sponsored artistic, architectural, and literary works that still dazzle us with their brilliance. *Lost History* finally affords pioneering leaders with the proper credit and respect they so richly deserve.

Islam's Predicament with Modernity Bassam Tibi, 2009 *Islam's Predicament with Modernity* presents an in-depth cultural and political analysis of the issue of political Islam as a potential source of tensions and conflict, and how this might be peacefully resolved. Looking at the issue of modernity from an Islamic point of view, the author examines the role of culture and religion in Muslim society under conditions of globalisation, and analyses issues such as law, knowledge and human rights. He engages a number of significant studies on political Islam and draws on detailed case studies, rejecting the approaches of both Orientalists and apologists and calling instead for a genuine Islamic pluralism that accepts the equality of others. Situating modernity as a Western product at the crux of his argument, he argues that a separation of religion and politics is required, which presents a challenge to the Islamic worldview. This critical analysis of value conflicts, tensions and change in the Islamic world will be of interest to scholars and advanced students of international relations, social theory, political science, religion, Islamic studies and Middle Eastern studies.

The Figural Jew Sarah Hammerschlag, 2010-05-15 The rootless Jew, wandering disconnected from history, homeland, and nature, was often the target of early twentieth-century nationalist rhetoric aimed against modern culture. But following World War II, a number of prominent French philosophers recast this maligned figure in positive terms, and in so doing transformed postwar conceptions of politics and identity. Sarah Hammerschlag explores this figure of the Jew from its prewar usage to its resuscitation by Jean-Paul Sartre, Emmanuel Levinas, Maurice Blanchot, and Jacques Derrida. Sartre and Levinas idealized the Jew's rootlessness in order to rethink the foundations of political identity. Blanchot and Derrida, in turn, used the figure of the Jew to call into question the very nature of group identification. By chronicling this evolution in thinking, Hammerschlag ultimately reveals how the figural Jew can function as a critical mechanism that exposes the political dangers of mythic allegiance, whether couched in universalizing or particularizing terms. Both an intellectual history and a philosophical argument, *The Figural Jew* will set the agenda for all further consideration of Jewish identity, modern Jewish thought, and continental philosophy.

The Oxford Handbook of the Abrahamic Religions Adam Silverstein, Guy G. Stroumsa, Moshe Blidstein, 2015-10-01 The *Oxford Handbook of the Abrahamic Religions* includes authoritative yet accessible studies on a wide variety of topics dealing comparatively with Judaism, Christianity, and Islam, as well as with the interactions between the adherents of these religions throughout history. The comparative study of the Abrahamic Religions has been undertaken for many centuries. More often than not, these studies reflected a polemical rather than an ecumenical approach to the topic. Since the nineteenth century, the comparative study of the Abrahamic Religions has not been pursued either intensively or systematically, and it is only recently that the comparative study of Judaism, Christianity, and Islam has received more serious attention. This volume

contributes to the emergence and development of the comparative study of the Abrahamic religions, a discipline which is now in its formative stages. This Handbook includes both critical and supportive perspectives on the very concept of the Abrahamic religions and discussions on the role of the figure of Abraham in these religions. It features 32 essays, by the foremost scholars in the field, on the historical interactions between Abrahamic communities; on Holy Scriptures and their interpretation; on conceptions of religious history; on various topics and strands of religious thought, such as monotheism and mysticism; on rituals of prayer, purity, and sainthood, on love in the three religions and on fundamentalism. The volume concludes with three epilogues written by three influential figures in the Christian, Jewish, and Muslim communities, to provide a broader perspective on the comparative study of the Abrahamic religions. This ground-breaking work introduces readers to the challenges and rewards of studying these three religions together.

English Translation of the Meaning of Al-Qur'an: The Guidance for Mankind (English Only) Muhammad Farooq-i-Azam Malik, 1997 Al-Qur'an, the Guidance for mankind, is a unique translation of the Holy Qur'an in contemporary American English. It includes the Biography of the Prophet Muhammad, peace be upon him, his mission as a Prophet, his ranking as in the human history. Text is paragraphed by theme and theme is written in the margins on each page for easy reference. Its features include - (1) Field Testing the Communication of Divine Message: The unique feature of this translation is its field testing for over 3 1/2 years to improve the communication and understanding of the Divine Message. Translation passages were given to the New Muslim and Non-Muslim high school and college students for reading under the supervision of various Ulema (scholars). After reading, the person was asked to explain as to what he/she understood from the passage. If his/her understanding was the same as is in the Arabic Text of the Holy Qur'an then we concluded that we have been successful in conveying the Divine Message properly. If his/her understanding was different than what the Qur'anic verses were stating, we kept on rewording the translation until those verses were understood properly. It was tremendous patience on part of the participants. May Allah reward them all. (2) Simplicity: In this translation Simple Language and Direct Approach is used for appealing to the common sense of scholars and common people. (3) Understandability: There are no foot notes to refer and no commentary or lengthy explanations to read. All necessary explanations have been incorporated right there in the text with italic type setting to differentiate from the translation of the meanings of Qur'anic Arabic Text. (4) Outline of Pertinent Information: Before the start of each Srah, information relating to its Period of Revelation, Major Issues, Divine Laws and Guidance has been presented as an outline. Then a summary of the preceding events has been tabulated for the reader to understand the historical background to grasp the full meaning of the Divine Message. (5) Reviews, Input and Approvals: This project was started in 1991 and initial draft completed in 1994. Then the Translation was sent to different Ulema (Scholars) in Town and throughout United States for their review and input. After their reviews and input it was sent to Jme Al-Azhar Al-Sharif in Egypt, Ummal Qur in Saudi Arabia and International Islamic University in Pakistan for their review,

input and approval. This translation was published after their reviews and approvals.
