This festschrift to Alice Horner is primarily concerned with the thematic concerns that motivated Horner and her late husband in their scholarly work: work and labor, industrialization and capitalism, family and household, demography and culture, and politics. Thirty-one essays, presented by Patel (sociology, U. of Pune, India), Bagchi (women's studies, Jadavpur U., India) and Raj (editor, The Economic and Political Weekly), are divided into four sections that explore themes and methodologies used by Horner in analyzing agrarian Indian and gender, elaborate aspects of economic change since Indian independence, explore cultural assessment of contemporary India, and relate the colonial heritage to the contemporary political process. Also includes an appreciation of Horner and a bibliography of her writings. Annotation copyrighted by Book News, Inc., Portland, OR

Investigating the emergence of Hindi publishing in colonial Lucknow, long a stronghold of Urdu and Persian literary culture, Shobna Nijhawan offers a detailed study of literary activities emerging out of the publishing house Ga?g? Pustak M?I? in the first half of the twentieth century. Closely associated with it was the Hindi monthly Sudh?, a literary, socio-political, and illustrated periodical, in which Hindi writings were promoted and developed for the education and entertainment of the reader. In charting the literary networks established by Dularelal Bhargava, the proprietor of Ga?g? Pustak M?I? and chief Edited by of Sudh?, this volume sheds light on his role in the development of Hindi language and literature, creation of canonical literature, and commercialization and nationalization of books and periodicals in the north Indian Hindi public sphere. Using vernacular primary sources and drawing on scholarship on periodicals and publishing houses as well as Edited by-publishers that has emerged over the past two decades, Nijhawan shows how one publishing house singlehandedly impacted the role of Hindi in the public sphere.

A comprehensive and analytical account of the development and structure of broadcasting in India, this classic text is now into its second edition. The book has been extensively revised and updated in the light of three significant developments in the post 1987 period, namely the cry for media autonomy, the screening of epic serials, and the onset of the era of the VCR and cable television.

Sponsored by the International Institute for Communications, this book is a comprehensive and analytical account of the development and structure of broadcasting in India. Chatterji describes the demographic, economic and linguistic background against which Indian radio and television operates. He critically evaluates managerial and financial procedures and examines whether programmes conform to objectives enshrined in the Indian Constitution. He also shows how procedural and political impediments have affected programming and professionalism in the broadcast industries.

I had the opportunity to work with the author, Vinod Kapoor, at both Doordarshan and All India Radio (AIR). His writings always carried clarity of opinion. The book is not a history of broadcasting but gently touches the contours of that chequered march of broadcasting though in an interesting manner. The author has written with flowing interest, subjects like the controversy about language, the way dramas gained prominence, the scene at the AIR during the Mahatma Gandhi assassination and also when the nation attained freedom. There are references to how AIR helped Hindi cinema grow and provide a stream of artists it nurtured. He recapitulates the contributions of some known broadcasters with anecdotal references that shaped the medium. He has strongly expressed his displeasure on denying functional freedom to the professionals, which Prasar Bharati Act had promised. He has not minced expressions in excoriating the non-professionals take charge, which, in reality, brought the downfall of Public Broadcasting. There are points where he could not restrain his anguish but that went with reason and mood. Broadcasting is a very vast subject and one cannot cover every aspect

of it. Yet, the author has made a valiant attempt. The author has flair for writing and done some of the chapters with extra zest like his essays titled Zest for Music, Voices That Ring or The Mentors. This reminded me of his research on certain individuals, which showcases the enormity of broadcasting. There is amplified mention of veteran actors Jahanara Kajjan, Achla Sachdev, Om Prakash and film composers, Roshan and Ravi, who represented the entire gamut of artists who scored big later. The Indo-Aryan languages are spoken by at least 700 million people throughout India, Pakistan, Bangladesh, Nepal, Sri Lanka and the Maldives. They have a claim to great antiquity, with the earliest Vedic Sanskrit texts dating to the end of the second millennium B.C. With texts in Old Indo-Aryan, Middle Indo-Aryan and Modern Indo-Aryan, this language family supplies a historical documentation of language change over a longer period than any other subgroup of Indo-European. This volume is divided into two main sections dealing with general matters and individual languages. Each chapter on the individual language covers the phonology and grammar (morphology and syntax) of the language and its writing system, and gives the historical background and information concerning the geography of the language and the number of its speakers.
