

Rahu Ketu The Shadow Planets By Vedic Astrology

Saket Shah

Rahu & Ketu Secrets Saket Shah,2020-01-05 In Hindu astrology, Rahu and Ketu signify the two mathematical points on each side of the moon that have a significant impact on self-experience. The Significance of Rahu and Ketu in Vedic Astrology is realized positively and negatively in a person's life. As a rising node of the moon, Rahu is known to cause spiritual growth and whenever it exists in a chart; the result is luxury and obsession. It's a powerful node favorable to politicians as it presents opportunities and immense power to ascend in political affairs both justly and unjustly. Rahu also influences criminals, snakes as well as magicians just to mention a few. Rahu has the power to give wealth and make a person popular. At the same time, this shadow planet is likely to cause confusion, despair and emotional inequity. It's very powerful in the 3rd, 6th and 11th houses of a horoscope. Ketu is a shadowy, descending and malefic planet but not as malefic as Rahu. Ketu offers liberation and nonattachment to material desires and worldly ambitions. It provides spiritual knowledge, power to differentiate, self-knowledge as well as wisdom. Whenever present in a chart, it gives a person psychic abilities. A person can perform natural healing, deal with ghosts, evil spirits, and astral forces as well as make them wizards of foods, herbs and spices. Ketu enables a person to blend in naturally among people

Rahu and Ketu in Houses, Signs, Transit and Conjunction Saket Shah,2020-01-04 Rahu and Ketu are controversial figures in Hindu Mythology, Astronomy and Astrology. Whatever may have been the liabilities of mythology, the physics of eclipses tells us that the shadows are caused by the Earth, the Sun and the Moon. and they do not exist by themselves. In solar Eclipse. it is Moon that covers the orb of the Sun and casts its shadow on the Earth and causes the eclipse, In Lunar Eclipse, it is reasonably the Earth that casts the shadow on the Moon and cause the eclipse. But if we see the movement in both the cases, it is the Moon that causes the eclipse by playing hide and seek. What are Rahu and Ketu. The usual explanation given by some of the learned astrologers is that they are as much physical bodies (planets) as other planets are and they are invisible because their discs are dark. Others are of the opinion that they are points in the ecliptic where the plane of Moon's orbit cuts the plane of Sun's orbit. Rahu and Ketu pose difficult problems for the astrologer and have been the cause of considerable controversy in the recent past. Authorities differ about them. From what Varahmihira observes in his Brihat Somhita. it is obvious that he was aware of the true causes of eclipses and other celestial phenomena. It must, however, be stated at the very outset that there is a fundamental difference between Rahu and Ketu and the other planets.

The other planets are bodies of physical mass, actually existing in the sky and visible to the eye. They have form, shape and colour and their mass, gravity, atmosphere, motion, distance from the Sun etc., have been studied in detail and ascertained. On the other hand, Rahu and Ketu are only two imaginary points in the heavens, without shape or form. They are the points of intersection of the apparent path of the Sun with the path of the Moon. As these paths are nearly circular, the points of intersection are two which lie 180 degrees apart. Now the basic assumption of astrology is that planets influence the earth and its inhabitants. Man dwells upon the earth and so is influenced by them. The planets possess mass and have force of gravity. They also emit electro-magnetic vibrations. These effect the earth and its inhabitants. Rahu and Ketu do not exist in the heavens and possess no mass. They are only two imaginary points in the heavens. Then how do they effect the earth and its inhabitants ? It has already been stated that Rahu and Ketu are the two points of intersection of the path of the Sun and the Moon. The apparent motion of the Sun is due to the revolution of the earth around the Sun. And the Moon revolves around the Earth. Therefore, Rahu and Ketu are the points of intersection of the paths of the earth and the Moon in the heavens. The Earth and the Moon are two bodies possessing physical mass. They move on defined paths in the heavens. Their movements on their paths create fields of force. The nature of the force is not material. It may be called electromagnetic or any other. The inhabitants of the earth are not aware of the field of force created by the earth, because they are a part of the earth and move along with it. This fact may be explained through an example. The movements of a Railway Train on its track creates a field of force which is noticed by a passerby and not by persons who are in an equilibrium. Similarly, the inhabitants of the Earth are in an equilibrium with reference to the field of force created by the earth during its motion around the Sun. The equilibrium is, however, disturbed where the paths of the earth and the Moon intersect. It is natural that where two fields of force meet with each other, something unusual should happen. Rahu and Ketu are two Nodes of the Moon, are the two points of disturbance on the paths of the Earth and the Moon. The path of the earth or the apparent path on the Sun is the ecliptic. Thus Rahu and Ketu are the two points on the ecliptic 180 degrees apart and in whose vicinity disturbed condition prevail. They represent the cross-roads on the fields of force of the earth and the Moon. But what about the influence of Nodes, which are imaginary points ? They cannot either emit rays or reflect rays emanating from the other celestial bodies. So what is their position in Astrology. Latitudes of the planets depend on their Nodes. so the mutual relationship in the position of the planets will not be the same at any two instants in Kalpa, (one Kalpa, being equal to 1090 Maha-yugas and one Maha-yuga is of 4,32000 years), as the periods of revolution of the Nodes are different for different planets. It is said that History repeats itself but not in an identical manner. This truth is established on a consideration of astrology. The events may be similar but can never be identical. Since the astrological influence of planets depends on their latitudes, (their Nodes), even though they are imaginary points naturally exercise astrology influence on the earth and the living beings on it. The effect of Rahu and Ketu forces itself on our attention most clearly at the time of the eclipses of the

Sun and the Moon. When the Sun and the Moon come near the Nodes at the time of the Full Moon or the new Moon and a certain other conditions are fulfilled an eclipse of the Moon or the Sun take place. Then the light and other electro-magnetic vibrations coming from the Moon or the Sun are cut off and the normal arrangements which obtain for the earth are disturbed. Persons, who are born at the time of eclipses are always prone to mental abnormality and to other physical suffering. They are also likely to have weak constitutions and short lives. It is a known fact that during the period of eclipses and sometimes before and after them, the normal functioning of the human system-such as digestive apparatus etc. is disturbed and that is why it is said that no food should be taken during the period of an eclipse. But it is not only the Sun and the Moon that suffer when they come in contact with Rahu or Ketu. Other planets also develop abnormal traits when they come in contact with them and their natural qualities suffer, usually for the worse. When Sun comes in conjunction with Rahu, this gives a strong advantage to the Rahu area. The ego and the new activity flow along the same path. Whenever the Sun is located in where there is strength, vitality, action and warmth. But when Sun is in conjunction with Ketu, this gives greater difficulty in establishing the new growth. In order to grow and learn, the person must build a strong ego. To cut short, whenever Rahu is in conjunction with any planet, it will enhance the basic quality of that planet. It is only in recent years that Rahu and Ketu are recognized in Western astrological texts-this is surely a sign of Indian influence on Western astrological thought. Lately few astrologers of the West have written few books proving with illustration that the Moon's Nodes play an important part in human affairs.

Rahu & Ketu Tirupur S. GopalaKrishnan (GK),2021-06-21 Astronomically, the intersection points of the sun and moon - on their movements in the celestial sphere - are called Rahu and Kethu. They are also called the north node and south node. Rahu and Kethu are unimaginably huge dark shadows in space. During their transit, when their shadow falls on any planet, that planet's all-effects will be completely altered or diverted by Rahu and Kethu. Rahu and Kethu are solely responsible for a beggar to become a millionaire and a millionaire to become a beggar. This book elaborately discusses the effects of Rahu and Kethu. In the horoscope, how Rahu and Kethu are positioned, how the planets and the houses (Bhavas) are affected by them in the birth chart are all analysed in this book. How and when the natives will be affected? To what extent they will be affected? It is because of the birth chart, the transit movement and the Dhasa Bhukthi of Rahu and Kethu? They are all clearly explained in this book with many birth charts. Kindly read this book thoroughly, analyse it with your known people's horoscope, and experience the result. It will surely give you goosebumps!

Understanding Rahu and Ketu Spiritually Saket Shah,2021-03-21 The myth behind the shadow planet Rahu speaks of the Asura Swarbhanu, who was a dragon. He was sundered during the churning of the Ocean of Milk, wherein the last gift was amrita, the nectar of immortality. The demons and the gods had agreed to co-operate and churn the ocean of milk in order to receive the precious gifts it had. They would take the gifts - but the demons engaged in subterfuge and obtained the last gift -

the pot containing the nectar of immortality. The gods, outraged, called to Lord Vishnu for aid. Lord Vishnu took the disguise of an enchantress, Mohini. This enchantress prevented the demons from drinking the pot of amrita, and made arrangements to divide the pot between the gods and the demons. The enchantress fooled the demons with her beauty and sweet endearments, whilst feeding the contents of the pot to the gods. Swarbhanu was not fooled; he had clearer perception, took a disguise and sat among the gods and was given a taste of the nectar. The Sun and the Moon, saw the deception and informed Vishnu, who promptly took off Swarbhanu's head with his discus. The body fell down dead (and was later revived as Ketu); the head had tasted immortality and continued to live. It is said that Rahu seeks revenge by swallowing the Sun and Moon from time to time - this is the explanation for occurrence of eclipses.

An Unique and Scientific Study of Rahu and Ketu Saket Shah, 2020-03-29 Astrology is an integral part of Indian culture. It is as old as the vedas. It explains the celestial phenomena and the corresponding terrestrial events. It explains the cause and effect of events. The main basis of astrological thought is that the celestial phenomena effects the life and events on the earth. It does not permit anyone to conclude any event just as an accident. Celestial bodies generate a lot of energy m their movements and astrology shows us how we can use these energies operative m our lives in the best possible way. Astrology is a science which helps the mankind to put their life in the right path. Astrology was tested and experienced for many centuries and it's knowledge was handed down the ages to new generations. A study of the civilizations flourished m different parts of the world shows that Astrology played an important role m their life. The places where astrology does not flourish are mostly barbarious, lacking in knowledge and they don't have any communication with the universe. In India, astrology has been considered as the best guide to achieve the fourfold objectives of life and they are Dharma, Artha, Kama and Moksa All the activities of human being are directed towards the achievement of these goals and astrology helps us to

achieve them in a organized manner. Astrology has reached this stage after nullifying the criticisms, which it has to face from the beginning itself. Astrology has the seven visible grahas - Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn along with the two lunar nodes - Rahu and Ketu . Rahu and Ketu are accepted as grahas in Indian astrology only. They are considered as shadowy - grahas. The details available about Rahu and Ketu are confusing. Astrological texts don't have a unanimus opinion about Rahu - Ketu. These opinions create confusion in the mind of astrologers as well as astrology followers. So, there is a need of study on Rahu - Ketu. Rahu - Ketu are considered as recent developments by many scholars But, this is not true. Their references are available in vedas itself. So, with a view to give some clear opinion on Rahu - Ketu, I have chosen this subject for study. Further, we know that astrology is the most criticized subject and research in this field are very less. So, I have tried to answer these criticisms and I hope that my study will encourage more researches in this field.

Planets and Their Effects Saket Shah,2020-02-26 Understanding planets & their effects: ... Each planet emanates certain energy while moving through the zodiac circle. Some planets move faster like Sun, Moon, Mercury, Mars and Venus, these are called inner planets and they affect us in a more personal and rapid manner, influencing our daily life, impulses and mood. All planets in solar system are revolving around Sun in a predefined pattern. That's how we know when to wake up and when to go to bed. Planets however govern a lot more than just occurrence of day and night or eclipses and tides. Planets have a direct impact on us, despite being several light years away. While the position of planets does not dictate our everyday actions, it does have a profound and close influence on our life and destiny. Understanding planets & their effects: Much like nobody forces Moon to orbit Earth, humans are also under no force to act in a certain way but everything in the universe is correlated and works in sync so naturally, the movement of planets affects our actions as a result, much like our actions affect the environment. Human body is in fact made of elements present in the Universe. The structure of our brain is very much similar to the structure of universe. Everything that happens to the Universe happens to us. Our own magnetic field aligns with the Earth's magnetic field. Each object in the Universe, be it humans, Earth, planets and stars in our galaxy move in a precise symphony so we have to connect ourselves to these energy sources to receive the vibrations and function better. Each planet emanates certain energy while moving through the zodiac circle. Some planets move faster like Sun, Moon, Mercury, Mars and Venus, these are called inner planets and they affect us in a more personal and rapid manner, influencing our daily life, impulses and mood. The outer planets move slowly in the sky, some even take as much as 2.5 years to change a sign. These include Jupiter, Saturn, Rahu and Ketu and these planets have a more profound and long-lasting impact on us, unlike say Moon. Astrological significance of planets: Every planet rules a zodiac sign except Rahu and Ketu, which are in fact not actual planets but two reference points in the sky. Rahu and Ketu are the points where the paths of the Sun and Moon intersect with each other. Rahu is the north lunar node, the Head of the dragon as per mythology and Ketu is the south lunar node. The qualities of the zodiac signs somewhat align with the characteristics of the planets. For instance,

impulsive and active Aries is ruled by fiery Mars, dreamy Pisces is ruled by spiritual Jupiter, emotional Cancer is ruled by motherly Moon while confident Leo is ruled by masculine Sun.
