**Discipline Without Distress** Judy Arnall, 2012-09-21 Discipline that you and your child will feel good about! Spanking and time-outs do NOT work. At last, a positive discipline book that is full of practical tips, strategies, skills, and ideas for parents of babies through teenagers, and tells you EXACTLY what to do in the moment for every type of behaviour, from whining to web surfing. Includes 50 pages of handy charts of the most common behaviour problems and the tools to handle them respectfully! Parents and children today face very different challenges from the previous generation. Today's children play not only in the sandbox down the street, but also in the world wide web, which is too big and complex for parents to control and supervise. As young as aged four, your child can contact the world and the world can contact them. A strong bond between you and your child is critical in order for your child to regard you as their trusted advisor. Traditional discipline methods no longer work with today's children and they destroy your ability to influence your increasingly vulnerable children who need you as their lifeline! You need new discipline tools!

My Two-Year-Old Eats Octopus Nancy Tringali Piho, 2009-11-01 Approaching its topic with humor, style, and a critical eye, this unique guidebook enables parents to provide a healthy and diverse diet for their children. Instead of providing yet another guide to kids' nutrition, a medical discussion, a treatise on the perils of obesity, or a parenting primer on good table manners, this study demonstrates that children need to be taught how to eat well just as they are taught to walk. With detailed guidance from nutritionists, physicians, scientists, and chefs, this handbook details how to find the right foods, how to overcome recurring problems, and emphasize the healthiest elements. Dealing with the picky eater and the real worries about obesity and good nutrition, this survey posits that youngsters eat the way they do because of how the parents themselves eat—and shows how to combat any and all bad habits. Offering plenty of information on how to go about serious change and where to find the best resources, this reference is guaranteed to broaden the horizon of any child's menu.

**Guerrilla Learning** Grace Llewellyn, Amy Silver, 2008-05-02 GUERRILLA LEARNING IS CREATING A HOME ENVIRONMENT THAT FILLS YOUR CHILD WITH THE JOY OF LEARNING Let your daughter read her library books instead of finishing her homework . Ask your eleven-year-old's beloved third grade teacher to comment on his poetry. Invite a massage therapist to dinner because your daughter wants to go to massage school instead of college. Give your child the freedom to pursue his interests, develop her strengths, cultivate self-discipline, and discover the joy of learning throughout life. If you've ever felt that your child wasn't flourishing in school or simply needs something the professionals aren't supplying, you're ready to become a guerrilla educator. Revolutionary and inspiring, *Guerrilla Learning* explains what's wrong (and what's useful) about our traditional schools and shows you how to take charge of your family's education to raise thinking, creative young people despite the constraints of traditional schooling. Filled with fun and exciting exercises and projects to do with children of all ages, this remarkable approach to childhood, education, and life will help you release your child's innate abilities and empower him or her in the wider world that awaits beyond the school walls.

Kohn argues that all children have the need to be loved unconditionally, yet conventional approaches to parenting, such as punishment and reward, teach children that they are loved only when they please and impress parents. Kohn cites powerful research detailing the damage this can cause. *Unconditional Parenting* pushes parents to question their ideas of parenting and offers practical solutions to problems.

*Parenting With Patience* Judy L. Arnall, 2014-10-02 This is a quick book to read when you are calm, to use when you are not! Positive discipline has to begin with positive stress management. *9 Things* Maggie Dent, 2018-12-01 It is easy in our fast-paced, competitive, consumer-driven world to forget that children are not mini-adults, projects to be managed or problems to be solved. This common-sense guide to parenting and caring for children under eight, reminds us that a child's development cannot be rushed, or crudely measured against milestones. It takes an entire childhood to grow and there is no perfect when it comes to parenting. In her informed, heartfelt way, one of Australia's favourite parenting authors Maggie Dent takes a comprehensive look at the 9 Things that truly matter in raising children, and why they matter so much. She uses the metaphor of a wise aunty, Wilma — a voice of ancient wisdom that seems to be disappearing amidst the chaos. With passion, warmth and humour, Maggie draws on current research and her extensive experience as an educator, counsellor and mother of four to guide parents and caregivers in their endless decision-making, to raise children who are happy, healthy, strong, kind and resilient. Commonly known as the 'queen of common sense', Maggie Dent has become one of Australia's favourite parenting authors and educators, with a particular interest in the early years, adolescence and resilience. Maggie's experience includes teaching, counselling, and working in palliative

care/funeral services and suicide prevention. She is a dedicated advocate to quietly changing lives in our families and communities. She is the mother of four sons and a very grateful grandmother. Be the Wisdom You Want to See in Your Kids. Magda Tarnawska Senel, PhD, 2015-07-23 Although most parents rate having children as the most meaningful experience of their lives, many find themselves pushed to their emotional and physical limits. Parenthood affords us the opportunity to become more compassionate, patient and understanding, but we also run the risk of becoming more irritable, impatient and intolerant. This book shows readers how they can transform everyday challenges into sources of empowerment and inspiration by demonstrating that joyful living and soulful parenting is not something that just happens by itself; it is a result of choices we make every day. It also presents several proven models for effectively achieving higher levels of fulfillment and a variety of creative activities for both parents and children. By guiding readers to find their own answers to such questions as: What is the difference between a person who is unable to live a happy life and one who succeeds in living with a rich feeling of fulfillment? How do we arrive at adulthood behaving the way we do? this book helps parents discover their most authentic and inspired selves and focus on raising joyful, happy and successful children who develop to their fullest potential.
