Short excerpts provided in '50 Spiritual Appetizers' are mere glimpses of the teachings of the Masters both East and West but can have a powerful impact if the mood is receptive. These can also serve as an introduction to a spiritual teacher you may not have known or heard of. For those whose interest is aroused, links are provided for a detailed study. Short bios of the teachers are also provided again with links for more information. The book is divided into 13 sections devoted to topics like bhakti (devotion), awareness, happiness, peace, death, survival, evil, corruption, suffering, God, divine, guru, mother, internal, external, desire, thought, love, compassion, mind, ego, manifestation, body and science. Each section has an intro which gives an inkling of what is to come. The headlines of the excerpts themselves serve as quotable quotes like, 'The invisible is more significant than what is visible,' 'Real success lies in making others happy,' 'Happiness is determined by our capacity to love,' 'You are what you are looking for' and 'Home is not a place, thing or person - it is rest.' At a time when people are running to doctors and psychologists, try these gems for peace and happiness.

The Family and the Early Life of Paramahansa Yogananda.

SOON TO BE A MAJOR MOTION PICTURE. Notorious godman Asaram Bapu, aka Asumal Sirumalani Harpalani, serves life imprisonment in the Central Jail Jodhpur. He was convicted for the rape of a minor and also has murder charges against him. Gunning for the Godman is the no-holds-barred, first-hand account of how Ajay Lamba, then DCP Jodhpur (West), landed the case and got a team of dedicated officers together. It is the story of how, foiling the Baba's many attempts to get away scot-free, they arrested him in a matter of only ten days, and how they assiduously saw the victim and her family through a four-year long trial. This, despite the countless threats to not only the girl and her family, but also to DCP Lamba's own family and team. A testimony to unrelenting courage, this story of a dynamic police officer's pursuit of justice is a lesson for these troubled times.\*\*\* DISCLAIMER: As on the date of publication of this book, the appeal of Sanchita Gupta@Shilpi against the order of conviction passed by the Special Court (POCSO) Jodhpur, is pending before the Hon'ble Rajasthan High Court. The sentence awarded to Sanchita Gupta@Shilpi has been suspended during the pendency of the appeal.

When it's your job to look out for the public's best interest, you do what it takes . . . Especially if your husband's already died trying. When Cynthia Webber investigates a potential fraud perpetrated by Calgary's CLEAR Wind Energy Corp., she discovers a secret that causes her whole world to come crashing down. And with the secret comes a dangerous enemy who will stop at nothing to get what they want—not even murder.

Recommended by Bill Gates and included in GatesNotes "Elaborating on the science as well as the business behind the fight against cystic fibrosis, Trivedi captures the emotions of the families, doctors, and scientists involved in the clinical trials and their 'weeping with joy' as new drugs are approved, and shows how cystic fibrosis, once a 'death sentence,' became, for many, a manageable condition. This is a rewarding and challenging work." —Publishers Weekly Cystic fibrosis was once a mysterious disease that killed infants and children. Now it could be the key to healing millions with genetic diseases of every type—from Alzheimer's and Parkinson's to diabetes and sickle cell anemia. In 1974, Joey O'Donnell was born with strange symptoms. His insatiable appetite, incessant vomiting, and a relentless cough—which shook his tiny, fragile body and made it difficult to draw breath—confounded doctors and caused his parents agonizing, sleepless nights. After six sickly months, his salty skin provided the critical clue: he was one of thousands of Americans with cystic fibrosis, an inherited lung disorder that would most likely kill him before his first birthday. The gene and mutation responsible for CF were found in 1989—discoveries that promised to lead to a cure for kids like Joey. But treatments unexpectedly failed and CF was deemed incurable. It was only after the Cystic Fibrosis Foundation, a grassroots organization founded by parents, formed an unprecedented partnership with a fledgling biotech company that transformative leaps in drug development were harnessed to produce groundbreaking new treatments: pills that could fix the crippled protein at the root of this deadly disease. From science writer Bijal P. Trivedi, *Breath from Salt* chronicles the riveting saga of cystic fibrosis, from its ancient origins to its identification in the dank autopsy room of a hospital basement, and from the CF gene's celebrated status as one of the first human disease genes ever discovered to the groundbreaking targeted genetic therapies that now promise to cure it. Told from the perspectives of the patients, families, physicians, scientists, and philanthropists fighting on the front lines, *Breath from Salt* is a remarkable story of unlikely scientific and medical firsts, of setbacks and successes, and of people who refused to give up hope—and a fascinating peek into the future of genetics and medicine.

Excerpt: "Liberty is the first condition of growth. Just as man must have liberty to think and speak, so must he have liberty in food, dress, and marriage, and in every other thing as long as he does not injure others."

This volume examines selected formal and functional characteristics of English in South Asia, where English was introduced in the sixteenth century and now has over fifty million users. An integrative and interdisciplinary collection, the book brings together invited papers by acclaimed creative writers from India and Pakistan and by international linguists and English educators. The five major facets of South Asian English discussed are context and uses: structure and contact; functions and innovations; the curriculum; and the multilingual's creativity. The volume provides current perspectives on complex issues of concern to teachers and students of world Englishes.

Could we find happiness and attain mental peace without relinquishing our material goals? What if we could understand why we behave and act the way we do? How does our brain really trick us into many of

the decisions we make every day? What if we could actually train our brain and improve our ability to lead a more meaningful life-not only for ourselves but also for society? In this brilliantly engaging read, Ashok Panagariya blends his life experiences with modern science and Indic philosophy to tackle these questions and shares tools that anyone can acquire to become a better 'brain-manager'. He delves deeply into the human mind, showing what makes the brain unique and the remarkable intrinsic capacity it holds to influence our lives. He does all this while making us acutely aware of the role luck and chance play in how we eventually shape up. Monk in a Merc is an insightful read for anyone looking to achieve eternal happiness and peace while still enjoying all that life offers-material wealth and professional success. It turns the table on the conventional understanding of monkhood, which seeks renunciation of material pursuits in search of a spiritual quest.

Bhupen Patel has conducted many undercover operations over the course of his career. He's exposed all sorts of rackets, from mental asylums admitting patients without proper medical examinations to discovering an illegal network of agents that arrange 'temporary' wives for Arab men looking to have a short fling. This book recounts in detail some of his most dramatic and hard-hitting stings. Patel takes us through the entire process of a sting and reveals the amount of hard work it takes to not just uncover a story that requires further discreet investigation but also gather enough evidence to bring it to the notice of the public and authorities concerned. Each account will keep you on the edge of your seat and allow a glimpse into the life of an investigative journalist.

In the 1990s a newspaper revolution began blowing across northern and central India. In these Hindi-speaking states, when literacy levels rose, communications expanded, and purchasing power climbed, Hindi newspapers followed-picking up readers in small towns and villages. Even while these newspapers surged to the top of national readership charts, they localised furiously in the race for readers. But in this universe of local news, questions arose about what localisation was doing to regional identity and consciousness. Using notes from her pioneering field-study in eight states, Sevanti Ninan brings alive India's ongoing rural newspaper revolution, and its impact on politics, administration and society. Set against the socio-economic and political changes in the countryside, it is a remarkable story of how journalism flowered in unexpected and unorthodox ways, and colourful media marketing unfurled in the Hindi heartland.

The year is 1971 Tension is brewing between India and Pakistan One secret could change the course of history . . . From Plassey to Partition is an eminently readable account of the emergence of India as a nation. It covers about two hundred years of political and socio-economic turbulence. Of particular interest to the contemporary reader will be sections such as Early Nationalism: Discontent and Dissension , Many Voices of a Nation and Freedom with Partition . On the one hand, it converses with students of Indian history and on the other, it engages general and curious readers. Few books on this crucial period of history have captured the rhythms of India's polyphonic nationalism as From Plassey to Partition.

Deals with a very important business in global communication of news -- the news agencies. The first news agencies started their business when the fastest technology was a combination of telegraph and carrier pigeon. They have survived several technological developments since then and have used these technologies for further diversification of services and revenues. The Internet, some thought, will make the news agencies extinct like dinosaurs. But, well run news agencies found a new opportunity in this threat.

Though there have been some corporate biographies of news agencies, there has not been any comprehensive analytical work in the past 25 years on this business. This book is an attempt to fill this void in the global literature on journalism, media studies, international communication and business management studies. Besides, the students of these academic disciplines, diplomats, policymakers, and all types of communication professionals will find this book useful. It will also be a good read for lay persons who unconsciously consume the products of news agencies through all types of media -- from newspapers to mobile phones.

A historical survey.

This completely revised and extended updating of John Merrill's The Elite Press, published over a decade ago, provides a provocative and thoroughly researched look into the characteristics of "great" or "quality" journalism in an international context. The introductory chapters define newspaper "greatness" by describing those journals that are serious, intellectually oriented, cosmopolitan, courageous, impartial, interpretive, reliable, responsible and socially-concerned. Here the authors place newspapers in their political environments, depicting the differences between authoritative and liberatarian press systems.

This book constitutes the proceedings of the First International Conference on Computational Intelligence and Information Technology, CIIT 2011, held in Pune, India, in November 2011. The 58 revised full papers, 67 revised short papers, and 32 poster papers presented were carefully reviewed and selected from 483 initial submissions. The papers are contributed by innovative academics and industrial experts in the field of computer science, information technology, computational engineering, mobile communication and security and offer a stage to a common forum, where a constructive dialog on theoretical concepts, practical ideas and results of the state of the art can be developed.

From the late 1970s a revolution in Indian-language newspapers, driven by a marriage of capitalism and technology, has carried the experience of print to millions of new readers

in small-town and rural India.

This timely and significant study explores the reasons behind the rise in Sikh militancy over the 1970s and 1980s. It also evaluates the violent response of the Indian State in fuelling and suppressing the Sikh separatist movement, resulting in a tragic sequence of events which has included the raiding of the Golden Temple at Amritsar and the assassination of Prime Minister Indira Gandhi. The book reveals the role in this movement of a section of young semi-literate Sikh peasantry who were disaffected by the Green Revolution and the commercialisation of agriculture in Punjab. Drawing on a wide range of sources, Deol examines the role of popular mass media in the revitalisation of religion during this period, and the subsequent emergence of sharper religious boundaries.

India is known as a country not of innovation but of improvisation-or 'Jugaad', as they say in Hindi. But that has begun to change. We have enough examples in this country of people who have turned industry norms upside down to pull off the impossible in their fields. Eleven such case studies are featured in the book, including: Titan, which came out with the slimmest water-resistant watch in the world; Su-Kam, a power backup company that did not fit into an existing industry but ended up creating a new one; Shantha Biotech, which developed a low-cost Hepatitis-B vaccine and ushered in the biotechnology age in India; Trichy Police, which rewrote policing paradigms to nip extremism and crime in the bud, thus transforming the city. Through the breakthroughs achieved by these organizations, Porus Munshi shows that to do what is considered 'impossible' in your particular industry, you have to be subversive and think differently. In the process, if the existing business model needs to be turned on its head, then so be it!

It's no secret that certain social groups have predominated India's business and trading history, with business traditionally being the preserve of particular 'Bania' communities. However, the past four or so decades have seen a widening of the social base of Indian capital, such that the social profile of Indian business has expanded beyond recognition, and entrepreneurship and commerce in India are no longer the exclusive bastion of the old mercantile castes. In this meticulously researched book – acclaimed for being the first social history to document and understand India's new entrepreneurial groups – Harish Damodaran looks to answer who the new 'wealth creators' are, as he traces the transitional entry of India's middle and lower peasant castes into the business world. Combining analytical rigour with journalistic flair, India's New Capitalists is an essential read for anyone seeking to understand the culture and evolution of business in contemporary South Asia.

Quite simply, this is required reading for anyone involved in managing agricultural research. With a wealth of practical solutions and advice, it offers a how-to guide for managers as well as highlighting the differences in the way that different nations approach this key area of research – one of the most widespread forms of inquiry in the world. The lessons that can be learned

from this brilliant study apply in equal measure to developed and developing nations.

The book, Behind the News: Voices from Goa's Press, has been considered important throughout the human history, and so that this work is never forgotten we have made efforts in its preservation by republishing this book in a modern format for present and future generations. Written in Karan's inimitable style, the articles in this book are a real treat — racy, fun and enlightening at the same time. It is a must read for anyone who is interested in creative writing and journalism.

The absence of earthly logic in the popular versions of Rama-Katha and especially the absence of human rationality in the plot construction of Ramcharitamanas provoked me to a great extent. All the background events which caused the birth of Rama, were of little interest to me, as they were not the experience of our daily life and hence offered little possibility of any rational explanations. My aim, in any case was not to provide any reasoning as to why the ?avatar? took place, but to oppose injustice. The opposition to injustice, in the Rama- Katha begins in the Sidhashrama of Vishwamitra. However this entire episode related to Vishwamitra is quite mushy in the popular versions of Rama-Katha. What were the rakshasas doing near Sidhashrama? What shapes did their atrocities take away kill him? Was Vishwarhitra capable of handling rakshasas on his own? If yes, why did he not do so? Why did he choose Rama and none but him to slay the rakshasas? Against what backdrop of events did Rama agree to help Vishwamitra? What was the nature of the qualifications that Rama possessed to carry out the entrusted task?
