Read Larry Winget's posts on the Penguin Blog. Straight-talking, bestselling Pitbull of Parenting Larry Winget says "This is not a fix your kid book. It's a fix the way you parent book. You owe it to your kids to parent with a plan!" Being a parent is the toughest job in the world, especially with the increasing number of negative influences and pitfalls facing our kids today, from childhood obesity and out-of-control celebrity culture to the dangers of the internet and credit card debt. Larry Winget has never been one to shy away from tough truths, and what he says here may well be difficult for some parents to swallow: we are in the midst of a crisis with our kids. Kids today are over-indulged, over-entertained, under-achieving, and under-disciplined, with a sense of entitlement that is crippling society. And the real problem is that parents aren't paying attention to what's going on. If they were they would realize that most kids today barely read and write, except with their thumbs on their cell phones! Well-behaved, respectful kids are the exception, not the rule, and for the most part, parents are to blame. Responsible parenting is about beginning with the end in mind and parenting with a plan. But most parents have never stopped to consider what kind of adult they want to raise. They have all this fun creating a baby, but they don't have a plan for the end product. Larry's message to parents: Teach your kids to become the best adults they can be. But don't expect your kids to improve until you improve. Your Kids Are Your Own Fault covers familiar lessons and principles that have led Larry's readers to greater success with money, career, and goal setting, this time at a level where they can be taught to children. This book shows parents how to design the adult they want their kid to become and work backwards to make sure it happens. Kids don't come with an instruction manual, but finally being a parent does! The science and practice of memory come to life with Bennett Schwartz' Memory, Second Edition. Integrated coverage of cognitive psychology and neuroscience throughout the text connect theory and research to the areas in the brain where memory processes occur, while unique applications of memory concepts to such areas as education, investigations, and courtrooms engage students in an exploration of how memory works in everyday life. Four themes create a framework for the text: the active nature of learning and remembering; memory's status as a biological process; the multiple components of memory systems; and how memory principles can improve our individual ability to learn and remember. Substantive changes in each chapter and 156 new references bring this new edition completely up to date and offer students an array of high-interest

examples for augmenting their own memory abilities and appreciation of memory science.

THESE HABITS WILL MAKE YOU EXTRAORDINARY. Twenty years ago, author Brendon Burchard became obsessed with answering three questions: 1. Why do some individuals and teams succeed more quickly than others and sustain that success over the long term? 2. Of those who pull it off, why are some miserable and others consistently happy on their journey? 3. What motivates people to reach for higher levels of success in the first place, and what practices help them improve the most After extensive original research and a decade as the world's leading high performance coach, Burchard found the answers. It turns out that just six deliberate habits give you the edge. Anyone can practice these habits and, when they do, extraordinary things happen in their lives, relationships, and careers. Which habits can help you achieve long-term success and vibrant well-being no matter your age, career, strengths, or personality? To become a high performer, you must seek clarity, generate energy, raise necessity, increase productivity, develop influence, and demonstrate courage. The art and science of how to do all this is what this book is about. Whether you want to get more done, lead others better, develop skill faster, or dramatically increase your sense of joy and confidence, the habits in this book will help you achieve it faster. Always Hustle., Brad Lomenick shares his hard-earned insights from more than two decades of work alongside thought-leaders such as Jim Collins and Malcom Gladwell, Fortune 500 CEOs and start-up entrepreneurs. He categorizes 20 essential leadership habits organized into three distinct filters he calls "the 3 Hs": Humble (Who am I?), Hungry (Where do I want to go?) and Hustle (How will I get there?). These powerful words describe the leader who is willing to work hard, get it done, and make sure it's not about him or her; the leader who knows that influence is about developing the right habits for success. Lomenick provides a simple but effective guide on how to lead well in whatever capacity the reader may be in.

From the millionaire entrepreneur and New York Times bestselling author of The 10X Rule comes a bold and contrarian wake-up call for anyone truly ready for success. One of the 7 best motivational books of 2016, according to Inc. Magazine. Before Grant Cardone built five successful companies (and counting), became a multimillionaire, and wrote bestselling books... he was broke, jobless, and drug-addicted. Grant had grown up with big dreams, but friends and family told him to be more reasonable and less demanding. If he played by the rules, they said, he could enjoy everyone else's version of middle class success. But when he tried it their way, he hit rock bottom. Then he tried the opposite approach. He said NO to the haters and naysayers and said YES to his burning, outrageous, animal obsession. He reclaimed his obsession with wanting to be a business rock star, a super salesman, a huge philanthropist. He wanted to live in a mansion and even own an airplane. Obsession made all of his wildest dreams come true. And it can help you achieve massive success too. As Grant says, we're in the middle of an epidemic of average. The conventional wisdom is to seek balance and take it easy. But that has really just given us an excuse to be unexceptional. If you want real success, you have to know how to harness your obsession to rocket to the top. This book will give you the inspiration and tools to break out of your cocoon of mediocrity and achieve your craziest dreams. Grant will teach you how to: · Set crazy goals—and reach them, every single day. · Feed the beast: when you value money and spend it on the right things, you get more of it. · Shut down the doubters—and use your haters as fuel. Whether you're a sales person, small business owner, or 9-to-5 working stiff, your path to happiness runs through your obsessions. It's a simple choice: be obsessed or be average.

Author of the book "Dev Gadhvi" comes from a very humble family; his dad was a truck driver and mother a housewife. He saw a great deal of struggle since his childhood and lost 13 years of his career to a mediocre mentality. Finally, he could transform his life with help of some very less known millionaire's secrets. He knows the pain of living with a mediocre mindset and losing precious time. This is the only reason he doesn't want anyone else to lose their precious years. In this book, he shares his learning and his transformation with only single aim, that is to help others transform their lives as well. He has carefully crafted the book only for the people who are looking for that one life changing moment, people who are looking to realize what was missing in their hustle, people who were wanting to know the secrets of how others have become so successful and how they can become too.
