Each unit of Reading Explorer contains two reading passages and an optional video activity. Reading passages cover a wide range of real-world topics related to culture, science, social studies, travel, and adventure.

****This is the chapter slice "Place Gr. 5-8" from the full lesson plan "Antarctica"****

Go on an exhibition to the South Pole as you explore the harsh climate of Antarctica. Study the ice, atmosphere, magnetic field, and greenhouse effect over this vast continent. Draw the locations of research stations inhabiting Antarctica. Understand how Antarctica's temperatures can result in surface ice two miles thick. Become a scientist and research the atmosphere above Antarctica. Find ways in which scientists move around Antarctica without roads or highways. Compare Antarctica's active volcano, Mt. Erebus, with others found around the world, like Mt. St. Helens and Mt. Vesuvius. View the continent as seen from Earth with a globe view map. Aligned to your State Standards and the Five Themes of Geography, additional maps, crossword, word search, comprehension quiz and answer key are also included.

When a young girl ventures through a hidden door, she finds another life with shocking similarities to her own. Coraline has moved to a new house with her parents and she is fascinated by the fact that their 'house' is in fact only half a house! Divided into flats years before, there is a brick wall behind a door where once there was a corridor. One day it is a corridor again and the intrepid Coraline wanders down it. And so a nightmare-ish mystery begins that takes Coraline into the arms of counterfeit parents and a life that isn't quite right. Can Coraline get out? Can she find her real parents? Will life ever be the same again?

Features 150 photographs by an award-winning photographer for National Geographic, offering a revealing portrait of the people and places she encountered during the three decades that she and her family traveled all over the world.

This is Charles Darwin's chronicle of his five-year journey, beginning in 1831, around the world as a naturalist on the H.M.S. Beagle.

Gravenstein. Coe's Golden Drop. Mendocino Cox. The names sound like something from the imagination of Tolkien or perhaps the ingredients in a dubious magical potion rather than what they are—varieties of apples. But as befits their enchanting names, apples have transfixed and beguiled humans for thousands of years. *Apple: A Global History* explores the cultural and culinary importance of a fruit born in the mountains of Kazakhstan that has since traversed the globe to become a favorite almost everywhere. From the Garden of Eden and Homer's *Odyssey* to Johnny Appleseed, William Tell, and even Apple Computer, Erika Janik shows how apples have become a universal source of sustenance, health, and symbolism from ancient times to the present day. Featuring many mouthwatering illustrations, this exploration of the planet's most popular fruit includes a guide to selecting the best apples, in addition to apple recipes from around the world, including what is believed to be the first recorded apple recipe from Roman gourmand Marcus Apicius. And Janik doesn't let us forget that apples are not just good eating; their juice also makes for good drinking—as the history of cider in North America and Europe attests. Janik grew up surrounded by apple iconography in Washington, the "apple state," so there is no better author to tell this fascinating story. Readers will eat up this surprising and entertaining tale of a fruit intricately linked to human history.

Reading Explorer, a six-level reading series, prepares learners for academic success with highly visual, motivating National Geographic content that features real people, places, and stories.
