The riveting story of the American scientists, tinkerers, and nerds who solved one of the biggest puzzles of World War II—and developed one of the most powerful weapons of the war 12 Seconds of Silence is the remarkable, lost story of how a ragtag group of American scientists overcame one of the toughest problems of World War II: shooting things out of the sky. Working in a secretive organization known as Section T, a team of physicists, engineers, and everyday Joes and Janes took on a devilish challenge. To help the Allies knock airplanes out of the air, they created one of the world's first “smart weapons.” Against overwhelming odds and in a race against time, mustering every scrap of resource, ingenuity, and insight, the scientists of Section T would eventually save countless lives, rescue the city of London from the onslaught of a Nazi superweapon, and help bring about the Axis defeat. A holy grail sought after by Allied and Axis powers alike, their unlikely innovation ranks with the atomic bomb as one of the most revolutionary technologies of the Second World War. Until now, their tale was largely untold. For fans of Erik Larson and Ben Macintyre, set amidst the fog of espionage, dueling spies, and the dawn of an age when science would determine the fate of the world, 12 Seconds of Silence is a tribute to the extraordinary wartime mobilization of American science and the ultimate can-do story.

And, behold, I come quickly; and my reward is with me, to give to every man according as his work shall be. —Revelation 22:12 KJV Are you prepared for the return of Jesus Christ? People have talked about it, read, wrote, sung, joked, and made movies about it. In March 2006, author Sarah A. Jones heard a voice in her dream say to her, “Let your testimony be: ‘Jesus Christ is Coming!’ The people must be told so that they can be prepared upon His arrival.” Therefore she has written this book about His return; what we can do according to God’s word to be prepared for this inevitable event; and what will happen to those who are not prepared. A MUST READ! I pray that this book will bless you, enlighten, and inspire you to seek God, and draw closer to Him in hope that you will be prepared for Jesus’ arrival. Allow God to speak to your heart as you read with expectation to hear and receive from Him. You will be amazed, and your life will never be the same. We guarantee it! Time is running out. Believe it or not; prepared or not; Jesus Christ is coming! For He is coming, for He is coming to judge the earth. He shall judge the world with righteousness, and the peoples with His truth. —Psalm 96:13 NJKV

Ready or Not made its mark in 2007 by boldly calling for a field-wide response to the question: “What defines and bounds early care and education as a field of practice?” A dozen years later, this question remains pivotal to the field’s understanding of its present and its aspirations for the future. In this updated and expanded edition, Goffin and Washington reunite to examine the major issues that must still be addressed if children are to be given more and better opportunities. This second edition will help everyone whose work impacts the ECE workforce, including those working directly with children, to deepen their commitment to adaptive and systems work and to develop the leadership capacity needed to become change agents. Ready or not, early childhood education needs to tackle its adaptive challenges. Nothing less will enable it to shift the field’s developmental trajectory, fulfill its potential, and satisfy its obligations to children, families, and society. “The second edition of Ready or Not is a reflective self-examination of the field of early care and education. It is a must-read book.” —Marquita Furness Davis, Bill & Melinda Gates Foundation “Goffin and Washington boldly identify the barriers and opportunities we face.” —Anne Douglass, University of Massachusetts Boston “A must-read for those that are invested in early care and education.” —Tracy Ehlert, State Representative for Iowa House District 70, Cedar Rapids, IA “A must-read for everyone who is committed to the field’s success.” —Ariel Ford, Office of Early Learning, City of Chattanooga

Phonographies explores the numerous links and relays between twentieth-century black cultural production and sound technologies from the phonograph to the Walkman. Highlighting how black authors, filmmakers, and musicians have actively engaged with recorded sound in their work, Alexander G. Weheliye contends that the interplay between sound technologies and black music and speech enabled the emergence of modern black culture, of what he terms “sonic Afro-modernity.” He shows that by separating music and speech from their human sources, sound-recording technologies beginning with the phonograph generated new modes of thinking, being, and becoming. Black artists used these new possibilities to revamp key notions of modernity—among these, ideas of subjectivity, temporality, and community. Phonographies is a powerful argument that sound technologies are integral to black culture, which is, in turn, fundamental to Western modernity. Weheliye surveys literature, film, and music to focus on engagements with recorded sound. He offers substantial new readings of canonical texts by W. E. B. Du Bois and Ralph Ellison, establishing dialogues between these writers and popular music and film ranging from Louis Armstrong’s voice to DJ mixing techniques to Darnell Martin’s 1994 movie *I Like It Like That*. Looking at how questions of diasporic belonging are articulated in contemporary black musical practices, Weheliye analyzes three contemporary Afro-diasporic musical acts: the Haitian and African American rap group the Fugees, the Afro- and Italian-German rap collective Advanced Chemistry, and black British artist Tricky and his partner Martina. Phonographies imagines the African diaspora as a virtual sounding space, one that is marked, in the twentieth century and twenty-first, by the circulation of culture via technological reproductions—records and tapes, dubbing and mixing, and more.

WORLD GOVERNMENT, READY OR NOT! is the first how-to-do-it and how-it-is-being done book on the making of world peace through government of, by, and for the citizens of the world

recounted in masterful detail by a veteran of over 50 years experience in the "field." WWII bomber pilot Garry Davis, in 1948 took Emery Reves (Anatomy of Peace) at his word first that "...the ideal of the nation-state is bankrupt.." and second that "There is no first step to world government. World Government is the first step." The eclectic Renaissance Man, stateless World Citizen Davis "lives" the future today treating philosophy, law, economics, travel, space, history and more with equal ease and insight. Moreover, as a world activist, he has seen the inside of over 30 national prisons. E. B. White wrote that "Davis marches to the beat of the Universe while we all march to a broken drum." "The birth pangs of the new world order are already upon us," Davis writes in the Prologue, "and as necessity knows no law but its own, we are too busy attending to that long-heralded and momentous birth to still the shrill cries of infidelity." WORLD GOVERNMENT, READY OR NOT! is a book for the 21st century and beyond.

Hope Sanders wants nothing more than to keep her head down and craft a better life for herself running everyone's favorite nightspot. That means ignoring the groupies that flock to the bar to stare at her all night. However, an uptight brunette has snagged Hope's attention and she knows a challenge when she sees it. A Soho Loft Romance.

What if we are the chosen generation upon whom the end of the world has come? Could we be living on the brink of the beginning of the future? How much worse can society get before Jesus Christ returns? Has the gospel reached everyone? The more I study Scripture and watch current events unfold, the more I realize how much closer we are to the second coming of Jesus Christ. We may very well be the generation that sees all these things come to pass. And since I believe we could be just moments away from all that the Bible prophesies regarding the end of the world, I want to do my part to prepare God's church. That's the hope I have with this book—that you will come to an accurate, Biblical understanding of God's Word and be ready to meet Jesus in the air at His return.

Paul and Hjordy Wagner know what it's like to have a child come out- they have had that conversation not once, but twice. Both their sons, Brad and Andrew are gay. The Wagners quickly embraced their sons' sexuality, but they soon realized that for other families, the transition was not as smooth. Many young gay people today muster the courage to come out to family and are made to feel ostracized and abandoned by loved ones as a result. In Ready or Not. They're Gay, the Wagners share their own journey to acceptance of their sons' sexual identity with the hope that other families will be better equipped to approach the news of a gay child or loved one in a healthy, positive way. Including a range of perspectives on the

experience from their circle of family and friends, they offer guidance for parents and teachers of gay children and tips from the GLBT community on how to make the coming-out talk easier on both parties.

Are you ready for Jesus' Second Coming? I am utterly convinced that if Jesus returned today, most of the people who call themselves Christians would be lost. While they believe themselves to be saved, and are told by their church that they are saved, they do not pass the test the Jesus left for us. The Bible tells us that Jesus himself will judge us according to his words. But Jesus' words have been set aside by the church as the church points people to walk on the Broad way that will lead to destruction. Which road are you on? This book is a must read because your eternal life depends on your response to the the teachings of Jesus as I illustrate in this book. This book will show you where the 'church' has gone wrong and how to get through the Narrow Gate on to the Narrow way that leads to life. I will also share with you how the church today is Laodicea.

Now a high school junior, Samantha tries to decide whether she is ready to have sex with her boyfriend, who happens to be the president's son.

Eschatology is only a part of the total program of God. We need to gain the perspective of God's plan from everlasting to everlasting. Jesus Christ is the Alpha and Omega—the Beginning and the End. The study of the Second Coming forces the enquirer to reflect on the whole picture of the comprehensive plan of God for the redemption of the world, with a very clear sense of direction from the Creation of the world, through the events of the Cross, through to the Coming of Christ to reign on the earth. To trivialise the Second Coming, is to demean the whole program of God, and to thereby debase my existence and purpose as a Christian. Further, it demeans the whole of God's revelation through His word the Bible. Unashamedly the Word of God is quoted extensively throughout this book. It is the only authority for the whole scenario of God's plan. This book is comprehensive in its coverage of the whole spectrum of the Kingdom of God, from the creation to the consummation of the kingdom into the Eternal State. A failure to appreciate God's original purpose for the creation, emasculates any understanding of the direction and purpose of God's program. God's Kingdom is expressed in the Old Testament through His chosen people Israel, and they figure significantly in the whole eschatological program. Jesus' first Coming to inaugurate His Kingdom gives important perspective to His Second Coming to consummate His Kingdom. The creation of the church as a manifestation of His body, is essential to the understanding of the events of the Rapture and the Bema Judgment in particular.

Everybody recognizes that something big is about to happen. But what is it, and how does one prepare for it? As the grand moment of Christ's return draws near, many are stirred by a satanic urgency. At its most extreme the false preparation can lead to self-destruction, as with the Heaven's Gate commune. At its most orthodox the false preparation leads many good Christians to depend upon their own obedience. Ready or Not is author G. Edward Reid's summation of the imperatives presented in his best-selling books Even at the Door and Sunday's Coming! The proof is overwhelming that the day of the Lord is fast upon us.

Come along on a journey of faith to discover the secrets of preparation. If you have read Even at the Door or Sunday's Coming! you have been convicted that the end of all things is at hand. Ready or Not is G. Edward Reid's best book yet.

"Children today grow up so fast!" How often we hear those words, uttered both in frustrated good humor and in dumbfounded astonishment. Every day the American people hear about kids doing things, both good and bad, that were once thought to be well beyond their scope: flying airplanes, running companies, committing mass murder. Creatures of the information age, today's children sometimes seem to know more than their parents. They surf the Internet rather than read books, they watch South Park instead of The Cosby Show, they wear form-fitting capri pants and tank tops instead of sundresses; in short, they are sophisticated beyond their years. These facts lead us to wonder: Is childhood becoming extinct? In *Ready or Not*, Kay S. Hymowitz offers a startling new interpretation of what makes our children tick and where the moral anomie of today's children comes from. She reveals how our ideas about childrearing itself have been transformed, perniciously, in response to the theories of various "experts" -- educators, psychologists, lawyers, media executives -- who have encouraged us to view children as small adults, autonomous actors who know what is best for themselves and who have no need for adult instruction or supervision. Today's children and teenagers have been encouraged by their parents and teachers to function as individuals to such an extent that they make practically every decision on their own -- what to wear, what to study, and even what values they will adhere to. The idea of childhood as a time of limited competence, in which adults prepare the young for maturity, has fallen into disrepute; independence has become not the reward of time, but rather something that our children have come to expect and demand at increasingly younger ages. One of the great ironies of turning our children into small adults is that American society has become less successful at producing truly mature men and women. When sophisticated children do grow up, they often find themselves unable to accept real adult responsibilities. Thus we see more people in their twenties and thirties living like children, unwilling to embark on careers or to start families. Until we recognize that children are different from grownups and need to be nurtured as such, Hymowitz argues, our society will be hollow at its core. Read the detailed, precise frame of reference of where this generation stands on God's prophetic timeline Discover how each chapter points specifically to what the strange, troubling things happening in a world seemingly gone insane with unstoppable violence means for the immediate future and beyond Reflect on the very Word of God —the Bible— in pointing to the only hope the reader and those he or she loves has for escaping God's righteous judgment that is about to fall on a rebellious world. *Rapture Ready...or Not* is for this generation of readers

who are confused and look upon a world that seems to have destroyed opportunity for a bright, abundant future. The Rapture is about to catastrophically strike an unsuspecting world of both unbelievers and believers. Jesus Christ is the Shelter from the coming Tribulation storm of God's wrath and judgment. What a difference a day can make. Events that happen to us on any given day can change our lives forever. What about the day after high school graduation? What about the day after you get married? But there is another day coming, which will come without warning and change the whole world overnight. It will be the end of this age. You will either be ready for it and survive or not be ready and endure the result. Author Lloyd J. Vogan's *Ready or Not, Here I Come* is about how to survive the future—your future. REVISED WITH NEW MATERIAL TO HELP PARENTS THROUGH THE PANDEMIC ERA The New York Times bestselling author of *The Price of Privilege* and *Teach Your Children Well* explores how today's parenting techniques and our myopic educational system are failing to prepare children for their certain-to-be-uncertain future—and how we can reverse course to ensure their lasting adaptability, resilience, health and happiness. In *The Price of Privilege*, respected clinician, Madeline Levine was the first to correctly identify the deficits created by parents giving kids of privilege too much of the wrong things and not enough of the right things. Continuing to address the mistaken notions about what children need to thrive in *Teach Your Children Well*, Levine tore down the myth that good grades, high test scores, and college acceptances should define the parenting endgame. In *Ready or Not*, she continues the discussion, showing how these same parenting practices, combined with a desperate need to shelter children from discomfort and anxiety, are setting future generations up to fail spectacularly. Increasingly, the world we know has become disturbing, unfamiliar, and even threatening. In the wake of uncertainty and rapid change, adults are doubling-down on the pressure-filled parenting style that pushes children to excel. Yet these daunting expectations, combined with the stress parents feel and unwittingly project onto their children, are leading to a generation of young people who are overwhelmed, exhausted, distressed—and unprepared for the future that awaits them. While these damaging effects are known, the world into which these children are coming of age is not. And continuing to focus primarily on grades and performance are leaving kids more ill-

prepared than ever to navigate the challenges to come. But there is hope. Using the latest developments in neuroscience and epigenetics (the intersection of genetics and environment), as well as extensive research gleaned from captains of industry, entrepreneurs, military leaders, scientists, academics, and futurists, Levine identifies the skills that children need to succeed in a tumultuous future: adaptability, mental agility, curiosity, collaboration, tolerance for failure, resilience, and optimism. Most important, Levine offers day-to-day solutions parents can use to raise kids who are prepared, enthusiastic, and ready to face an unknown future with confidence and optimism.

The severe budget cuts by fed., state, and local governments are leaving public health (PH) departments understaffed and without the basic capabilities required to respond to crises. Nearly 10 years ago during the 9/11 and anthrax tragedies, it became clear the PH system was out-of-date to face modern health threats -- and an historic investment was made to help upgrade the system. Significant progress was made to improve how we prevent, identify, and contain new disease outbreaks and bioterrorism threats and respond to the aftermath of natural disasters. Now, the economic situation is putting almost a decade of gains at risk. The latest budget cuts will exacerbate the vulnerable areas in U.S. emergency health preparedness. A print on demand report.

An original collection of stories, reflections, meditations, poems, songs and dialogues about recalling the wisdom of our own childhood thoughts and being open to what children in our midst have to share with us about God, faith, life, death and spirituality.

THE WAY OF LIGHT: The Way of Light focuses on the true Light (John 1:9) of the world (John 9:5) who came to enlighten every man to take him/her out of darkness (John 8:12). Any who do come to believe in the Light (Jesus) become sons and daughters of the Light, in fact children of the Light (1 Thessalonians 5:5). They will become Light bearers and shine as light in the world (Philippians 2:15). On numerous occasions within the context of these essays, the reader will encounter absolute truths regarding His being the Light. Readers will encounter various Scriptures which will testify to the claims Jesus made regarding His being the Saviour of the world. Most essays contain a minimum of 400 words, although some will be longer in length. Each essay will point the way to the Light (Jesus) in countless examples throughout the course of the book. For those who already follow the way of the Light (Jesus), they will discover examples as to how to share the Light (Jesus) with friends, family, relatives and associates. The Scripture states that none can come to Jesus unless the Father draws him/her (John 6:44) and that to be drawn into believing (faith) comes by the word of God (Romans 10:17). Many events point to a soon return of Jesus Christ who is the way, the truth and the life (John 14:6). THE WAY OF LIGHT in each of its individual compositions will point the reader to the true Way of Light.
