Papus' 1893 book on Magic was the first to bring together all the Grimoires into one book, and provide a clear path of study to perform the Solomonic Rites. He brings his scientific mind to argue that experimentation in the astral is just as important as scientific inquiry, as he takes us on a fascinating journey through late 19th Century France.

In a probing biography of her native land, Ayesha Jalal provides a unique insider's assessment of how the nuclear-armed Muslim nation of Pakistan evolved into a country besieged by military domination and militant religious extremism, and explains why its dilemmas weigh so heavily on prospects for peace in the region.

In a dank basement in Denver, Colorado, in the summer of 2001, a group of friends attempted to contact a dead French artist on the Ouija board as part of a research project about the Holy Grail. They were hoping to get help decoding an historic occult mystery pertaining to the royal bloodline of France. They had no idea they were opening a portal to Hell. What followed was a 13-year adventure into the supernatural, trailing mysterious clues given to them from beyond the veil. Join Tracy, Brian, and the

This historical-critical study of the Gospel of John and the First Epistle of John challenges the commonly held view that the first Johannine epistle is related to the Gospel. Sproston argues that the two writings are indirectly related through a common Johannine tradition. A comparison of the two therefore allows traditional material in the evangelist's work to be isolated, enhancing our understanding of the creative processes involved in its composition. The account of the raising of Lazarus is rigorously analysed as a test case for this kind of analysis.

Algerian diaspora is examined from reasons based on military service, asylum seeking, captivity and imprisonment, travel for commerce, study, or religious purpose, and labor migration. The author reviews these factors and provides an in-depth analysis of the results of these crossings, from problematic efforts to secure external support for political projects through building interfaith dialogue and the exploration of new ideas to the emergence of new communities. He also investigates the return of border crossers to Algeria and the challenges they face in adapting to new environments, whether negotiating alliances, engaging in dialogue, or simply seeking legal acceptance. He concludes with a discussion of the last few decades of Algerian history. He explores how Algerian intellectuals operated outside of the country's borders, spurred on by the rise of Islamism as well as by freer dialogues with Western powers, specifically Britain and the United States. The result is an exciting new history of Algeria that demonstrates just how much its citizens' engagement with other societies has transformed the country.

When Muslim women from diverse national and cultural contexts meet one another through transnational dialogue and networking, what happens to their sense of identity and social agency? Addressing this question, Meena Sharify-Funk encountered women activists and intellectuals

in North America, the Middle East, South Asia and Southeast Asia - women whose lives and visions have become linked by 'the transnational' despite their differing circumstances and intellectual backgrounds. The resultant work provides a rich and cliché-bursting account of women's reflections on a wide range of topics including: the status of women in Islam, the role of women as interpreters of religious norms, the relationship between secular and religious forms of self-identification, perceptions of Islamic-Western relations, experiences of marginalization, and opportunities for empowerment. Giving careful attention both to common threads in Muslim women's experiences and to the unique voices of remarkable women, this is a compelling account of conversations that are bringing new energy and dynamism into women's activism in a world of collapsing distances.

Sufism is typically thought of as the mystical side of Islam. In recent years, it has been held up as a supposedly peaceful alternative to the spread of forms of Islam associated with violence, an embodiment of democratic ideals of tolerance and pluralism. Are Sufis in fact as otherworldly and apolitical as this stereotype suggests? Modern Sufis and the State brings together a range of scholars, including anthropologists, historians, and religious-studies specialists, to challenge common assumptions that are made about Sufism today.

Focusing on India and Pakistan within a broader global context, this book provides locally grounded accounts of how Sufis in South Asia have engaged in politics from the colonial period to the present. Contributors foreground the effects and unintended consequences of efforts to link Sufism with the spread of democracy and consider what roles scholars and governments have played in the making of twenty-first-century Sufism. They critique the belief that Salafism and Sufism are antithetical, offering nuanced analyses of the diversity, multivalence, and local embeddedness of Sufi political engagements and self-representations in Pakistan and India. Essays question the portrayal of Sufi shrines as sites of toleration, peace, and harmony, exploring cases of tension and conflict. A wide-ranging interdisciplinary collection, *Modern Sufis and the State* is a timely call to think critically about the role of public discourse in shaping perceptions of Sufism.

The al-Qaeda Organization (AQO) and the Islamic State Organization (ISO) are transnational adversaries that conduct terrorism in the name of Sunni Islam. It is declared U.S. Government (USG) policy to degrade, defeat, and destroy them. The present book has been written to assist policymakers, military planners, strategists, and professional military educators whose

mission demands a deep understanding of strategically-relevant differences between these two transnational terrorist entities. In it, one shall find a careful comparative analysis across three key strategically relevant dimensions: essential doctrine, beliefs, and worldview; strategic concept, including terrorist modus operandi; and specific implications and recommendations for current USG policy and strategy. Key questions that are addressed include: How is each terrorist entity related historically and doctrinally to the broader phenomenon of transnational Sunni "jihadism"? What is the exact nature of the ISO? How, if at all, does ISO differ in strategically relevant ways from AQO? What doctrinal differences essentially define these entities? How does each understand and operationalize strategy? What critical requirements and vulnerabilities characterize each entity? Finally, what implications, recommendations, and proposals are advanced that are of particular interest to USG strategists and professional military educators? This is the definitive guide to the theories and concepts that make up the dynamic field of translation studies. Providing an accessible and fully up-to-date overview of key movements and theorists within an expanding area of study, this textbook has become a key source for generations of translation students on both professional and university courses. With the increasing Muslim diaspora in post-modern Western societies, Sufism – intellectually as well as sociologically – may eventually become Islam itself due to its versatile potential. Although Sufism has always provoked considerable interest in the West, no volume has so far been written which discusses this aspect of Islam in terms of how it is practised in Western societies. Bringing together leading international authorities to survey the history of Islamic mysticism in North America and Europe, this book elaborates the ideas and institutions which organize Sufism and folk-religious practices. The chapters cover: the orders and movements their social base organization and institutionalization recruitment-patterns in new environments channels of disseminating ideas, such as ritual, charisma, and organization reasons for their popularity among certain social groups the nature of their affiliation with the countries of their origin. Providing a fascinating insight into how Sufism operates within different spheres of society, Sufism in the West is essential reading for students and academics with

Sufism formed one of the cultures of resistance which has existed in the social fabric of Persia since antiquity. Such resistance continues to manifest itself today with many looking to Sufism as a model of cooperation between East and West, between traditional and modern. 'Sufism in the Secret History of Persia' explores the place of Sufi mysticism in Iran's intellectual and spiritual consciousness through traditional and contemporary Sufi thinkers and writers. Sufism in the Secret History of Persia examines the current of spirituality which extends from the old Iranian worship of Mithra to modern Islam. This current always contains elements of gnosis and inner knowing, but has often provided impetus for socio-political resistance. The study describes how these persisting pre-Islamic cultural and socio-religious elements have secretly challenged Muslim orthodoxies and continue to shape the nature and orientation of contemporary Sufism.

Today, more than ever, jihad signifies the political opposition between Islam and the West. As the line drawn between Muslims and non-Muslims becomes more rigid, Jalal seeks to retrieve the ethical meanings of this core Islamic principle in South Asian history.

Drawing on historical, legal, and literary sources, Jalal traces the intellectual itinerary of jihad through several centuries and across the territory connecting the Middle East with South Asia.

A provocative and heart-wrenching novel about family, loss, and loyalty from acclaimed and bestselling author Chris Crutcher. Losers Bracket is the powerful and gripping new novel by the author of Staying Fat for Sarah Byrnes and Whale Talk. When it comes to family, Annie is in the losers bracket. While her foster parents are great (mostly), her birth family would not have been her first pick. And no matter how many times Annie tries to write them out of her life, she always gets sucked back into their drama. Love is like that. But when a family argument breaks out at Annie's swim meet and her nephew goes missing, Annie might be the only one who can get him back. With help from her friends, her foster brother, and her social service worker, Annie puts the pieces of the puzzle together, determined to find her nephew and finally get him into a safe home. Award-winning author Chris Crutcher's books are strikingly authentic and unflinchingly honest. Losers Bracket is by turns gripping, heartbreaking, hopeful, and devastating, and hits the sweet spot for fans of Andrew Smith and Marieke Nijkamp.

"This book is likely to become the future point of reference for scholarship on environmental issues in Israel. Tal combines his extensive inside knowledge with broad and thorough research to take the reader clearly through a complex fabric of personalities,

organizations, and issues."—Stuart Schoenfeld, York University "This is truly an excellent book. It is the first treatment of the whole array of environmental issues in Israel, and in its historical context – an absolute necessity. Extremely well-written and in fact hard to put down, this book is useful on many levels, for United Nations Agencies and development officials, Israeli and Palestinian government officials, and environmentalists and teachers around the world."—Brock Evans, Executive Director, The Endangered Species Coalition and author of many articles and books on the politics of the environment "Pollution in a Promised Land is an innovative book, and an important one, by perhaps the most prominent environmental activist in Israel. Tal's approach is to take an "eagle's eye view" of his vast subject, now gliding far above, providing overview, now swooping down very close and, through interviews or anecdotes, describing his subject with great immediacy and in memorable detail."—Noah J. Efron, Bar Ilan University "Anyone who cares about the land of Israel should read Pollution in a Promised Land. It is critical to understanding the social, political, and scientific dimensions of the country's environmental challenges as well as the country's remarkable ecological achievements. Alon Tal is uniquely qualified to present this fascinating and dramatic environmental history."—Tzachi Hanegbi, Minister of the Environment, Israel

This is the most exhaustive study ever written on the history and origins of Baphomet, worshipped by the Knights Templar. This investigation into the roots of the figure deals with Gnosticism, Hermeticism, alchemy, demonology, Cabalism, Sufism, the Yezidis, the Mandaeans, the Assassins, Freemasonry, witchcraft, Satanism, and biblical mysteries.

This volume explores the theoretical foundation and undercurrents of translation in diverse postcolonial contexts. In doing so the authors examine complex sequences of intercultural contact and encroachment, fusion, and breach. The impact that history and political relations have had on the role of translation in the evolution of literary and cultural relations is demonstrated and examined in detail. A strength of this collection of essays lies in the various postcolonial contexts it deals with the challenges posed to the commonly held views on postcolonial theory.

As God is All-Knowing and Changeless, and human nature and needs are basically the same at all times, Islam believes that God's Message is the same for all humanity. Islam represents itself as a universal and perpetual message, preached not only by Prophet Muhammad, but by all the prophets of God before Muhammad, whose true followers were essentially Muslims, that is, they surrendered to God alone. This booklet gives an overview of the

universal message of Islam and its main components.

This text covers the field of translation applied to information, human relations and literature. It is illustrated with examples and quotations. The content of the book covers the following subject areas: translation topics such as examining, assessing, capitalization, emphasis, idiolect, grecolatinisms across languages, the small print, eponyms and howlers; translation theory: differences between good and bad translation, good and bad writing, literary and non-literary texts and translations, cultural and universal factors; translation as a matter of public interest in the European Union and national parliaments, as well as in museums and art galleries; and critical discussion of recently published books and conference proceedings.

Boris Vian is a rare phenomenon. Nothing short of a national treasure in France, he is hardly known overseas. In his lifetime, he divided literary opinion with masterpieces that failed to sell and best sellers that caused outrage, trials and even deaths, including his own. As an impresario, he became the figurehead of the jazz scene that marked the French left bank at the end of the Second World War and was responsible for bringing Duke Ellington and Miles Davis to France. As a musician, he played his trumpet against the advice of cardiologists, sang

pacifist songs before audiences of outraged patriots and, in passing, created French rock 'n' roll.

Posthumously, he became known for his theatre, film scripts and poetry as well as for his novels. And in May '68 he became a revolutionary icon.

The Convergence of Judaism and Islam offers fifteen interdisciplinary studies that investigate the complex relationships between the cultures of Jews and Muslims during the medieval and early modern periods. They reveal that, for the most part, Jewish-Muslim relations were peaceful and involved intellectual and professional cooperation. Eschewing a chronological approach and featuring contributions from European, Israeli, and North American scholars, including veterans and recent PhDs, the volume makes many fascinating and stimulating juxtapositions. To give one example, chapters on early Islam and the shaping of Jewish-Muslim relations in the Middle Ages shed light on the legal battles over the status of synagogues in twentieth-century Yemen or the execution of a fourteen-year-old girl in nineteenth-century Morocco. Sure to provoke controversy and discussion, this volume focuses on a period of free exchange between these two cultures that resulted in some of the most seminal breakthroughs in math, science, and medicine the world has known.

When Simon Majumdar hit forty, he realized there had to be more to life than his stable but uninspiring

desk job. As he wondered how to escape his career, he rediscovered a list of goals he had scrawled out years before, the last of which said: Go everywhere, eat everything. With that, he had found his mission -- a yearlong search for the delicious, and curious, and the curiously delicious, which he names Eat My Globe and memorably chronicles in these pages. In Majumdar's world, food is everything. Like every member of his family, he has a savant's memory for meals, with instant recall of dishes eaten decades before. Simon's unstoppable wit and passion for all things edible (especially those things that once had eyes, and a face, and a mom and a pop) makes this an armchair traveler's and foodie's delight -- Majumdar does all the heavy lifting, eats the heavy foods (and suffers the weighty consequences), so you don't have to. He jets to thirty countries in just over twelve months, diving mouth-first into local cuisines and cultures as different as those of Japan and Iceland. His journey takes him from China, where he consumes one of his "Top Ten Worst Eats," stir-fried rat, to the United States, where he glories in our greatest sandwiches: the delectable treasures of Katz's Delicatessen in Manhattan, BBQ in Kansas and Texas, the still-rich po' boys of post-Katrina New Orleans. The meat of the story -- besides the peerless ham in Spain, the celebrated steaks of Argentina, the best of München's wursts as well as their descendants, the famous hot dogs of

Chicago -- is the friends that Simon makes as he eats. They are as passionate about food as he is and are eager to welcome him to their homes and tables, share their choicest meals, and reveal their local secrets. Also a poignant memoir, *Eat My Globe* is a life told through food and spiced with Majumdar's remembrances of foods past, including those from his colorful childhood. (Raised in Northern England, he is the son of a fiery Welsh nurse and a distinguished Bengali surgeon.) A captivating look at one man's passion for food, family, and unique life experiences, *Eat My Globe* will make you laugh -- while it makes you hungry. It is sure to satiate any gastronome obsessed with globetrotting -- for now.

In "Islam Unveiled," Robert Spencer dares to face the hard questions about what the Islamic religion actually teaches--and the potentially ominous implications of those teachings for the future of both the Muslim world and the West. Going beyond the shallow distinction between a "true" peaceful Islam and the "hijacked" Islam of terrorist groups, Spencer probes the Koran and Islamic traditions (as well as the history and present-day situation of the Muslim world) as part of his inquiry into why the world's fastest growing faith tends to arouse fanaticism. "Islam Unveiled" evaluates the relationship between Islamic fundamentalism and "mainstream" Islam; the fixation with violence and jihad; the reasons for Muslims' disturbing treatment of women; and devastating effects of Muslim polygamy and Islamic divorce laws. Spencer explores other daunting

questions--why the human rights record of Islamic countries is so unrelievedly grim and how the root causes of this record exist in basic Muslim beliefs; why science and high culture died out in the Muslim world--and why this is a root cause of modern Muslim resentment. He evaluates what Muslims learn from the life of Muhammad, the man that Islam hails as the supreme model of human behavior. Above all, this provocative work grapples with the question that most preoccupies us today: can Islam create successful secularized societies that will coexist peacefully with the West's multicultural mosaic?

Renowned as Spain's *The Catcher in the Rye*, this passionate coming-of-age novel follows a rebellious college-age girl as she uncovers her family's secrets in chaotic, polarized, post-Civil War Barcelona. Andrea, an eighteen-year-old orphan, moves in with her volatile Barcelona relatives to attend the local University. Living in genteel squalor in a mysterious house on Calle de Aribau, Andrea relies on her wealthy, beautiful, bohemian friend Ena to prove that normal life exists beyond the gothic dwelling she calls home. In one year, as her innocence melts away, Andrea learns the truth about her overbearing and religious Aunt Angustias, her cruelly sensual, musically gifted uncle Román and his violent brother Juan, and her lovely Aunt Gloria, who provides the family's bread with furtive gambling expeditions. She also learns the truth about Ena—and why her friendship goes hand in hand with her interest in Andrea's family. Peppered with dark humor, energy, and hope, Carmen Laforet's stunning classic is the story of a

The Muqaddimah, often translated as "Introduction" or "Prolegomenon," is the most important Islamic history of the premodern world. Written by the fourteenth-century Arab scholar Ibn Khaldun, this work laid down the foundations of several fields of knowledge, including philosophy of history, sociology, ethnography, and economics. This first complete English translation was published in three volumes in 1958 as part of the Bollingen Series.

Similarities between esoteric and mystical currents in different religious traditions have long interested scholars. This book takes a new look at the relationship between such currents. It advances a discussion that started with the search for religious essences, archetypes, and universals, from William James to Eranos. The universal categories that resulted from that search were later criticized as essentialist constructions, and questioned by deconstructionists. An alternative explanation was advanced by diffusionists: that there were transfers between different traditions. This book presents empirical case studies of such constructions, and of transfers between Judaism, Christianity, and Islam in the premodern period, and Judaism, Christianity, and Western esotericism in the modern period. It shows that there were indeed transfers that can be clearly documented, and that there were also indeed constructions, often very imaginative. It also shows that there were many cases that were neither transfers nor constructions, but a mixture of the two.

Prior to 2011, popular imagination perceived the Muslim Middle East as unchanging and unchangeable, frozen in its own traditions and history. In *Life as Politics*, Asef Bayat argues that such presumptions fail to recognize the routine, yet important, ways in which ordinary people make meaningful change through everyday actions. First published just months before the Arab Spring swept

across the region, this timely and prophetic book sheds light on the ongoing acts of protest, practice, and direct daily action. The second edition includes three new chapters on the Arab Spring and Iran's Green Movement and is fully updated to reflect recent events. At heart, the book remains a study of agency in times of constraint. In addition to ongoing protests, millions of people across the Middle East are effecting transformation through the discovery and creation of new social spaces within which to make their claims heard. This eye-opening book makes an important contribution to global debates over the meaning of social movements and the dynamics of social change.

The ultimate source text of Enochian Magic never before available in book form • Contains the actual and complete Tables of Enoch given to Dr. John Dee by the Angels • Explains the difference between Dee's Tables of Enoch and the apocryphal Book of Enoch • Includes directions for powerful magic rituals and meditations using these tables • Presents a reconstruction of the possible 49th missing Table of Enoch Originally considered a vital part of inspirational literature used by the early church, the Book of Enoch never made it into the cannon or accepted books of the Old Testament because of its strange and mysterious content about Enoch's experiences in the higher realms, or heavens. The real Book of Enoch, which is a set of almost 100 mystical tables, was given again to humankind in the 1580s, when it was conveyed directly by angels to Dr. John Dee, a 16th-century mathematician, scientist, occultist, and the astrologer of Queen Elizabeth I. Called

“the most important book ever given to man by God” by Dee’s angelic messengers, the Book (or Tables) of Enoch is said to hold all the secrets of heaven and earth and the physical and spiritual realms. Decoding the Enochian Secrets reproduces for the first time ever the exact and complete copy of these tables, which are housed in the British Library. The tables are written in the handwriting of Dr. Dee and Edward Kelly, Dee’s assistant and scribe. The tables also include the phonetic pronunciations, written by Dee in the margins, of all the magical Enochian Calls. Covering the history of this Book or Tables of Enoch, John DeSalvo explains the difference between these tables and the apocryphal Book of Enoch and examines how later magicians such as Aleister Crowley used them. Including Enochian Magic Meditations and rituals, Decoding the Enochian Secrets presents the source text to the most powerful form of magic known to mankind.

evil eye, the production of amulets and other magical equipment, conjuring, wonder-working, dream interpretation, predicting the weather, casting lots, astrology, and physiognomy. The ten studies here are concerned with the pre-Islamic antecedents of such practices, and with the theory of magic in healing, the nature and use of amulets and their decipherment, the arts of astrometeorology and geomancy, the refutation of astrology, and the role of the astrologer in society. Some of the studies are highly illustrated, some long out of print, some revised or composed for this volume, and one translated into English for the first time. These fundamental investigations, together with the introductory bibliographic essay, are intended as a guide to the concepts, terminology, and basic scholarly literature of an important, but often overlooked, aspect of classical Islamic culture.

Summary: "Since the rise of the Taliban and Al Qaeda, the traditional Islamic schools known as the madrasa have frequently been portrayed as hotbeds of terrorism. For much longer, the madrasa has been considered by some as a backward and petrified impediment to social progress. However, for an important segment of the poor Muslim populations of Asia, madrasas constitute the only accessible form of education. This volume presents an overview of the madrasas in countries such as China, Indonesia, Malaysia, India and Pakistan."--Publisher description.
