In the Author's Hand: Holograph and Authorial Manuscripts in the Islamic Handwritten Tradition Frédéric Bauden,Elise Franssen,2019-12-16 Research that focuses on holograph, autograph and authorial manuscripts in Arabic handwritten script has been casual, although these manuscripts raise important and varied questions. In this volume nine contributions and case studies are gathered that address theoretical issues and convey different, disruptive perspectives. A particularly important subject of this book is the identification of an author's handwriting.

*Transcendental Magic* Éliphas Lévi,1923

Beyond Nature and Culture Philippe Descola,2013-08-01 "Gives to anthropological reflection a new starting point and will become the compulsory reference for all our debates in the years to come." —Claude Lévi-Strauss, on the French edition Beyond Nature and Culture has been a major influence in European intellectual life since its French publication in 2005. Here, finally, it is brought to English-language readers. At its heart is a question central to both anthropology and philosophy: what is the relationship between nature and culture? Culture—as a collective human making, of art, language, and so forth—is often seen as essentially different from nature, which is portrayed as a collective of the nonhuman world, of plants, animals, geology, and natural forces. Philippe Descola shows this essential difference to be not only a Western notion, but also a very recent one. Drawing on ethnographic examples from around the world and theoretical understandings from cognitive science, structural analysis, and phenomenology, he formulates a sophisticated new framework, the "four ontologies" —animism, totemism, naturalism, and analogism—to account for all the ways we relate ourselves to nature. By thinking beyond nature and culture as a simple dichotomy, Descola offers a fundamental reformulation by which anthropologists and philosophers can see the world afresh. "A compelling and original account of where the nature-culture

binary has come from, where it might go—and what we might imagine in its place.” —Somatosphere “The most important book coming from French anthropology since Claude Lévi-Strauss’s *Anthropologie Structurale*.” —Bruno Latour, author of *An Inquiry into Modes of Existence* “Descola’s challenging new worldview should be of special interest to a wide range of scientific and academic disciplines from anthropology to zoology . . . Highly recommended.” —Choice

*Shag: A-Z*, 2008 by Shag Shag: A to Z presents, quite simply, 26 original paintings corresponding to the letters of the alphabet. Each painting is accompanied by a short verse extolling the pleasures of a hedonistic lifestyle and the virtues of overindulgence. Shag has spent the last decade creating a body of work based on his idiomatic aesthetic preferences, a world of mid-20th-century modern architecture and design, populated by hedonists, supplicants, and indifferent women.

**Wisdom of the Idiots** Idries Shah, 1989 Tales from the Sufi tradition, illustrating Sufi philosophy and ways of thinking.

*A Prayer for Spiritual Elevation and Protection* Muhyiddin Ibn 'Arabi, 2007-06-01 Widely used for centuries in Sufi circles, the prayer known as The Most Elevated Cycle (al-Dawr al-a'la) or The Prayer of Protection (Hizb al-wiqaya), written by the great Sufi master Muhyiddin Ibn 'Arabi, has never before been available in English. This book provides a lucid English translation and an edited Arabic text of this beautiful and powerful prayer. It includes a transliteration for those unable to read Arabic, who wish to recite the prayer in the original language. Showing the importance of Ibn 'Arabi's devotional teaching, the book explores the prayer's contemporary life, properties and historical transmission. It gives full details of generations of well-known scholars and Sufi masters who have transmitted the prayer, providing an intimate and fascinating insight into Islamic history.

*Mucusless Diet Healing System* Arnold Ehret, 2012-05-07 This scientific method of eating, developed by Ehret in 1922, presents a complete, workable program for cleansing, repairing, rebuilding, and maintaining a healthy body. *Africa Since 1935* Unesco. International Scientific Committee for the Drafting of a General History of Africa, 1999 The hardcover edition of volume 8 was published in 1994. This paperback edition is the eighth and final volume to be published in the UNESCO General History of Africa. *Local Knowledge* Clifford Geertz, 2008-08-04 In essays covering everything from art and common sense to charisma and

constructions of the self, the eminent cultural anthropologist and author of *The Interpretation of Cultures* deepens our understanding of human societies through the intimacies of local knowledge. A companion volume to *The Interpretation of Cultures*, this book continues Geertz's exploration of the meaning of culture and the importance of shared cultural symbolism. *Pendulum Magic for Beginners* Richard Webster, 2002 Using the ... techniques in this book, you can consult a pendulum for guidance, self-improvement, psychic development, and a wealth of other practical purposes ...--Back cover.

**Astronomy Across Cultures** Helaine Selin, 2012-12-06 *Astronomy Across Cultures: A History of Non-Western Astronomy* consists of essays dealing with the astronomical knowledge and beliefs of cultures outside the United States and Europe. In addition to articles surveying Islamic, Chinese, Native American, Aboriginal Australian, Polynesian, Egyptian and Tibetan astronomy, among others, the book includes essays on *Sky Tales and Why We Tell Them* and *Astronomy and Prehistory*, and *Astronomy and Astrology*. The essays address the connections between science and culture and relate astronomical practices to the cultures which produced them. Each essay is well illustrated and contains an extensive bibliography. Because the geographic range is global, the book fills a gap in both the history of science and in cultural studies. It should find a place on the bookshelves of advanced undergraduate students, graduate students, and scholars, as well as in libraries serving those groups.

101 Lessons of Spiritual Wisdom Paiva Netto, 2020-12-08 Our daily tribulations call for moments of retreat as we search for comfort for our Soul, a source of strength for victory. As we close ranks to build a new world—an urgent matter given today's absurdities—this challenging journey is filled with light when our struggle for Goodness finds resonance in the victorious wisdom of others who are also engaged in the same struggle. Over the decades, radio broadcaster, journalist, and writer Paiva Netto has offered his audience reflections of Peace through radio, TV, the Internet, and several publications. From his persevering dedication to Jesus, the Ecumenical Christ, the Divine Statesman, on behalf of happiness for the Eternal Spirit of human beings, words that inspire Souls emerge to engage everyone in the untiring practice of Goodness and to encourage us never to give up on the countless just causes that exist. Invest in yourself: set aside precious minutes of your day to meditate on each one of the 101 wise lessons presented in this book and feel invigorated to live the dawn of new times that are coming thanks to your solidary actions and to the fraternal achievements of so many other global citizens.

**The Craft of Sociology** Pierre Bourdieu, Jean-Claude Chamboredon, Jean Claude Passeron, 1991 The work of the French sociologist Pierre Bourdieu has emerged, over the last two decades, as one of the most substantial and innovative bodies of theory and research in contemporary social science. *The Craft of Sociology*, both a textbook and an original contribution to epistemology in social science, focuses on a basic problem of sociological research: the necessity of an epistemological break

with the preconstructed objects social practice offers to the researcher. Pierre Bourdieu and his co-authors argue in the epistemological tradition of scholars like Bachelard, Canguilhem, Koyre, a tradition that identifies the construction of the object as being the fundamental scientific act. Their way of discussing the issue makes it accessible not only to academics and experts of epistemology, but also to advanced students of social science, using for illustration a wide range of texts from the various social sciences as well as from philosophy of science. The book includes an interview with Pierre Bourdieu and an introduction by the editor to his sociological methodology.
