In 1903 the Wright brothers' airplane travelled a couple of hundred yards. Today fleets of streamlined jets transport millions of people each day to cities worldwide. Between discovery and application, between invention and widespread use, there is a world of innovation, of tinkering, improvement and adaptation. This is the world David Mowery and Nathan Rosenberg map out in Paths of Innovation, a tour of the intersecting routes of technological change. Throughout their book, Mowery and Rosenberg demonstrate that the simultaneous emergence of new engineering and applied science disciplines in the universities, in tandem with growth in the Research and Development industry and scientific research, has been a primary factor in the rapid rate of technological change. Innovation and

incentives to develop new, viable processes have led to the creation of new economic resources - which will determine the future of technological innovation and economic growth.

'This monograph was begun during my residence as Rogers Memorial Fellow at Harvard University, and is based mainly upon a study of the sources, i.e., national, State, and colonial statutes, Congressional documents, reports of societies, personal narratives, etc. The collection of laws available for this research was, I think, nearly complete; on the other hand, facts and statistics bearing on the economic side of the study have been difficult to find, and my conclusions are consequently liable to modification from this source. The question of the suppression of the slave-trade is so intimately connected with the questions as to its rise, the system of American slavery, and the whole colonial policy of the eighteenth century, that it is difficult to isolate it, and at the same time to avoid superficiality on the one hand, and unscientific narrowness of view on the other. While I could not hope entirely to overcome such a difficulty, I nevertheless trust that I have succeeded in rendering this monograph a small contribution to the scientific study of slavery and the American Negro.' William Edward Burghardt "W. E. B." Du Bois (1868 – 1963) was an American sociologist, historian, civil rights activist, Pan-Africanist, author, writer and editor. Born in Great Barrington, Massachusetts, Du Bois grew up in a relatively tolerant and integrated community. After completing graduate work at the University of Berlin and Harvard, where he was the first African American to earn a doctorate, he became a professor of history, sociology and economics at Atlanta University. Du Bois was one of the co-founders of the National Association for the Advancement of Colored People in 1909.

From one of the country's foremost experts on Shakespeare and theatre arts, actor, director, and master teacher Tina Packer offers an exploration—fierce, funny, fearless—of the women of Shakespeare's plays. A profound, and profoundly illuminating, book that gives us the playwright's changing understanding of the feminine and reveals some of his deepest insights. Packer, with expert grasp and perception, constructs a radically different understanding of power, sexuality, and redemption. Beginning with the early comedies (*The Taming of the Shrew*, *Two Gentlemen of Verona*, *The Comedy of Errors*), Packer shows that Shakespeare wrote the women of these plays as shrews to be tamed or as sweet little things with no definable independent thought, virgins on the pedestal. The women of the histories (the three parts of *Henry VI*; *Richard III*) are, Packer shows, much more interesting, beginning with Joan of Arc, possibly the first woman character Shakespeare ever created. In her opening scene, she's wonderfully alive—a virgin, true, sent from heaven, a country girl going to lead men bravely into battle, the kind of girl Shakespeare could have known and loved in Stratford. Her independent resolution collapses within a few scenes, as Shakespeare himself suddenly turns against her, and she yields to the common caricature of his culture and becomes Joan the Enemy, the Warrior Woman, the witch; a woman to be feared and destroyed . . . As Packer turns her attention to the extraordinary Juliet, the author perceives a large shift. Suddenly Shakespeare's women have depth of character, motivation, understanding of life more than equal to that of the men; once Juliet has led the way, the plays are never the same again. As Shakespeare ceases to write about women as predictable caricatures and starts writing them from the inside, embodying their voices, his women become as dimensional, spirited, spiritual, active, and sexual

as any of his male characters. Juliet is just as passionately in love as Romeo—risking everything, initiating marriage, getting into bed, fighting courageously when her parents threaten to disown her—and just as brave in facing death when she discovers Romeo is dead. And, wondering if Shakespeare himself fell in love (Packer considers with whom, and what she may have been like), the author observes that from Juliet on, Shakespeare writes the women as if he were a woman, giving them desires, needs, ambition, insight. *Women of Will* follows Shakespeare's development as a human being, from youth to enlightened maturity, exploring the spiritual journey he undertook. Packer shows that Shakespeare's imagination, mirrored and revealed in his female characters, develops and deepens until finally the women, his creative knowledge, and a sense of a larger spiritual good come together in the late plays, making clear that when women and men are equal in status and sexual passion, they can—and do—change the world. Part master class, part brilliant analysis—*Women of Will* is all inspiring discovery.

Flamboyant, cultured and refined, aristocracy is often seen as a national treasure. *Lords of Misrule* takes a different view and considers the role of an aristocracy behaving badly. This is a book about the political, social and moral failings of aristocracy and the ways in which they have featured in political rhetoric. Drawing on the views of critics of aristocracy, it explores the dark side of power without responsibility. Less 'patrician paragons' than dissolute and debauched debtors, the aristocrats featured here undermined, rather than

augmented, the fabric of national life. For the first time, *Lords of Misrule* recaptures the views of those radicals and reformers who were prepared to contemplate a Britain without aristocrats.

kidnap a weretiger unless you're ready to have your ass kicked... Bethany Black is a rookie cop in the New York Paranormal Police Department (PPD). She's fast as hell, tougher than nails, and she's got no problem with blowing up stuff. She also turns into a ferocious tiger when she gets sufficiently pissed off. New York City is where the supernatural mob snagged its foothold back in the day. Goblins had poured in from the Netherworld and taught locals how to properly manage the criminal climate. They sold protection, rattled cages, and raked their fingers across the back of honest society. It took years and tons of Paranormal Police Department officers to gain back control. But now the city is on the brink of falling apart. The PPD lost half its uniformed cops during an all-out war with a nasty mage, and the latest mob boss is looking to capitalize. Translation: Blood, blood, and a bit more blood. Too bad the mafia decided to kidnap Bethany's best friend. He's only one of two remaining weretigers in existence. She's the other. Remember what happens when Bethany gets pissed off? Yeah, well, she's seriously pissed off... If you like Jim Butcher, Michael Anderle, K.F. Breene, Ilona Andrews, Patricia Briggs, or Steve McHugh... you will love the first book in the New York Paranormal Police Department.

Questions for John P. Logsdon

Q: What do you enjoy most about writing the Paranormal Police Department with other authors?

A: It's flippin' fun as hell. We work out characters, plots, locations, and so on as a team. Then, the words hit the page and we roll along at breakneck speed because it's just a blast working together in this world!

Q: Why should readers want to jump into the world of the Paranormal Police Department?

A: A few reasons, actually. It's high-action, often hilarious, and just plain fun. On top of that, there are multiple precincts in the PPD for readers to enjoy. So, while this series of books covers Bethany Black and the New York PPD, there are different lead characters running the PPD precincts in the Badlands, Las Vegas, the Netherworld, Seattle, Shadow, and Southeast Asia. That means that readers who crave action and adventure are going to have tons of action-packed, laugh-out-loud stories to consume with a vengeance. We're already over twenty books in and there's a new book releasing every 2-3 weeks in 2018-2019.

Q: Anything else you'd like to leave readers with?

A: If you're into naughty humor and high-octane adventures, you need to give the Paranormal Police Department a shot. That's what all the authors in the PPD love to read, which means it's also what we love to write.
