Renaissance Woman: A Sourcebook is an invaluable collection of accounts of women and femininity in early modern England. The volume is divided thematically into nine sections, each with an accessible introduction, notes on sources and an annotated bibliography. The sections are: \* Theology \* Biology \* Conduct \* Sexuality and Motherhood \* Politics and Law \* Education \* Work \* Writing and Speaking \* Feminism Renaissance Woman: A Sourcebook brings together sources ranging from medical documents and political pamphlets to sermons and the Bible, as well as literary sources. Providing a historical context to issues of gender in the Renaissance, it will be essential reading for students of the period, gender studies and cultural history. This title was first published in 2002: Combining the approaches of historic scholarship and post-structural, feminist psychoanalytic theory to late 16th- and early 17th-century poetry by women, this book aims to make a unique contribution to the field of the study of early modern women's writings. One of the first to concentrate exclusively on early modern women's poetry, the full-length critical study to applies post-Lacanian French psychoanalytic theory to the genre. The strength of this study is that it merges analysis of socio-political constructions affecting early modern women poets writing in England with the psychoanalytic insights, specific to women as subjects, of post-Lacanian theorists Luce Irigaray, Helen Cixous, Julia Kristeva, and Rosi Braidotti.

Other Englands examines the rise of the early English utopia in the context of emergent capitalism. Above all, it asserts that this literary genre was always already an expression of social crisis and economic transition, a context refracted in the origin stories and imagined geographies common to its early modern form. Beginning with the paradigmatic popular utopias of Thomas More and Francis Bacon but attentive to non-canonical examples from the margins of the tradition, the study charts a shifting and, by the time of the English Revolution, self-critical effort to think communities in dynamic socio-spatial forms. Arguing that early utopias have been widely misunderstood and maligned as static, finished polities, Sarah Hogan makes the case that utopian literature offered readers and writers a transformational and transitional social imaginary. She shows how a genre associated with imagining systemic alternatives both contested and contributed to the ideological construction of capitalist

imperialism. In the early English utopia, she finds both a precursor to the Enlightenment discourse of political economy and another historical perspective on the beginnings and enduring conflicts of global capital.

English Romantic poetry from its beginnings and its flowering to the first signs of its decadence. Nearly all the famous pièces de résistance will be found here - 'Intimations of Immortality', 'The Ancient Mariner', 'The Tyger', excerpts from 'Don Juan' - as well as some less familiar poems. As far as possible the poets are arranged in chronological order, and their poems in order of composition, beginning with eighteenth-century precursors such as Gray, Cowper, Burns and Chatterton. Naturally most space has been given over to the major Romantics - Blake, Wordsworth, Coleridge, Byron, Shelley, Clare and Keats - although their successors, poets such as Beddoes and Poe, are included too, as well as early poems by Tennyson and Browning. In an excellent introduction David Wright discusses the Romantics as a historical phenomenon, and points out their central ideals and themes.

Whitney's two volumes of verse miscellany, 'Sweet Nosegay' (1573) and 'The Copy of a Letter' (1567), were part of a literary trend of combining classical and Biblical references with popular and vernacular sources, and reflect the growing literary appetites of the urban population. As well a selection of her original poetry, this volume includes Sidney's version of the Psalms of David and Petrarch's 'Triumph of Death'.

Lanyer's poetry is devotional and is the most single-minded and explicit in its advocacy of female spirituality and virtue. Included here are 'Salve Deus Rex Judaeorum' and 'The Description of Cooke-ham'.

Lyrics to illuminate how gender and sexuality inflected sixteenth- and seventeenth-century poets' conceptualization of relations among people and things, human and non-human subjects and objects. Pamela S. Hammons examines lyrics from both manuscript and print collections—including the verse of authors ranging from Robert Herrick, John Donne, and Ben Jonson to Margaret Cavendish, Lucy Hutchinson, and Aemilia Lanyer—and situates them in relation to legal theories, autobiographies, biographies, plays, and epics. Her approach fills a crucial gap in the conversation, which has focused upon drama and male-authored works, by foregrounding the significance of the lyric and women's writing. Hammons exposes the poetic strategies sixteenth- and seventeenth-century English women used to assert themselves as subjects of property and economic agents—in relation to material items ranging from personal property to real estate—despite the dominant patriarchal ideology insisting they were ideally temporary, passive vehicles for men's wealth. The study details how women imagined their multiple, complex interactions with the material world: the author shows that how a woman poet represents herself in relation to material objects is a flexible fiction she can mobilize for diverse purposes. Because this book analyzes men's and women's poems together, it isolates important gendered differences in how the poets envision human subjects' use, control, possession, and ownership of things and the influences, effects, and power of things over humans. It also adds to the increasing evidence for the pervasiveness of patriarchal anxieties associated with female economic agency in a culture in which women were often treated as objects. "This collection shines a light onto the character and experience of one of the most interesting of monarchs. . . . We are likely never to get a closer or clearer look at her. An impressive, heavily footnoted volume."—Library Journal "This excellent anthology of [Elizabeth's] speeches, poems, prayers and letters demonstrates her virtuosity and afford the reader a penetrating insight into her 'wiles and understandings.'"—Anne Somerset, New Statesman "Here then is the only trustworthy collection of the various genres of Elizabeth's writings. . . . A fine edition which will be indispensable to all those interested in Elizabeth I and her reign."—Susan Doran, History "In the torrent of words about her, the queen's own words have been hard to find. . . . Despite common perceptions of the medieval world as mostly land-based or limited to individual courts, we can discover the development of the urbanization process already in the eleventh and twelfth centuries. The complexity of the matter requires a fully interdisciplinary approach, including art history, literature, urban geography, women's studies, social and economic history, religion, and philosophy. The contributions to this new volume build on extensive research on urban history but develop intriguingly new insight into living space, mental structures, and social conditions within medieval and early-modern cities.

Of all the new developments in literary theory, feminism has proved to be the most widely influential, leading to an expansion of the traditional English canon in all periods of study. This book aims

to make the work of Renaissance women writers in English better known to general and academic readers so as to strengthen the case for their future inclusion in the Renaissance literary canon. This lively book surveys women writers in the sixteenth century and early seventeenth centuries. Its selection is vast, historically representative, and original, taking examples from twenty different, relatively unknown authors in all genres of writing, including poetry, fiction, religious works, letters and journals, translation, and books on childcare. It establishes new contexts for the debate about women as writers within the period and suggests potential intertextual connections with works by well-known male authors of the same time. Individual authors and works are given concise introductions, with both modern and historical critical analysis, setting them in a theoretical and historicised context. All texts are made readily accessible through modern spelling and punctuation, on-the-page annotation and headnotes. The substantial, up-to-date bibliography provides a source for further study and research.

The Politics of Early Modern Women's Writing provides an introduction to the ever-expanding field of early modern women's writing by reading texts in their historical and social contexts. Covering a wide range of forms and genres, the author shows that rather than women conforming to the conventional 'chaste, silent and obedient' model, or merely working from the 'margins' of Renaissance culture, they in fact engaged centrally with many of the major ideas and controversies of their time. The book discusses many previously neglected texts and authors, as well as more familiar figures such as Mary Sidney, Countess of Pembroke,

The Politics of Early Modern Women will be of interest both to those encountering this material for the first time, and to students and scholars working in the fields of women's writing, gender studies, history and literature.

Isabella Whitney is the earliest Englishwoman known to have written original secular poetry in English for publication. The Copy of a Letter contains four poems written in the personae of persons jilted in love. The only known copy of this volume is held at the Bodleian Library and is reproduced here. Whitney's second collection A Sweet Nosgay contains poetry in traditional stanzas and in prose format. Reproduced here is the unique copy held at the British Library. The French Historie by Anne Dowriche takes as its subject three events from the religious wars in France: the affair of the Rue St Jacques (1557); the Martyrdom of Annas Burgeus (1559) and the St Bartholomew's Massacre (1572). Her work takes as its source Thomas Tymme's The Three Partes of Commentaries, Containing the whole and perfect discourse of the Civill warres in Fraunce (1574). We reproduce here the fine copy of The French Historie held at the Huntington Library and also append two short poems thought to be hers. Ane Godlie Dreame, Compylit in Scottish Meter is Elizabeth Melville's first person account of a pilgrim who is guided through the afterworld. Aemilia Lanyer was the first woman writing in English to produce a substantial volume of poetry designed to be printed and to attract patronage. The *Salve Deus Rex Judaeorum* was published in 1611 and contains a series of poems to individual patrons, two short prose dedications, a title poem on Christ's passion and the first country house poem printed in English. The volume is arguably the first genuinely feminist publication in England: all its dedicatees are women and the poem on the passion argu

Custom, Common Law, and the Constitution of English

Renaissance Literature argues that, ironically, custom was a supremely generative literary force for a range of Renaissance writers. Custom took on so much power because of its virtual synonymity with English common law, the increasingly dominant legal system that was also foundational to England's constitutionalist politics. The strange temporality assigned to legal custom, that is, its purported existence since 'time immemorial', furnished it with a unique and paradoxical capacity—to make new and foreign forms familiar. This volume shows that during a time when novelty was suspect, even insurrectionary, appeals to the widespread understanding of custom as a legal concept justified a startling array of fictive experiments. This is the first book to reveal fully the relationship between Renaissance literature and legal custom. It shows how writers were able to reimagine moments of historical and cultural rupture as continuity by appealing to the powerful belief that English legal custom persisted in the face of conquests by foreign powers. Custom, Common Law, and the Constitution of English Renaissance Literature thus challenges scholarly narratives in which Renaissance art breaks with a past it looks back upon longingly and instead argues that the period viewed its literature as imbued with the aura of the past. In this way, through experiments in rhetoric and form, literature unfolds the processes whereby custom gains its formidable and flexible political power. Custom, a key concept of legal and constitutionalist thought, shaped sixteenth-century literature, while this literature, in turn, transformed custom into an evocative mythopoetic.

Petrarch (Francesco Petrarca, 1304–74), best known for his influential collection of Italian lyric poetry dedicated to his beloved Laura, was also a remarkable classical scholar, a deeply religious thinker and a philosopher of secular ethics. In this wide-ranging study, chapters by leading scholars view Petrarch's life through his works, from the epic *Africa* to the *Letter to Posterity*, from the *Canzoniere* to the vernacular epic *Triumphs*. Petrarch is revealed as the heir to the converging influences of classical cultural and medieval Christianity, but also to his great vernacular precursor, Dante, and his friend, collaborator and sly critic, Boccaccio. Particular attention is given to Petrarch's profound influence on the Humanist movement and on the courtly cult of vernacular love poetry, while raising important questions as to the validity of the distinction between medieval and modern and what is lost in attempting to classify this elusive figure. An important contribution to recent critical discussions about gender, sexuality, and material culture in Renaissance England, this study analyzes female- and male-authored lyrics to illuminate how gender and sexuality inflected sixteenth- and seventeenth-century poets' conceptualization of relations among people and things, human and non-human subjects and objects. Pamela S. which has focused upon drama and male-authored works, by foregrounding the significance of the lyric and women's writing. The study details how women imagined their multiple, complex interactions with the material world: the author shows that how a woman poet represents herself in relation to material objects is a flexible fiction she can mobilize for diverse purposes. This is a complete reexamination of early modern women's verse based on primary research in many archives and libraries. Forty per cent of the material included has never been printed before, but the book also includes lavish selections from the early modern women poets currently studied, such as Aphra Behn. It offers a very thorough, and very complete, conspectus of women's verse production at all social levels, from 1520 to 1700.

Although it seems that erotic love generally was the prevailing topic in the medieval world and the Early Modern Age, parallel to this the Ciceronian ideal of friendship also dominated the public discourse, as this collection of essays demonstrates. Following an extensive introduction, the individual contributions explore the functions and the character of friendship from Late Antiquity (Augustine) to the 17th century. They show the spectrum of variety in which this topic appeared ? not only in literature, but also in politics and even in painting.

An introduction to women writers of the English Renaissance which takes up 44 works, many as thumbnail sketches; shows how women's writing was hampered by the assumption that poets were male, by restriction to pious subject matter, by the doctrine that only silent women are virtuous, by criticism that praised women as patrons or muses and ignored their writing, and above all by crippling educational theories. Mary Sidney Herbert, Countess of Pembroke, was renowned in her own time for her metrical translation of biblical Psalms, several original poems, translations from French and Italian, and her literary patronage. William Shakespeare used her *Antonius* as a source, Edmund Spenser celebrated her original poems, John Donne praised her *Psalms*, and Lady Mary Wroth and Aemilia Lanyer depicted her as an exemplary poet. Arguably the first Englishwoman to be celebrated as a literary figure, she has also attracted considerable modern attention, including more than two hundred critical studies. This volume offers a brief introduction to her life and an extensive overview of the critical reception of her works, reprints some of the most essential and least accessible essays about her life and writings, and includes a full bibliography.

The letters of John Keats are, T. S. Eliot remarked, what letters ought to be; the fine things come in unexpectedly, neither introduced nor shown out, but between trifle and trifle. emerging unpredictably. Unlike other editions, this selection includes letters to Keats and among his friends, lending greater perspective to an epistolary portrait of the poet. It also offers a revealing look at his posthumous existence, the period of Keats's illness in Italy, painstakingly recorded in a series of moving letters by Keats's deathbed companion, Joseph Severn. Other letters by Dr. James Clark, Percy Bysshe Shelley, and Richard Woodhouse--omitted from other selections of Keats's letters--offer valuable additional testimony concerning Keats the man. Edited for greater readability, with annotations reduced and punctuation and spelling judiciously modernized, this selection recreates the spontaneity with which these letters were originally written.

During the seventeenth century, in response to political and social upheavals such as the English Civil Wars, women produced writings in both manuscript and print. and her sense of exclusion from the greedy and commercial London of the 1570s. Sidney produced translations of Petrarch and the Psalms as well as original verse in order to mourn her late brother, develop his legacy and promote the Protestant cause. Lanyer wrote poetry which defends Eve's actions in the Garden of Eden, and celebrates female virtue and spirituality. Silvina Ocampo possessed her own special enchantment as a poet, and only now is her extraordinary poetic achievement becoming more widely recognized beyond Latin America. Remarkably, this is the first collection of Ocampo's poetry to appear in English. From her early sonnets on the native Argentine landscape, to her meditations on love's travails, to her explorations of the kinship between plant and animal realms, to her clairvoyant inquiries into history and myth and memory, readers will find the full range of Ocampo's "metaphysical lyricism" (The Independent) represented in this groundbreaking edition.

Essays offering a gendered approach to the study of the move from manuscript to early printed book show how much women were involved in the process.

Histories of autobiography in England often assume the genre hardly existed before 1600. But Tudor Autobiography investigates eleven sixteenth-century English writers who used sermons, a saint's biography, courtly and popular verse, a traveler's report, a history book, a husbandry book, and a supposedly fictional adventure novel to share the secrets of the heart and tell their life stories. In the past such texts have not been called autobiographies because they do not reveal much

of the inwardness of their subject, a requisite of most modern autobiographies. But, according to Meredith Anne Skura, writers reveal themselves not only by what they say but by how they say it. Borrowing methods from affective linguistics, narratology, and psychoanalysis, Skura shows that a writer's thoughts and feelings can be traced in his or her language. Rejecting the search for "the early modern self" in life writing, *Tudor Autobiography* instead asks what authors said about themselves, who wrote about themselves, how, and why. The result is a fascinating glimpse into a range of lived and imagined experience that challenges assumptions about life and autobiography in the early modern period. *Idioms of Self-Interest* uncovers an emerging social integration of economic self-interest in early modern England by examining literary representations of credit relationships in which individuals are both held to standards of communal trust and rewarded for risk-taking enterprise. Drawing on women's wills, merchants' tracts, property law, mock testaments, mercantilist pamphlets and theatrical account books, and utilizing the latest work in economic theory and history, the book examines the history of economic thought as the history of discourse. In chapters that focus on *The Merchant of Venice*, *Eastward Ho!*, and *Whitney's Wyll and Testament*, it finds linguistic and generic stress placed on an ethics of credit that allows for self-interest. Authors also register this stress as the failure of economic systems that deny self-interest, as in the overwrought paternalistic systems depicted in Shakespeare's *Timon of Athens* and Francis Bacon's *New Atlantis*. The book

demonstrates that Renaissance interpretive formations concerning economic behaviour were more flexible and innovative than appears at first glance, and it argues that the notion of self-interest is a coherent locus of interpretation in the early seventeenth century.

The most comprehensive collection of essays on Renaissance poetry on the market Covering the period 1520–1680, *A Companion to Renaissance Poetry* offers 46 essays which present an in-depth account of the context, production, and interpretation of early modern British poetry. It provides students with a deep appreciation for, and sensitivity toward, the ways in which poets of the period understood and fashioned a distinctly vernacular voice, while engaging them with some of the debates and departures that are currently animating the discipline. *A Companion to Renaissance Poetry* analyzes the historical, cultural, political, and religious background of the time, addressing issues such as education, translation, the Reformation, theorizations of poetry, and more. The book immerses readers in non-dramatic poetry from Wyatt to Milton, focusing on the key poetic genres—epic, lyric, complaint, elegy, epistle, pastoral, satire, and religious poetry. It also offers an inclusive account of the poetic production of the period by canonical and less canonical writers, female and male. Finally, it offers examples of current developments in the interpretation of Renaissance poetry, including economic, ecological, scientific, materialist, and formalist approaches.

substantial section on recent and developing approaches to reading Renaissance poetry A Companion to Renaissance Poetry is an ideal resource for all students and scholars of the literature and culture of the Renaissance period.

Aemilia Lanyer (1569-1645) was the first woman poet in England who sought status as a professional writer. Her book of poems is dedicated entirely to women patrons. It offers a long poem on Christ's passion, told entirely from a woman's point of view, as well as the first country house poem published in England. Almost completely neglected until very recently, her work changes our perspective on Jacobean poetry and contradicts the common assumption that women wrote nothing of serious interest until much later. Mistress and friend of influential Elizabethan courtiers, Lanyer gives us a glimpse of the ideas and aspirations of a talented middle class Renaissance woman.
