Die Analyse eines Verkehrsunfalls erfordert zusätzliches Wissen, das im Normalfall nicht während des Studiums vermittelt wird. Daher wird die Analyse von Verkehrsunfällen in der Regel von spezialisierten Sachverständigen vorgenommen. Das dazu nötige Wissen wurde Anfang der 80er Jahre bereits in einer früheren Auflage dieses Handbuchs veröffentlicht. Jetzt hat ein Autorenteam die lange fällige Neubearbeitung erstellt. Die Autoren sind Experten auf ihrem jeweiligen Gebiet und stellen die Arbeitsmittel in zeitgemäßer Darstellung bereit. Dabei werden computergestützte Arbeitsmethoden berücksichtigt. Es werden auch die Wünsche und Forderungen von Verkehrssicherheits- und Unfallforschern berücksichtigt, die nach einer thematisch vollständigen Arbeitsunterlage suchen. Damit steht ein zeitgemäßes, methodisch zuverlässiges und einheitliches Werk für die Analyse von Verkehrsunfallabläufen zur Verfügung.

'Managing Information' describes how successful organizations make best use of information and knowledge - the key resources in business. It explains why information technology is essential for the management of business processes, and should be central to any business strategy. This updated edition provides a compelling rationale for organizations to use appropriate systems, and for individuals to acquire the skills to manage and use the systems. It describes how computer systems continue to evolve to meet business needs, and provides examples and exercises to help readers develop

their skills. There is a new emphasis on the Internet - how to use it to keep up to date with the latest business issues, and how teams can communicate and collaborate with intranets. All of the most common sub-systems are described and explained, including Enterprise Resource Planning (ERP), Business-to-Business (B2B), Business-to-Consumer (B2C), Supply Chain Management (SCM), Customer Relationship Management (CRM) and Enterprise Application Integration (EAI). The latest developments are described, including services available through the Internet from Application Service Providers (ASP), collaborative commerce and Business Process Management (BPM). There are introductory and more advanced computer exercises to consolidate learning and demonstrate how to acquire, store, organize and present information, using Word, Excel, PowerPoint and Explorer.

De Kampioen is the magazine of The Royal Dutch Touring Club ANWB in The Netherlands. It's published 10 times a year with a circulation of approximately 3,5 million copies.
