The Chinese Communist Party is determined to reshape the world in its image. The party is not interested in democracy. It sees only a bitter ideological struggle with the West, dividing the world into those who can be won over, and enemies. Many political and business elites have already been lured to their corner; others are weighing up a devil's bargain. Through its enormous economic power and covert influence operations, China is now weakening global institutions, aggressively targeting individual corporations, and threatening freedom of expression from the arts to academia. At the same time, Western security services are increasingly worried about incursions into our communications infrastructure. In a landmark study combining meticulous research with unique insights, *Hidden Hand* exposes the Chinese Communist Party's global program of subversion, and the threat it poses to democracy. We have already missed too many warning signs – now it is time to wake up.

Aristotle's zoological writings with their wealth of detailed investigations on diverse species of animals have fascinated medieval and Renaissance culture. This volume explores how these texts have been read in various traditions (Arabic, Hebrew, Latin), and how they have been incorporated in different genres (in philosophical and scientific treatises, in

florilegia and encyclopedias, in theological symbolism, in moral allegories, and in manuscript illustrations). This multidisciplinary and multilinguistic approach highlights substantial aspects of Aristotle's animals.

In an age of wondrous beauty and terrible secrets, one man searches for his destiny... In the majestic heart of Florence, a beautiful golden-haired boy is abandoned and subjected to cruelty beyond words. But Luca Bastardo is anything but an ordinary boy. Across two centuries of passion and intrigue, Luca will discover an astonishing gift—one that will lead him to embrace the ancient mysteries of alchemy and healing and to become a trusted confidant to the powerful Medicis...even as he faces persecution from a sadistic cabal determined to wrest his secrets for themselves. But as the Black Death and the Inquisition wreak havoc on his beloved city, Luca's survival lies in the quest to solve two riddles. One is the enigma of his parents and his ageless beauty. The other is a choice between immortality and the only chance to find his one true love. As Luca journeys through the heights of the Renaissance, befriends Giotto and Leonardo Da Vinci—140 years apart—and pursues the most closely guarded secrets of religious faith and science for the answers to his own burning questions, his remarkable search will not only change him...but will change the course of history.

This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested

in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters ) to be spelt with those single letters in non-final syllables.

" Il était amoureux du jazz, ne vivait que pour le jazz, n'entendait, ne s'exprimait qu'en jazz... " Ainsi Henri Salvador évoque-t-il son ami Boris Vian. Dans ce recueil de plus de trois cents chroniques, parues dans Jazz Hot, Combat, Art, Jazz News, l'auteur de L'Écume des jours témoigne de cette passion née dès l'adolescence, alors qu'il allait applaudir Benny Carter ou Duke Ellington, et qui le conduisit à devenir lui-même trompettiste dans l'orchestre de Claude Abadie, puis au " Tabou ". Il explore au fil de ces écrits tous les univers du jazz, inconditionnel des grands classiques en même temps qu'attentif à l'innovation, pourfendant plagiaires ou suiveurs avec une verve inégalable. Aucune dimension ne lui est étrangère : technique musicale, coulisses du spectacle et de la production, signification d'une musique qui, après avoir été l'expression majeure des Noirs américains, porte les aspirations et la révolte de la jeunesse française. En même temps qu'une clef essentielle de sa personnalité et de son oeuvre, ce livre demeure une somme irremplaçable pour tous les amateurs de jazz.

Two opposing views of the future in the Middle Ages dominate recent historical scholarship. According to one opinion, medieval societies were expecting the near end of the world and therefore had no concept of the future. According to the other opinion, the expectation of the

near end created a drive to change the world for the better and thus for innovation. Close inspection of the history of prognostication reveals the continuous attempts and multifold methods to recognize and interpret God's will, the prodigies of nature, and the patterns of time. That proves, on the one hand, the constant human uncertainty facing the contingencies of the future. On the other hand, it demonstrates the firm believe during the Middle Ages in a future which could be shaped and even manipulated. The handbook provides the first overview of current historical research on medieval prognostication. It considers the entangled influences and transmissions between Christian, Jewish, Islamic, and non-monotheistic societies during the period from a wide range of perspectives. An international team of 63 renowned authors from about a dozen different academic disciplines contributed to this comprehensive overview.
