This report describes the Act and states the reasons for our conclusion that the Act should be repealed. It also contains the text of the Act, describes the survey conducted of members of the legal profession regarding their views on the Act, and summarizes the most frequently expressed reasons for retaining the Act, and states why it was concluded that those reasons were overborne by those in favour of repeal. Finally, it describes some approaches that could be taken to reforming rather than repealing the Act.

Offering a fresh look at one of the major artists of the 20th century, this book illustrates how Paul Klee's critical and ironic take on life was evident in every stage of his oeuvre. Known for its whimsy and levity, Paul Klee's art is often considered gleefully childlike. This groundbreaking volume argues that Klee's style emerged from a philosophical school that originated with early German Romanticism and consisted of perpetual shifts between satire and affirmation of the absolute, finite and infinite, and real and ideal. Featuring approximately 250 works, this careful appreciation of Klee connects each stage of his career to the larger philosophical context. Exploring the satires and caricatures of Klee's youth, his experimentations in Cubism and "mechanical theater," and the constructivist approach of the Bauhaus school, this book follows the trajectory of Klee's oeuvre as a reflection of prevailing styles. It closes with the artist's final years, in which he was labeled a "degenerate artist" by the Nazi regime and struggled with illness. Viewed through the many facets of irony as a complex theme, and against the backdrop of Europe's seismic political and artistic movements, Klee's body of work takes on a renewed significance as one of the most critical of its generation.

The availability of fibre from private land in Alberta has been largely ignored because of a surplus from public land. However, much of this surplus has been allocated in recent years, so that fibre from private land is quickly becoming a potentially important wood supply for primary forest products firms in Alberta. This study obtained information from 38 land owners in west-central Alberta through a personal interview survey conducted in May 1989. Respondents were asked questions on the physical characteristics of their land, production costs from harvesting, questions related to their socio-economic conditions, and uses of their forest lands. The study also used a model to evaluate the relative importance of a number of variables for their effect on a landowner's decision to supply fibre now and in the future. A discussion of market structures for private fibre is presented, with the presence of transactions costs to both landowners and firms in procuring private fibre analyzed in light of the modelling results.

By quadrupling the number of people behind bars in two decades, the United States has become the world leader in incarceration. Much has been written on the men who make up the vast majority of the nation's two million inmates. But what of the women they leave behind? Doing Time Together vividly details the ways that prisons shape and infiltrate the lives of women with husbands, fiancés, and boyfriends on the inside. Megan Comfort spent years getting to know women visiting men at San Quentin State Prison, observing how their romantic relationships drew them into contact with the penitentiary. Tangling with the prison's intrusive scrutiny and rigid rules turns these women into "quasi-inmates," eroding the boundary between home and prison and altering their sense of intimacy, love, and justice. Yet Comfort also finds that with social welfare weakened, prisons are the most powerful public institutions available to women struggling to overcome untreated social ills and sustain relationships with marginalized men. As a result, they express great ambivalence about the prison and the control it exerts over their daily lives. An illuminating analysis of women caught in the shadow of America's massive prison system, Comfort's book will be essential for anyone concerned with the consequences of our punitive culture.

An account of a journey through western Ireland made in 1984, fulfilling a childhood dream of a long-distance ride. The story centres on the growing bond between the author and her Connemara pony, Mollie and the many challenges that they face before the tragic conclusion in the mountains of Kerry. It is also a portrait of rural Ireland before the "Celtic Tiger" era, built up from conversations with the local people. The journey takes them through Counties Galway, Mayo, Clare and Kerry, the obstacles to their progress ranging from bogs, stone walls, and the River Shannon. "I've never tried hitchhiking with a horse before" comments the author. "It's not easy." She travelled with no set route, extending her backpacking knowledge acquired in the Andes to horse packing, "seeing the obvious advantage of climbing mountains on someone else's legs and using another's back for the packing."

In the first biography of Joan Crawford to give the full, uncensored story, bestselling author David Bret tells Crawford's rags to riches climb, from working in a Kansas City laundry to collecting an Oscar for her defining role in *Mildred Pierce*, and on to her devotion to Christian Science and reliance on vodka. He discusses the star's legendary relationship with Clark Gable, her countless love affairs, her marriages -- three of them to gay men -- and her obsession with rough sex. Bret divulges what really happened that led her to disinherit two of her four children, earning her the nickname "Mommie Dearest," as well as how her loathed mother forced Crawford to work as a prostitute, appear in pornographic films, and sleep her way to the top. Bret analyzes Crawford's films, many of which were constructed purely as vehicles where actress and character were often indistinguishable. Overtly generous towards her coterie of gay friends, she was heartless towards her enemies, particularly Bette Davis, her co-star in *Whatever Happened to Baby Jane*, with whom she shared a lifelong feud. Drawing on a wealth of unpublished material and interviews, David Bret presents a unique, fascinating portrait of a single-minded, uncompromising woman.
