**Critical Vehicles** Krzysztof Wodiczko,1999 Critical Vehicles is the first book in English to collect Wodiczko's own writings on his projects. Wodiczko has stated that his principal artistic concern is the displacement of traditional notions of community and identity in the face of rapidly expanding technologies and cultural miscommunication. In these writings he addresses such issues as urbanism, homelessness, immigration, alienation, and the plight of refugees. Fusing wit and sophisticated political insight, he offers the artistic means to help heal the damages of uprootedness and other contemporary troubles.

**Universal Joints and Driveshafts** Hans-Christoph Seherr-Thoss,Friedrich Schmelz,Erich Aucktor,2006-03-28 Major progress has been made in the field of driveshafts since the authors presented their first edition of this unique reference work.
