Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

"In the dark, bewildering, trap-infested jungle of misinformation and opaque riddles that is the world of investment, JL Collins is the fatherly wizard on the side of the path, offering a simple map, warm words of encouragement and the tools to forge your way through with confidence. You'll never find a wiser advisor with a bigger heart." -- Malachi Rempen: Filmmaker, cartoonist, author and self-described ruffian This book grew out of a series of letters to my daughter concerning various things-mostly about money and investing-she was not yet quite ready to hear. Since money is the single most powerful tool we have for navigating this complex world we've created, understanding it is critical. "But

Dad," she once said, "I know money is important. I just don't want to spend my life thinking about it." This was eye-opening. I love this stuff. But most people have better things to do with their precious time. Bridges to build, diseases to cure, treaties to negotiate, mountains to climb, technologies to create, children to teach, businesses to run. Unfortunately, benign neglect of things financial leaves you open to the charlatans of the financial world. The people who make investing endlessly complex, because if it can be made complex it becomes more profitable for them, more expensive for us, and we are forced into their waiting arms. Here's an important truth: Complex investments exist only to profit those who create and sell them. Not only are they more costly to the investor, they are less effective. The simple approach I created for her and present now to you, is not only easy to understand and implement, it is more powerful than any other. Together we'll explore: Debt: Why you must avoid it and what to do if you have it. The importance of having F-you Money. How to think about money, and the unique way understanding this is key to building your wealth. Where traditional investing advice goes wrong and what actually works. What the stock market really is and how it really works. Why the stock market always goes up and why most people still lose money investing in it. How to invest in a raging bull, or bear, market. Specific investments to implement these strategies. The Wealth Building and Wealth Preservation phases of your investing life and why they are not always tied to your age. How your asset allocation is tied to those phases and how to choose it. How to simplify the sometimes confusing world of 401(k), 403(b), TSP, IRA and Roth accounts. TRFs (Target Retirement Funds), HSAs (Health Savings Accounts) and RMDs (Required Minimum Distributions). What investment firm to use and why the one I recommend is so far superior to the competition. Why you should be very cautious when engaging an investment advisor and whether you need to at all. Why and how you can be conned, and how to avoid becoming prey. Why I don't recommend dollar cost averaging. What financial independence looks like and how to have your money support you. What the 4% rule is and how to use it to safely spend your wealth. The truth behind Social Security. A Case Study on how this all can be implemented in real life. Enjoy the read, and the journey!

The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled

with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.

Talking about money sucks; but so does being broke. Do your eyes glaze over just thinking about the mumbo-jumbo of finance? Do you break out into hives at the thought of money? Well, sister, you are not alone. In *RICH BITCH*, money expert and financial journalist Nicole Lapin lays out a 12-Step Plan in which she shares her experiences, mistakes and all, of getting her own finances in order. No lecturing, just help from a friend. And even though money is typically an off-limits conversation, nothing is off-limits here. Lapin rethinks every piece of financial wisdom you've ever heard and puts her own fresh, modern, sassy spin on it. Sure, there are some hard-and-fast rules about finance, but when it comes to your money, the only person who can spend it is you. Should you invest in a 401(k)? Maybe not. Should you splurge on that morning latte? Likely yes. Instead of nickel-and-diming yourself, Nicole's advice focuses on investing in yourself so you don't have to stress over the little things. But in order to do that, you have to be able to speak the language of money. After all, money is a language like anything else, and the sooner you can join the conversation, the sooner you can live the life you want, *RICH BITCH* rehabs whatever bad habits you might have and provides a plan you can not only sustain, but thrive with. It's time to go after the rich life you deserve, and confident enough to call yourself a *RICH BITCH*.

God has two purposes for you: To believe in Jesus and then to become like Jesus. This book focuses on the latter. Though we cannot attain such perfection, John said that followers of Jesus "should live their lives as Jesus did" (1 John 2:6 NLT). The process of becoming like Jesus is the work of the Holy Spirit, but the Spirit does not transform us without our cooperation. The premise of this book is that we enable the Spirit to make us like Jesus by cultivating seven habits. The seven habits are derived from Luke's description of the first church in Acts 2:42-47. Luke was an honest historian who frankly recorded the sins and strife of the early church, yet this passage is thoroughly positive. In it, he mentions seven habits practiced by that ideal church. This book describes those habits, including practical suggestions for how to develop each. This book is titled *7 Habits for a Rich and Satisfying Life* because our heavenly Father loves us and wants what's best for us. We will find fulfillment in life as we fulfill his good design for us. Jesus said, "I came that they may have life and have it abundantly" (John 10:10 ESV), or as it says in the New Living Translation, "My purpose is to give them a rich and satisfying life."

If you think financial health is beyond your reach, think again. *I Will Teach You To Be Rich* is the modern money classic that has revolutionised the lives of countless people all over the world, teaching them how to effectively manage their finances, demolish their debt, save better and get the most out of their bank

accounts, credit cards and investments. Now, Ramit Sethi, who has been described by Forbes as a 'wealth wizard' and by Fortune as 'the new finance guru', is back with a completely revised second edition of *I Will Teach You To Be Rich*, updating it with new tools and insights on money and psychology, along with fantastic stories of how previous readers have used the book to enrich their lives. From crushing your debt and student loans to talking your way out of late fees, to dead simple investment strategies and negotiating that big raise at work, this is the no-guilt, no-excuses, no-BS 6-week programme that will help you get your finances where you want them to be.

How does money figure into a happy life? In *The Geometry of Wealth*, behavioral finance expert Brian Portnoy delivers an inspired answer, building on the critical distinction between being rich and being wealthy. While one is an unsatisfying treadmill, the other is the ability to underwrite a meaningful life, however one chooses to define that. Truly viewed, wealth is funded contentment. At the heart of this groundbreaking perspective, Portnoy takes readers on a journey toward wealth, informed by disciplines ranging from ancient history to modern neuroscience. He contends that tackling the big questions about a joyful life and tending to financial decisions are complementary, not separate, tasks. These big questions include: • How is the human brain wired for two distinct experiences of happiness? And why can money "buy" one but not the other? • What are the touchstones of a meaningful life, and are they affordable? • Why is market savvy among the least important sources of wealth but self-awareness is among the most? • How does one strike a balance between striving for more while being content with enough? This journey memorably contours along three basic shapes: A circle, triangle and square help us to visualize how we adapt to evolving circumstances, set clear priorities, and find empowerment in simplicity. In this accessible and entertaining book, Portnoy reveals that true wealth is achievable for many - including those who despair it is out of reach - but only in the context of a life in which purpose and practice are thoughtfully calibrated. The bestselling author of *The Millionaire Next Door* reveals easy ways to build real wealth. With well over two million of his books sold, and huge praise from many media outlets, Dr. Thomas J. Stanley is a recognized and highly respected authority on how the wealthy act and think. Now, in *Stop Acting Rich ? and Start Living Like a Millionaire*, he details how the less affluent have fallen into the elite luxury brand trap that keeps them from acquiring wealth and details how to get out of it by emulating the working rich as opposed to the super elite. Puts wealth in perspective and shows you how to live rich without spending more. Details why we spend lavishly and how to stop this destructive cycle. Discusses how being "rich" means more than just big houses and luxury cars. A defensive strategy for tough times, *Stop Acting Rich* shows readers how to live a rich, happy life through accumulating more wealth and using it to achieve the type of financial freedom that will create true happiness and fulfillment.

An accessible guide to the principles of success by one of the most respected

and sought-after motivational speakers of our time. In the tradition of Og Mandino and Zig Ziglar, this inspirational guide uses a wide variety of subjects, from "Achievement" to "Worry," to bring clarity, information, and motivation to readers. For millions of readers, Bob Proctor's name is synonymous with success. A former protégé of personal development pioneer Earl Nightingale, Proctor first built a wildly successful business career, and then an internationally successful speaking career, elaborating on the principles of Napoleon Hill's *Think and Grow Rich* and other classic success and prosperity texts. Proctor's position in the business motivation community equals that of Stephen Covey or Og Mandino. But as is not the case with those masters, his books have never been available to the general public—until now! In *The ABCs of Success*—the first trade book ever published by this master of motivation and prosperity—Proctor goes beyond the simple laws of success and attraction, weighing in on sixty-seven different topics essential to all those who wish to make their dreams a reality, including persistence, winning, effectiveness, and vision. Organized in A-to-Z fashion and composed of brief essays that can be read over and over, *The ABCs of Success* is an essential resource for anyone who wants the combined wisdom of a century of success thinking in a single, accessible volume.

*Secrets of the Millionaire Mind* reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking *Secrets of the Millionaire Mind*, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. *Secrets of the Millionaire Mind* is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money

blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

With the help of industrialist Andrew Carnegie, the author of this remarkable book spent two decades interviewing hundreds of people renowned for their wealth and achievement. Napoleon Hill's all-time bestseller in the personal success field offers priceless advice on positive thinking and overcoming adversity by distilling the collective wisdom of Henry Ford, Thomas Edison, John D. Rockefeller, and other successful figures from the worlds of finance, industry, and the arts.

Growing rich, Hill explains, is about far more than just making money. "Whatever the mind can conceive and believe," he asserts, "it can achieve with positive mental attitude." Hill outlines 13 principles of success involving goal setting, developing entrepreneurial thinking, and exercising effective leadership. A must for any reader of *The Secret*, this guide will transform the way you think about time, money, and relationships, setting your feet on the path to financial freedom.

What does it take to become a millionaire - hard work, determination, a bit of luck? In *The Top Ten Habits of Millionaires*, Smith elaborates ten key principles that animate the millionaire mindset - habits that can be learned and mastered by anyone who wants to improve their financial position, including:

- Millionaires think long term - Create a clear vision of the life you desire and focus on it.
- Millionaires talk about ideas, not things and people - Ask positive 'what if' questions every day and bounce ideas off successful people who will be honest with you.
- Millionaires embrace change - Be patient while change is unfolding and find the hidden benefit.

What you believe about money has everything to do with how much money you will make. Following Keith Cameron Smith's smart and sensible advice will help readers achieve long-sought financial - and emotional - abundance.

Rich Habits The Daily Success Habits of Wealthy Individuals Hillcrest Publishing Group

In *Love Your Life, Not Theirs*, Rachel Cruze shines a spotlight on the most damaging money habit we have: comparing ourselves to others. Then she unpacks seven essential money habits for living the life we really want--a life in line with our values, where we can afford the things we want to buy without being buried under debt, stress, and worry. The Joneses are broke. Life looks good, but

hidden beneath that glossy exterior are credit card bills, student loans, car payments, and an out-of-control mortgage. Their money situation is a mess, and they're trying to live a life they simply can't afford. So why exactly do we try so hard to keep up with the Joneses? Are we really living the lives we want, or are we chasing someone else's dream, just trying to keep up appearances on social media, at church, and in our community? Why are we letting other people set the pace for our own family's finances? In *Love Your Life, Not Theirs*, Rachel shows you how to buy and do the things that are important to you--the right way. That starts by choosing to quit the comparisons, reframing the way you think about money, and developing new habits like avoiding debt, living on a plan, watching your spending, saving for the future, having healthy conversations about money, and giving. These habits work, and Rachel is living proof. Now, she wants to empower you to live the life you've always dreamed of without creating the debt, stress, and worry that are all too often part of the deal. Social media isn't real life, and trying to keep up with the Joneses will never get you anywhere. It's time to live--and love--your life, not theirs. "I've never read a book about money that takes this approach--and that's a good thing! Comparison has a way of weaving itself throughout all aspects of our lives, including our money. In *Love Your Life, Not Theirs*, Rachel Cruze outlines the seven money habits that really matter--and they have nothing to do with keeping up with the Joneses!" Candace Cameron-Bure Actress, author, and co-host of *The View* "Love Your Life, Not Theirs is full of the kind of practical, straightforward advice we've come to expect from Rachel Cruze. She offers guidance on paying down debt, smart saving, and the right way to talk to your spouse about money. These indispensable tips can help with day-to-day spending decisions and put you on a path to establishing healthy financial habits." Susan Spencer Editor-in-Chief for *Woman's Day* "Cruze's self-deprecating and honest voice is a great resource for anyone wanting to take charge of their money. With humor and approachability, she helps her readers set themselves up for success and happiness, no matter what current financial state they may be in." Kimberly Williams-Paisley New York Times best-selling author of *Where the Light Gets In* "In today's world of social media, the temptation to play the comparison game is stronger than ever. *Love Your Life, Not Theirs* is the perfect reminder that, when it comes to money, comparison is a game you can't win. A terrific--and much needed--read." Jean Chatzky Financial Editor, NBC TODAY and Host of *HerMoney with Jean Chatzky* Podcast

How the leisure class has been replaced by a new elite, and how their consumer habits affect us all In today's world, the leisure class has been replaced by a new elite. Highly educated and defined by cultural capital rather than income bracket, these individuals earnestly buy organic, carry NPR tote bags, and breast-feed their babies. They care about discreet, inconspicuous consumption—like eating free-range chicken and heirloom tomatoes, wearing organic cotton shirts and TOMS shoes, and listening to the *Serial* podcast. They use their purchasing power to hire nannies and housekeepers, to cultivate their children's growth, and

to practice yoga and Pilates. In *The Sum of Small Things*, Elizabeth Currid-Halkett dubs this segment of society “the aspirational class” and discusses how, through deft decisions about education, health, parenting, and retirement, the aspirational class reproduces wealth and upward mobility, deepening the ever-wider class divide. Exploring the rise of the aspirational class, Currid-Halkett considers how much has changed since the 1899 publication of Thorstein Veblen’s *Theory of the Leisure Class*. In that inflammatory classic, which coined the phrase “conspicuous consumption,” Veblen described upper-class frivolities: men who used walking sticks for show, and women who bought silver flatware despite the effectiveness of cheaper aluminum utensils. Now, Currid-Halkett argues, the power of material goods as symbols of social position has diminished due to their accessibility. As a result, the aspirational class has altered its consumer habits away from overt materialism to more subtle expenditures that reveal status and knowledge. And these transformations influence how we all make choices. With a rich narrative and extensive interviews and research, *The Sum of Small Things* illustrates how cultural capital leads to lifestyle shifts and what this forecasts, not just for the aspirational class but for everyone.

*Change Your Habits, Change Your Life* is the follow-up to Tom Corley’s bestselling book “*Rich Habits*.” Thanks to his extensive research of the habits of self-made millionaires, Corley has identified the habits that helped transform ordinary individuals into self-made millionaires. Success no longer has to be a secret passed down among only the elite and the wealthy. No matter where you are in life, “*Change Your Habits, Change Your Life*” will meet you there, and guide you to success. In this book, you will learn about:

What is a winning strategy? Why do some people, families, and organizations take a dive, some merely survive, while others thrive? What leads up to a disaster or collapse? Why do some squander success, while others continue to elevate? How do we build a solid foundation that assures solid, authentic growth? *Me We Do Be* is the result of research that has spanned twenty-five years at the intersection of sociology and economics. Specifically, I have explored what behaviors lead to disaster, recovery, or prosperity. As an economist, I measure the financial effects caused by disasters and other detrimental conditions. In other words, when disaster strikes, I am often called in to compute the business and real estate damages. Appraisers measure value, but I measure the loss of value. Moreover, also being a sociologist, I keep my eye on the people behind the statistics as I develop the strategies to move forward. It is a narrow consulting niche involving research, valuation, negotiation, and strategy, and it has provided unique access to interesting people and places around the globe. The journey began in the 1980s when I was a graduate student at UCLA studying leadership and business models. In the 1990s, I directed a national practice at the world’s largest consulting firm. My research expanded as I walked the reactors at Chernobyl and cut through the jungles around the Bikini Atoll radioactive nuclear test sites. I have worked on cases ranging from the O. J. Simpson and JonBenet Ramsey crime scenes to the bizarre Heaven’s Gate Cult mass-suicide mansion. In the 2000s, there was more. I was stunned as I stood on a curb in New York and watched smoke billowing from the World Trade Center and picked up debris on a rural field in Pennsylvania where Flight 93 had crashed on 9-11. I walked the beaches stained by the BP Oil Spill and inspected thousands of homes torn apart by Hurricane Katrina. As a socio-economist I have worked on these and hundreds of other cases around the world. More importantly, I have studied their ultimate resolution. While some reporters drop in and rush off to the next story, I have stayed to talk to the people long after the news vans drive away.

Furthermore, I have been an adviser in countless boardrooms where we discussed cases involving billions of dollars. A crisis exposes a person's or organization's true character, and this yields some invaluable insights. In all, I had accumulated a mountain of information and I wanted to organize it within a practical framework. My objective was to find a model that children could understand and that a CEO would take seriously. I considered using the ancient Greek paradigm of "ethos, pathos, and logos" and a more modern framework of "mental, social, spiritual, and physical." Of course, there was the standard, "mind, body, and soul," as well as many other models. All of these struck me as good, but none of them struck me as complete. It was as if they were playing some of the keys of the piano, but not the whole keyboard. I simply wanted a clear, complete framework. My quest for the ideal model ultimately came to me on the Marianas Islands as I sat in deep thought for three consecutive days. The answer was simple: Just as all great structures have four cornerstones, there are four cornerstones of all great pursuits. These can be summed up as Me We Do Be. Me refers to habits that build quality thinking and wisdom, We habits build relationships, Do habits build productivity, and Be habits build the future. In the pages that follow, I will use this Me We Do Be framework as we explore some of the most fascinating places on Earth, learn from the experiences of some extraordinary people, and look at classic behavioral research. This is all set out within the four Me We Do Be sections, twenty-one short chapters, and about one hundred individual lessons. The objective of each lesson is to encourage discussion on essential life skills. On top of that, more than five thousand people from all fifty states, Australia, and the United Kingdom participated in our Rich Habits Survey.<sup>1</sup> Here, my research staff and I surveyed professionals, students, stay-at-home moms, retirees, the unemployed, and multi-millionaires. We studied dozens of rituals ranging from writing thank-you notes to eating together as a family. We then statistically correlated various habits with different measures of success such as education, wealth, quality relationships, and an overall sense of happiness. Obviously, some people define success as making money. I joke that money doesn't make anyone happy, but it's a great way to be miserable! However, some might define success as a happy family life, finding true love, or winning a competition. Some see success as contributing to a worthy cause, completing a degree, or mastering a musical instrument. Others view success as healing from an emotional wound, beating cancer, or connecting with the divine. Some see success as being a leader or building a huge name for themselves, while others just want the satisfaction of quietly doing great work. Many define success as a combination of things. I respect the perception that there is no one-size-fits-all for success. Here, we define what success means to us individually, but in so doing, we will look at the foundational elements that apply to us all. The research and science is clear: however you define "success," daily habits, rituals, and routines are the key to either tragedy or triumph. Just as one bad habit ripples out until a life is destroyed, it is also true that one new good habit can ripple out and create something magnificent. Today's habits, rituals, and routines are tomorrow's destiny, and minor adjustments bring major rewards. Indeed, the four cornerstones of Me We Do Be lay the foundation of every great pursuit. They bring results that are positive, profound, and permanent. We have absolutely no control over most things, like the weather or the global economy. The only thing we really control is ourselves and the habits we choose. We dictate when we get up, what we eat, what we say and how we think. Focusing on a proven set of rich habits is simply the most direct way to building a rich life.
