Journey of a Thousand Miles tells the remarkable story of a boy who sacrificed almost everything – family, financial security, childhood and his reputation in China's insular classical music world – to fulfil his promise as a classical pianist. Lang Lang was born in Shenyang in north-eastern China just after the end of the Cultural Revolution. He began piano lessons at three years old and by age ten had been awarded a place at the Central Conservatory of Music in Beijing. In order to continue his studies he moved thousands of miles from home, living with his exacting father in a cramped, shared apartment, while his mother stayed at home to earn the money to pay his fees. At fifteen he moved to the United States to take up a scholarship at the Curtis Institute in Philadelphia; by nineteen he was selling out Carnegie Hall. His tutor and mentor Daniel Barenboim was perhaps the first to describe him as 'extraordinarily talented'; today his assessment is shared by millions. Now in adulthood, Lang Lang tours relentlessly, delighting sell-out audiences with his trademark flamboyance and showmanship. Journey of a Thousand Miles is a tale of heartbreak, drama and ultimately triumph. His inspiring story demonstrates the courage and self-sacrifice required to achieve artistic greatness.

"Dreams of Love: Playing the Romantic Pianist explores the attractions of the concert pianist from an innovative interdisciplinary perspective, demonstrating how such meanings have evolved over two centuries through technology and the popular media, including literature and cinema. Author Ivan Raykoff uses romantic both as the label for a historical era and musical style, as well as the more colloquial adjective referring to love, desire, and sensual feeling. Through this two-fold interpretive approach, music history and cultural mythology are read alongside one another to reveal the interconnected processes of music's social mediation. The word playing also invites multiple readings: performance or practicing, as pastime or profession, as play-acting and other modes of representation, or reproduction like a player piano. The Romantic pianist signifies more than just music; through established rituals and familiar representations of practicing, performing, and listening, the pianist also plays within a larger system of cultural ideology linking music to aspects of gender, sexuality, personal identity and social relationships, and the politics of the body."

"The author provides the history of international adoption from Korea and the development of the Korean adoption issue in the political discussion, and examines how overseas adopted Koreans are represented in Korean popular culture, feature films and pop songs. The adoption issue is a national trauma threatening to disrupt the unity and homogeneity of the Korean nation, and to question the country's political independence and economic success. The adoption issue can also be seen as an attempt at reconciling with a difficult past and imagining a common future for all ethnic Koreans at a transnational level." -- BOOK JACKET.
