FIRST LOVE ISN'T FOREVER... Exhibit A: Faith's little sister, Skye, who muddled through her first divorce at the tender age of twenty-one. Faith has always provided damage control when Skye's love life gets too reminiscent of a daytime drama. But now that Faith has finally found the job, if not the man, of her dreams -- as a culinary writer, currently living la dolce vita in Italy -- she can't just jet back to small-town Minnesota to help her suddenly pregnant little sister heal her broken heart and anemic bank account. BUT NEVER SAY NEVER! Faith has been putting off this homecoming for years, ever since her dad left her family in the lurch, her mother left her in charge of Skye, and a sub-zero case of cold feet led her to call off the engagement to her high school sweetheart, Flynn. But a return to the amber fields of grain might just be what Faith needs to gain some perspective on her past -- and figure out her future. It's been way too long since her last love affair...memories of Flynn still get in the way of every man she meets. But if she and Flynn are really meant to be, why does the path to happily-ever-after have so many potholes?

. . . a reflective and scholarly work that presents exciting and challenging views to mainstream entrepreneurship. . . The four books comprising the series would certainly be a valuable addition to any entrepreneurship library. However, each book also stands alone as an individual purchase. Lorraine Warren, *International Journal of Entrepreneurial Behaviour and Research* The narrative and flow of the book is superb and very interesting to read. The book is well edited and thought provoking which makes it an interesting read. Vanessa Ratten, *Journal of Enterprising Communities: People and Places in the Global Economy* This book the third in the *Movements in Entrepreneurship* series examines entrepreneurship as a societal phenomenon. It provides an in-depth study of the social aspects of entrepreneurship, illustrating how entrepreneurship affects society. The need to move beyond economy to disclose entrepreneurship in its societal forms is demonstrated, as is the relevance of our understanding of entrepreneurship as a societal phenomenon. The contributors show that entrepreneurship is a society-creating force and as such, it evokes new questions for entrepreneurship research and attempts to engage with new theoretical formulations. They begin with discussions on early Schumpeter and a rhetorical analysis of the current academic literature on social entrepreneurship. They go on to present myriad contextual examples of how entrepreneurship can shape social change, and indicate how this is initiated through various social settings, relationships and communities. Through rich empirical work this book explores the social of social entrepreneurship and in doing so shows us how entrepreneurship is at home where society is created. As such, it will prove a fascinating read for academics, researchers and students with an interest in entrepreneurship, sociology and economic sociology.
