The twenty-first-century church is increasingly placing recently trained seminary or locally trained clergy in smaller churches where they must stand alone without the training under a senior pastor. Since leadership in a church and academic preparation in seminary are two very different things, the church historically developed a history of offering "curacies," or training assistantships, to help blend the two disciplines and merge classroom knowledge into practical application. Today, these formal assistantships are mostly a thing of the past. *Curacy Express: A Training Resource for New Clergy* reconfigures this training into a current model. New clergy serving in their own church and mentor clergy serving in another church work together over a course of thirty-three self-paced learning modules. In each module, the newly ordained person gains valuable skills, mentor's observations and reflections, new confidence, and leadership formation. The result is clergy trained to be competent and confident in their roles as clergy-in-charge.

This book explores this rediscovery, first in the Roman Catholic Church and then in the Episcopal Church and other Churches of the Anglican Communion, and looks in

new religions in the western world where witchcraft or Wicca, Druidry, and Urban Shamanism are thriving. Alongside this there has been an upsurge in New Age ideas of an even wider variety, including astrology, Tarot, numerology, and many others. And then there are members of various schools of occult science, practising High Magic. Why this new interest in old beliefs? Why are millions of educated people today abandoning both the established religion of their parents and 21st century scientific rationalism and turning to magic and esoteric teachings? In their search for spirituality those who follow these paths claim to be applying ancient wisdom to the modern world. The Brief History of Secret Religions, a companion book to The Brief History of Secret Societies, looks at the history and variety of these esoteric movements, where they came from and what they tell us about the world today. Praise for The New Believers: 'an excellent guide to fringe religions that juxtaposes "respectable" movements and those conventionally dismissed as cults.' The Telegraph. 'no-nonsense, comprehensive survey packed with non-judgmental information about the beliefs, aims and activities of such movements. Daily Mail. This book analyses the legal aspects of international claims by indigenous peoples for the repatriation of their cultural property, and explores what legal norms and normative orders would be appropriate for resolving these claims. To establish context, the book first provides insights into the exceptional legislative responses to the cultural property claims of Native American tribes in the United States and looks at the possible relevance of this national law on the international level. It then shifts to the multinational setting by using the method of legal pluralism and takes into consideration international human rights law, international cultural heritage law, the applicable national laws in the United Kingdom, France and Switzerland, transnational law

such as museum codes, and decision-making in extra-legal procedures. In the process, the book reveals the limits of the law in dealing with the growing imperative of human rights in the field, and concludes with three basic insights that are of key relevance for improving the law and decision-making with regard to indigenous peoples' cultural property.?

A series of essays on those who have contributed to liturgical scholarship, the renewal of liturgical practice and the conduct of worship during the lifetime of the Alcuin Club. The authors reflect on the lives of 23 leading figures of Anglican liturgy during the past 150 years.

Focusing on representations of a famous ghost and monk from the late eighteenth century to today, Justin Thomas McDaniel builds a case for interpreting modern Thai Buddhist practice through the movements of these transformative figures. He follows embodiments of the ghost and monk in a variety of genres and media, including biography, drama, ritual, art, liturgy, film, television, and the Internet. Sourcing nuns, monks, laypeople, and royalty, McDaniel shows how relations with these figures have been instrumental in crafting histories and modernities, particularly local conceptions of being "Buddhist," and the formation and transmission of such identities across different venues and technologies.

Caregiving practices in churches often center around listening and giving counsel, making referrals, and creating support groups for specific needs. In *Caring Liturgies*, Susan Marie Smith proposes that Christian ritual is both a method and a means for helping people through liminal times of transition and uncertainty, even vulnerability and fear. This volume teaches readers to recognize the ritual needs of fellow Christians and thus create post-baptismal rites of passage and healing that might strengthen and support them in the fulfillment of their ministries. The book extends the usefulness of denominational "occasional services" books and other

resources by suggesting ways to build a rite around a central symbolic action, pointing out issues of ritual honesty and ethics, and identifying skills and attributes necessary to preparing and leading a rite. Numerous narrative examples help to flesh out the principles and illustrate the key argument: that rituals are necessary means to enable human growth and maturity, both through times of suffering and times of transition, and that ritual-making leaders are central to the ongoing health of the church.

Highlighting popular works by P.D. James, Colin Dexter, Ian Pears and Umberto Eco, among others, this is an intriguing examination of the treatment of religion in the genre of contemporary murder mystery novels. The other central theme examined in this book is that of justice. The narrative of any detective fiction novel depends on the murderer's ability to replace a crime with a convincingly constructed illusion of innocence, and to escape punishment by means of good manners. Erb also looks in detail at the theme of retribution in detective fiction. Can justice ever be anything more than retribution, death without hope? What satisfaction can be made for the loss of a human life? How can a murderer ever fully confess a crime and experience thanksgiving in final release from the consequences?
