Traditional beliefs about meeting goals are fundamentally flawed. Goal setting tactics assume goals are measurable, achieved, and final-all attributes that describe objectives, not goals. Unlike objectives, which are by their very nature self-contained, goals are immeasurable. A goal is realized, not achieved, and must be maintained to remain successful. What good is the goal of losing weight if you don't keep the weight off? Losing twenty pounds is an objective. Keeping that twenty pounds from returning is a goal, which must be maintained to remain a

I put this story line together with a Middle Eastern background. It is where I created and shared this story with many Iraqi children. Islam has angels too and I do believe that with all of the hatred that is in this world, children should never be a part of it! Children of all ages can enjoy this book, from Kindergarten to the 6th grade. This story explains diversity. I have always used it as a tool to explain how wrong it is to hate other people because of how they pray or worship. Questions can be asked throughout the entire story of how wrong it is to mistreat others because of the color of their skin, where they are from. Being mean to another because they are hungry or hurt. I did make reference to bullying which a teacher can stop and ask the important question of being mean for no reason. The story explains what can happen to people who do not tell the truth.
