Laboratory Manual of Pharmaceutics I Mr. Vijay D. Havaldar,Dr. Kailas Mali ,Dr. Vishwajeet S. Ghorpade,Dr. Remeth J. Dias,2023-09-28 We are very pleased to put forth the first edition of 'Laboratory Manual of Pharmaceutics'. We have made this manual student friendly and relevant in terms of achieving curriculum outcome. Now, we believe that the manual has been fulfilling the aspirations of pharmaceutics teachers and students too. This manual is prepared as per PCI Education Regulations, 2014 for Degree Course in Pharmacy. This manual is designed for 'outcome-based education' and each experiment is arranged in a uniform way such as practical significance, practical outcomes (PrOs) and its mapping with course outcomes, theory, resources used, procedure, precautions, labeling, observations, result, conclusion, references and synopsis questions. The procedures and formulas of all the experiments are reviewed and added, so that the advancement in the methods can be addressed. A sincere attempt has been made through this manual to provide practical knowledge to the students related to various topics of Pharmaceutics. The manual mainly includes the experiments through which the students will learn to prepare various types of conventional dosage forms such as syrups, elixirs, solutions, suspensions, emulsions, powders, suppositories, ointments, gargles and mouth washes in the laboratory. A brief introduction to various dosage forms before the related experiments can assist in better perception of the experiment. The manual has been designed with more emphasis on the practical skill improvement of the students so that the students can perform the practical with ease and comfort. Hope this manual will help the students to learn the concept, principles and perform the experiments virtually. We wish you all the best!!!
