Big machines and their drivers work together to build a library.

For decades, anthropologist Hill Gates had waited for an opportunity to get to know the citizens of China as she had done in Taiwan—face to face, over an extended period of time. At last in the late 1980s she set out on an excursion to Sichuan Province. That visit was the first of many she would make there on a remarkable double adventure: to gain a deeper understanding of Chinese women and to complete a difficult passage in her own life. Looking for Chengdu is her memoir of these trips. By turns analytic, witty, and bittersweet, Gates's observations on contemporary China are enlivened by a keen eye for the oddities of human behavior, including her own. The vast, inland province of Sichuan was the birthplace of the Chinese economic reforms of the 1970s, and is now speeding from the sixteenth to the twenty-first century. Was its economic boom transforming women's lives, Gates wondered? After a generation of socialist rule, would women risk the challenge of entrepreneurship? A feminist, she was especially curious to learn what Chinese of both sexes defined as women's rights. Gates traveled—by boat, train, bus, car, bicycle, and foot (her preference)—across the spectacular countryside, gleaning insight into China's massive bureaucracies from her experiences on an obligatory vacation, in a Tibetan dance-hall, and at a shouting match in her Chengdu home. She met dozens of hard-working, stylish women running family firms, and crossed paths with scholars and sailors. Her book is rich in anecdotes and compelling moments, from her journey through mountain villages in search of five thousand women with bound feet to low-voiced conversations about the Chengdu equivalent of the events at Tiananmen Square. A fascinating glimpse into the deeply personal vocation of anthropology, Gates's memoir will change the way readers think about the Chinese people.

Can you remember a time when there was no internet, no computers, no cellphones? When rock and roll, bell bottoms and miniskirts were all the rage? The year was 1974. Kyle was a high school senior, looking for something to fill the emptiness in his life. A child of a divorced couple, he grew up with only his music to rely on. But then he saw her. And while he walked from her apartment toward home, he knew she was The One. He was sure of it. And now that he knew, he could never live without her. Valerie was a high school teacher caged in an abusive, loveless marriage, looking for an escape. When she heard Kyle play his music, she knew her life would never be the same. As she looked over her four lists, she saw that all of the pros under Kyle's name were all the things missing from her life. There were only two cons, and they could destroy her. The relationship was so wrong, so dangerous. Everywhere there were obstacles and no one thought it was right, including one person whose interference became increasingly violent to the point where their very lives were threatened.

This publication sets out the statutory requirements for signing, lighting, and guarding at street works and road works. This is the core reference manual for utility companies, local authorities, street work contractors and others whose day-to-day business involves street works (works by statutory undertakers and other utility companies etc) and road works (works to maintain or repair road infrastructure). The code, which covers all of the UK and includes national variations, is now compulsory for highway/road authorities in England, Wales and Northern Ireland. It applies to all single carriageway roads and dual carriageways with a speed limit of 40 mph or less. The code is now divided into three parts: Basic Principles, Operations, and Equipment and Vehicles; site layout diagrams have been redrawn to make them easier to understand. There is: increased emphasis on using risk assessment and guidance on what to consider in such assessments; strengthened guidance on providing for pedestrians and cyclists and new guidance on traffic control measures related to road closures, one-way working and temporary road obstructions; enhanced advice on other traffic control measures including works near tramways and railways, and mobile/short duration works; and updated advice on high visibility clothing and the signing and conspicuity requirements for work vehicles. Effective from 1 October 2014 when it will supersede the 2001 edition (ISBN 9780115519581).

What does it take to say "F-it!" and really mean it? To walk away from the circumstances that have you stuck in neutral, or worse, headed in the wrong direction? To reroute your life along a smoother path toward success? To live an "F"-It-Less life? Have you ever just thrown your hands in the air and said "F"-It!? Been tempted to give in to someone or something you've been resisting? Or worse, found yourself backed into changes, circumstances, or even a life you didn't ask for? If so, you are not alone. But thankfully, there is now a powerful way to never have to say "F-It!" again. It begins with reframing the 'f' word . . . and ultimately leads to reframing your life. It's a method designed to help you

choose the life you want to live, rather than blindly accepting the one you've got. Shaun Rawls, popular motivational speaker and founder of Atlanta's #1 real estate firm, devised this method during one of the most trying, yet triumphant periods of his life. In "F"-It Less he offers a whole new lexicon of F-words more powerful than the one we all already know. By employing each thoughtfully and practically in your life you can begin to craft the existence you've always dreamed of. During his own transformation, words such as 'fragmented', 'frustrated', 'fractured', and 'failed' helped him identify where he was in the moment and to earnestly assess where he'd gone wrong in the past. In time he enjoyed days that were 'fine' or even 'fantastic'. Prioritizing words such as 'float,' 'family,' 'faith,' 'fun,' and 'freedom,' reminded him of his destination, while words such as "find," "forgive," "forget," "fix," and "foxhole" helped him to get there faster. What he discovered is that these F-words can draw us back into alignment with our purpose and goals, enabling us to live a more intentional and rewarding life—the life of our dreams. In this infinitely empowering book, Rawls shares both his story and his method with you, boldly encouraging you to use these words to examine your own life too—to see if it is one you consciously crafted or one you simply allowed to unfold. To decide whether you're living how you really want to live or if there is still much more work to be done. He challenges you to truly listen to your heart and gut, and to honestly acknowledge the areas of our life where you've compromised love and happiness for money, safety, security, or worse, fear. He coaxes you not to let our best life pass you by, but rather to proactively attain the life you really want. By sharing some of his greatest lessons, Rawls aims to help you avoid some of the same obstacles he's encountered and to live what he refers to as an "F-it-less" life—the life we're all entitled to discover, explore, and fulfill for ourselves. Saying, "F-It!" doesn't always have to mean you are giving in or giving up. With the right tools, it can actually mean you are ready to pursue a better life— one of greater ease, meaning, and purpose. A truly F-It-Less life.

The story of Venus of Khala-Kanti unfolds in the ancient forests of an imaginary West African village. The story is at once a straightforward narrative of human courage and an allegory for the amputation of a continent and its peoples. The tale is, above all, the story of hope, recovery and rediscovery. The vitality and reclamation of the characters is accomplished through an indomitable and lyrical animation of the natural world in concert with human kindness, empathy and zest for life.

Before any road construction can begin, road planners must study the area to decide which way is best to get from one place to another. They need to know how many vehicles will use the new road, and whether it will have any bridges or tunnels. Surveyors and engineers will be needed, as well as special heavy machinery driven by skillful operators. The same careful attention is needed for repairs or changes to existing roads. A postmodern masterpiece about fraud and forgery by one of the most distinctive, accomplished novelists of the last century. The Recognitions is a sweeping depiction of a world in which everything that anyone recognizes as beautiful or true or good emerges as anything but: our world. The book is a masquerade, moving from New England to New York to Madrid, from the art world to the underworld, but it centers on the story of Wyatt Gwyon, the son of a New England minister, who forsakes religion to devote himself to painting, only to despair of his inspiration. In expiation, he will paint nothing but flawless copies of his revered old masters—copies, however, that find their way into the hands of a sinister financial wizard by the name of Reckall Brown, who of course sells them as the real thing. Dismissed

uncomprehendingly by reviewers on publication in 1955 and ignored by the literary world for decades after, *The Recognitions* is now established as one of the great American novels, immensely ambitious and entirely unique, a book of wild, Boschian inspiration and outrageous comedy that is also profoundly serious and sad.

This "comforting...thoughtful" (The Washington Post) guide to maintaining a high quality of life—from resilient old age to the first inklings of a serious illness to the final breath—by the New York Times bestselling author of *Knocking on Heaven's Door* is a "roadmap to the end that combines medical, practical, and spiritual guidance" (The Boston Globe). "A common sense path to define what a 'good' death looks like" (USA TODAY), *The Art of Dying Well* is about living as well as possible for as long as possible and adapting successfully to change. Packed with extraordinarily helpful insights and inspiring true stories, award-winning journalist Katy Butler shows how to thrive in later life (even when coping with a chronic medical condition), how to get the best from our health system, and how to make your own "good death" more likely. Butler explains how to successfully age in place, why to pick a younger doctor and how to have an honest conversation with them, when not to call 911, and how to make your death a sacred rite of passage rather than a medical event. This handbook of preparations—practical, communal, physical, and spiritual—will help you make the most of your remaining time, be it decades, years, or months. Based on Butler's experience caring for aging parents, and hundreds of interviews with people who have successfully navigated our fragmented health system and helped their loved ones have good deaths, *The Art of Dying Well* also draws on the expertise of national leaders in family medicine, palliative care, geriatrics, oncology, and hospice. This "empowering guide clearly outlines the steps necessary to prepare for a beautiful death without fear" (Shelf Awareness).

As a friend and cohort of some of rock music's biggest legends - the Who, Rod Stewart, the Rolling Stones, the Eagles, Joe Walsh, and countless others - photographer Tom Wright was given unparalleled access to almost every aspect of the musicians' lives, on- and offstage. *Roadwork* is a compilation of over 200 of Wright's groundbreaking photographs and the true stories behind the captivating pictures that have earned him praise as "America's most important documenter of the 1960s and 1970s rock 'n' roll scene". Gritty and realistic, poignant and beautiful, Wright's photos powerfully deconstruct the glamour of life on the road, capturing the true essence of rock 'n' roll: the musicians, the roadies, the fans, and the beautiful women who voraciously followed these rock bands. Over the years, Wright has allowed almost no commercial access to his work; his photographs have been available to only the musicians he's worked with and a handful of record company executives ... until now. *Roadwork* offers a rare glimpse into the extraordinary life and stunning art of Tom Wright, the man Joe Walsh dubbed "the Jack Kerouac of rock 'n' roll." Includes 180 black and white photos (60 of those are full page) and an eight page color section.
