Roar of the African Lion Chika Onyeani, 2015-04-20 The African Lion, Dr Chika Onyeani, is back and roaring. The author of the phenomenally successful *Capitalist Nigger* offers a new collection of his speeches, articles and other writings over the last fifteen years. In *Roar of the African Lion*, Dr Onyeani's unblinking gaze and plain speaking are directed at many of the burning issues of the day. He outlines his revolutionary Spider Web Doctrine—aimed at financial self-reliance and the upliftment of black communities—and attacks the parasitic leaders whose greed has robbed the people of Africa of opportunities for advancement and development since their liberation. He is equally scornful of the failures of the African elite to influence the direction of their countries, and has trenchant comments to make about racism, xenophobia and hypocrisy in Africa, America and elsewhere. Dr Onyeani also tackles the persistence of slavery on the continent, the West's ambivalent attitude to aid and debt relief, rampant corruption and 'whiteness' of Barack Obama. Looking to the future, he cautions Africa to be wary of China's embrace and to pursue its own solutions to African problems.

History of the Urhobo People of Niger Delta Peter Palmer Ekeh, Urhobo Historical Society, 2007 History of The Urhobo People of Niger Delta is the most comprehensive compilation and study of various aspects of the history of the

Urhobo people of Nigeria's Niger Delta. It begins with an examination of the prehistory of the region, with particular focus on the Urhobo and their close ethnic neighbour, the Isoko. The book then embarks on a close assessment of the advent of British imperialism in the Western Niger Delta. History of The Urhobo People of Niger Delta also probes the arrival and impact of Western Christian missions in Urhoboland. Urhobo history is notable for the sharp challenges that the Urhobo people have faced at various points of their di?cult existence in the rainforest and deltaic geographical formation of Western Niger Delta. Their history of migrations and their segmentation into twenty-two cultural units were, in large part, e?orts aimed at overcoming these challenges. History of The Urhobo People of Niger Delta includes an evaluation of modern responses to challenges that confront the Urhobo people, following the onrush of a new era of European colonization and introduction of a new Christian religion into their culture. The formation of Urhobo Progress Union and of its educational arm of Urhobo College is presented as the Urhobo response to modern challenges facing their existence in Western Niger Delta and Nigeria. History of The Urhobo People of Niger Delta extends its purview to various other fragments of the Urhobo historical and cultural experience in modern times. These include the di?culties that have arisen from petroleum oil exploration in the Niger Delta in post-colonial Nigeria.

The Numeral Systems of Nigerian Languages Ozo-mekuri Ndimele, S.L. Chan, 2016-04-30 The papers in this collection present the numeral systems of more than twenty Nigerian languages. The papers mainly emanate from a workshop on the numeral systems of Nigerian languages organised by the Linguistic Association of Nigeria during its 23rd Annual Conference which was held at the University of Port Harcourt, Nigeria. The workshop arose from awareness created by Dr. Eugene S.L. Chan on the need for Nigerian linguists to document this severely endangered but very important aspect of natural languages. The quantum of mathematical computations - addition, multiplication, subtraction, or a combination of two or all of these - involved in the numeral systems of Nigerian languages is remarkable. The papers reveal that a variety of numeral systems do exist, such as: binary, decimal, incomplete decimal, duodecimal, quinary, quaternary, ternary, mixed, body-part tally systems, and much more. The book is a resource about how different languages manipulate their numeral systems.
